Dear Commissioners:

I am a landowner in Marion County, Florida. Recently I was informed that Florida Water Services Inc. (WS) has submitted an application to amend its Marion Oaks water and wastewater service area that includes my land.

I have not been contacted by representatives of FWS nor have I requested service from the utility and yet they are attempting to certificate my land. Futhermore, the Marion Oaks system has much higher user rates than other utilities in the County.

My reasons for not wanting to be included in this proposed certification include:

1. We have a good well with good water and do not want city water,
2. which leaves a bad taste; and a residue on everything
3. It will be an added burden in cost which we cannot afford.
4. The digging for this and roads that would probably follow will break the ecology of this area.
