

ORIGINAL

Dear Sir

I object to Changing the name or transfer of the K.W. Power Utility. Reasons are indicated as follows.

No. 1. K.W. Power Utility Owns me a few thousand Dollars. I own Residence on Meriam St. Stock Isl. #. 24, 25, 26, 27. (prior to the Sewage renovation Meriam St. No doubt that the Dry up St. in Stock Isl. of K.W.)

No 2. Any rain whatsoever puts me in a mud hole this is really unusual & would have to see to believe.

No 3. Drainage Coves have been elevated to the point if you know the area you want run over them even tho they are in the middle of the street. Drive your Car over them & Hell bet you get your mufflers either Bent Badly or torn off.

The above is just a general complaint. I have been directed through my yards to either get out of water or miss the Orange Top

No 1. they took away all my Porch, which they assured me they would replace, they used my water, they never returned the six water hoses which they promised.

No 2. At H. 24 they ran into the Chain Link Drive way Fence which was never fixed as promise.

No 3. At H. 26 they dug a huge hole busting a City Waterline flooding a Concrete Storage & Water Meter Posing & filling it full of mud. Which took hours to shovel out they cracked my Concrete Block Wall fence at that point.

#4. At 4.27 When they parked their Heavy Equip & Sign
they demolished a portion of my Concrete Block wall
to the point of beyond repair & later after waiting
mos. by (Promised) that they would come back &
repair same finally I sawed a portion of the wall
out & made wooden gates so it looked
presentable.

I have called & went to office of sewer
Manager & waited for them to show but look
at the Damage no one ever came, then
there came a false Claim Against a Couple of
places of not paying Sewerage Svc. Up to date I
asked for the final In Question got my receipts
for same went back on Call was placed to
Home by the Secretary while I watched she said
there was a mistake & that they corrected their record.

I applied for a second ^{mortgage} loan on my home at
H-26 recently & would you believe a 100.00 Dollars
& something don't remember exactly could of been 160.00
to be exact was claimed for this unit. I made
an attempt on my own to get an appointment with
a Mr. Kyle James who would be in K.W. on FEB 29
I don't remember the yr I never wrote it down any way
to visit show because of the weather my next appointment was
Mar 24. Which I was told he never showed I knew
better that time because I stayed in the park area
which he went in after I made it clear I wasn't
leaving until I saw some one in the back of it
this time I met Mr. Kyle who resolved my claim
to where I believed until recently.

Daniel Water Co. now in charge has promised
to come out today & appraise my claim again
I waited no one has ever come, Daniel Water

Waste or whatever they call themselves will not assist in any sewage complaint. I have no respect for them based on their false promises in the past.

I want all my defaults by them as mentioned corrected as promised I want 5,000 dollars reimbursement that I had to pay a pavement Co. to get me out of a mud hole trap still goes through the front of my property. I want my FAR-KAY wood floor in kitchen & dining room replaced or paid appraised amount. I want the lake that encompassed my property taken away so I can park in front of my house.

Sincerely
George M. Horde
