Dear Commissioners:

I am a landowner in Marion County, Florida. Recently I was informed that Florida Water Services Inc. (WS) has submitted an application to amend its Marion Oaks water and wastewater service area that includes my land.

I have not been contacted by representatives of FWS nor I have I requested service from the utility and yet they are attempting to certificate my land. Futhermore, the Marion Oaks system has much higher user rates than other utilities in the County.

My reasons for not wanting to be included in this proposed certification include:

1. My Property is vacant at this time and have no need for the service
2. When we move on hand we will install our own well + septic
3. We feel that the cost is way more than if we have our own install
4. Prefer to have things left as they are people have the right to decide when and how they want their septic + water service

For these reasons I object to the proposed certification amendment to increase the Marion Oaks water and wastewater service area.
