It has been brought to our attention that Florida Citrus Water Company will be requesting a rate increase shortly. This rate increase was turned down some time ago after a concerted citizen protest.

We request that any hearing be held in the service area (Lee County) and not in Tallahassee.

We also feel Florida Citrus Water should have to pay the environmental litigation costs. They should not be allowed to recover these costs through their customers in Lee County.

Yours truly,  
  
Phyllis Brodsky
