Re: Sunshine Utilities Extension of service (# 112509)

Dear Director,

I have owned a quadraplex for 13 years and have manage four other quads in the Oakhaven Subdivision for about 10 years , which is served by Sunshine Utilities. My objection to this company expanding their service to another area is that they plan to use the current well that services Oakhaven and Northgate II, another quad subdivision. Over all the years that I have owned and managed property in this area ,the water has been so bad that most of the tenants use bottled water to drink. Many times I have lost tenants because of the water problem.. Even though the water may pass all of the state safety requirement , the water is bad... bad... bad... and the usage rate keeps going up.. should we have good water if we have to pay ? Approving this expansion will include other properties that will also have the same problem? I am concerned.... and ask that you deny this request , unless, and until the current ongoing problem is corrected , without the usual rate increase that always comes with any little improvement...

Respectfully yours,

*Carol Masters*
