Gentlemen:

Please refer to the application directed to your office regarding section 367.071, Florida Statutes, by Saltwood Station Co-Op, Inc.

My name and handset located within the area mentioned in the above application. The water rates are described in the Developer Agreement dated July 1, 1993. If the application is approved by you, the rates will, at the very least, double what I now pay. This is completely unacceptable to me and it is for this reason that I ask that you deny the application referred to in paragraph 1 above.

Very truly yours,
