Catherine Bedell, Senior Attorney *CB*

Re: Special Project No. 980000B-SP - Access by Telecommunications Companies to Customers in Multi-Tenant Environments.

By this time you should have received notice of the first staff workshop in the above-referenced special project. As stated in the notice, the purpose of this workshop will be to identify issues to be addressed in the Commission's report. In the interest of time and in order to conduct a more productive workshop on July 7, 1998, Commission staff requests that interested participants submit at their earliest convenience proposed issues associated with telecommunications companies serving customers in multi-tenant environments. Issues should be filed with the Division of Records and Reporting and a copy mailed or faxed to staff no later than June 29, 1998. Faxes should be sent Attn: Catherine Bedell at (850) 413-6250. Staff will organize the issues submitted and provide all participants with a comprehensive list. This draft list of issues will provide the framework for the workshop. An Agenda for the July 7th workshop is attached.

There are two additional workshops scheduled in this project. They will be held on August 12, and September 15, 1998. Unless the workshop attendance exceeds the capacity of the space reserved, all meetings will be held in Room 182, Betty Easley Conference Center in Tallahassee at 9:30 a.m. Staff has arranged for a court reporter for all workshops. After the first workshop on July 7, 1998, staff will prepare and disseminate a list of issues. Participants will be required to provide written positions and comments on these issues two weeks prior to the August 12th workshop. At the August 12th workshop, participants will discuss their positions on the identified issues. Two weeks after the second workshop, participants will file any additional comments or rebuttal on information presented at the second workshop. Final comments will be received at the third workshop on September 15, 1998. We have also attached a schedule of critical dates for the project.

For those of you interested in obtaining information on staff assignments, interested persons or documents filed in this project using the Commission's Case Management System, this project can be accessed by entering 980000B at the "Docket No." prompt. All documents prepared for use in

Multi-tenant Environments

Page 2

June 15, 1998

this project should be filed with the Division of Records and Reporting and identified as Special Project No. 980000B-SP - Access by Telecommunications Companies to Customers in Multi-Tenant Environments.

If you should have any questions about this memo or the above-referenced project, please do not hesitate to call Catherine Bedell at (850) 413-6197, Dan Hoppe at (850) 413-6800 or John Cutting at (850) 413-6844.
