Re: Petition by Tampa Electric Company for Approval of Cost Recovery for a new Environmental Program, the Big Bend Units 1 and 2 Flue Gas Desulfurization System, FPSC Docket No. 980693-E1

Dear Grace:

Following up our conversation of yesterday, it is my understanding you are suggesting that Staff modify the production of document requests to which Tampa Electric has objected (Staff's Request Nos. 30, 31, 32, 33 and 35) to focus on those documents "which address or describe the nature or characteristics of Tampa Electric's CAAA Phase II Compliance proposals". This will confirm Tampa Electric is willing to withdraw its objections to the above-referenced requests and to forthwith provide any and all documents meeting the above requests as modified below:

- 30 Provide copies of all reports and review for Tampa Electric Company and TECO Energy, Inc. prepared by or for investment banking firms from May 1, 1997 through the present which address or describe the nature or characteristics of Tampa Electric's CAAA compliance proposals
- 31 Provide copies of all reports and analyses for Tampa Electric Company and TECO Energy, Inc. prepared by or for Standard & Poor's from May 1, 1997 through the present which address or describe the nature or characteristics of Tampa Electric's CAAA compliance proposals
- 32 Provide copies of all reports and analyses for Tampa Electric Company and TECO Energy, Inc. prepared by or for Moody's Investor Services from May 1, 1997 through the present which address or describe the nature or characteristics of Tampa Electric's CAAA compliance proposals
- 33 For both Tampa Electric Company and TECO Energy, Inc., provide copies of all reports, reviews, and analyses for the past two years to any other rating agency or

regulatory body which address or describe the nature or characteristics of Tampa Electric's CAAA compliance proposals

- 35 Provide copies of all final orders, letter rulings, and any other forms of communication from the Federal Energy Regulatory Commission (FERC) since January 1, 1997 which address or describe the nature or characteristics of Tampa Electric's CAAA compliance proposals

Please advise if the foregoing is acceptable

Sincerely,

James D. Beasley
