3. Pursuant to the requirements of this docket, the Company has prefiled the PGA true-up forms supplied by the Electric and Gas Department for the April 1996-March 1997 period in a manner consistent with the Department's instructions.

4. As indicated in the prefiled true-up forms, Sebring Gas has experienced an underrecovery of \$710 for the April 1996 - March 1997 period. In a FPSC docket dated March 14, 1997, an estimated overrecovery of \$8,621 for the April 1996 - March 1997 period was approved for calculation of the true-up factor for April 1997 - March 1998. Therefore, a final true-up amount of \$9,331 underrecovery will be included in the current calculation of the April 1998 - March 1999 true-up factor.

5. For the period of April 1997 - March 1998, the Company projects an underrecovery of \$4,621, resulting in a net underrecovery of \$13,952 to collect in the period April 1998 - March 1999. Therefore, the cumulative true-up factor to be applied to gas bills for this period is a collection of 2.1443 cents per therm sold.

6. As indicated on the attached schedules E-1 through E-5, the Company projects total gas costs for the April 1998 - March 1999 period to be \$270,890. The Company projects therm sales of 650,662, resulting in a weighted average cost of gas (WACOG) of 44.614 cents per therm for the twelve-month period ending March 31, 1999.

7. The Company projects the average cost of gas to be 44.614 cents per therm, which includes the actual estimated cost of gas, plus the projected period's true-up of 2.1443 cents per therm, and the total of the two figures multiplied by the tax revenue factor of 1.01911.

WHEREFORE, for the purpose of establishing the maximum rate to be charged for all sales during the period April 1998 - March 1999, the Company petitions the Commission to enter its Order approving the Company's true-up factor of 44.614 cents per therm.

DATED this 22th day of January, 1998.

Respectfully submitted,
Sebring Gas System, Inc.

Jerry H. Melendy, Jr.
Vice President
