BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Approval of Resale Agreement) between GTE Florida Incorporated and) EZ Taik Communications, L.L.C.)

Docket No. 980938-TP Filed: July 27, 1998

PETITION OF GTE FLORIDA INCORPORATED FOR APPROVAL OF RESALE AGREEMENT WITH EZ TALK COMMUNICATIONS, L.L.C.

GTE Florida Incorporated (GTEFL) files this petition before the Florida Public Service Commission seeking approval of a resale agreement which GTEFL has entered with EZ-Talk Communications, L.L.C. (EZ Talk). In support of this petition, GTEFL states:

- The United States Congress recently passed legislation amending the Communications Act of 1934. This act, referred to as the Telecommunications Act of 1996, requires that any "interconnection agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission." Telecommunications Act of 1996, §252(e).
- 2. Under the federal act, interconnection/resale agreements can be rejected by the state commission only if the commission finds that the agreement (or any portion thereof) discriminates against a telecommunications carrier not a party to the agreement or if the implementation of that agreement is not consistent with the public interest, convenience and necessity.
- The agreement with EZ Talk (attached hereto as Attachment A) does not discriminate against other similarly situated carriers and is also consistent with the public

interest, convenience and necessity. As such, GTEFL seeks approval of the agreement from the Commission as required under the federal statutory provisions noted above.

WHEREFORE, GTEFL respectfully requests that the Commission approve the attached resale agreement and that GTEFL be granted all other relief proper under the circumstances.

Respectfully submitted on July 27, 1998.

This Resale Agreement (the "Agreement"), is made effective as of ________, 199____, by and between GTE Florida Incorporated, with its address for purposes of this Agreement at 600 Hidden Ridge Drive, Irving, Texas 75038 ("GTE"), and EZ Talk Communications, L.L.C., in its capacity as a certified provider of local dial-tone service ("EZ Talk"), with its address for this Agreement at 4727 South Main, Stafford, Texas 77477 (GTE and EZ Talk being referred to collectively as the "Parties" and individually as a "Party"). This Agreement covers services in the state of Florida only (the "State").

WHEREAS, Section 251 of the Telecommunications Act of 1996 (the "Act") imposes specific obligations on LECs with respect to the resale of telecommunications services;

WHEREAS, GTE is entering, under protest, into certain aspects of this Agreement that incorporate adverse results from the arbitrated agreements approved by the Commission in this state and is doing so in order to avoid the expense of arbitration while at the same time preserving its legal positions, rights and remedies.

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, GTE and EZ Talk hereby covenant and agree as follows:

0630G4RS.WP6

EZ Talk agrees to negotiate reciprocal terms and conditions with GTE based on this Agreement. GTE's execution of this Agreement is not a concession or waiver in any manner concerning its position that certain of the rates, terms and conditions contained herein are unlawful, illegal and improper.

The services and facilities to be provided to EZ Talk by GTE in satisfaction of this Agreement may be provided pursuant to GTE tariffs and then current practices. Should such services and facilities be modified by tariff or by Order, including any modifications resulting from other Commission proceedings, federal court review or other judicial action, and unless otherwise specified herein, such modifications will be deemed to automatically supersede any rates and terms and conditions of this Agreement. The Parties shall cooperate with one another for the purpose of incorporating required modifications into this Agreement.

Term and Termination.

- 2.1 Term. Subject to the termination provisions contained in this Agreement, the term of this Agreement shall be two (2) years from the effective date referenced in the first paragraph of this Agreement and shall continue in effect for consecutive one (1) year terms until either Party gives the other Party at least ninety (90) calendar days written notice of termination, which termination shall be effective at the end of the then-current term. In the event notice is given less than 90 calendar days prior to the end of the current term, this Agreement shall remain in effect for 90 calendar days after such notice is received, provided, that in no case shall the term be extended beyond 90 calendar days after the end of the current term.
- Post-Termination Arrangements. Except in the case of termination as a result of either Party's default or a termination upon sale, for service arrangements made available under this Agreement and existing at the time of termination, those arrangements may continue without interruption (a) under a new agreement voluntarily executed by the Parties: (b) standard terms and conditions approved and made generally effective by the Commission, if any; (c) tariff terms and conditions made generally available to all CLECs; or (d) any rights under Section 252(i) of the Act.
- 2.3 <u>Termination Upon Default</u>. Either Party may terminate this Agreement in whole or in part in the event of a default by the other Party; provided, however, that the non-defaulting Party notifies the defaulting Party in writing of the alleged default and that the defaulting Party does not cure the alleged default within sixty (60) calendar days of receipt of written notice thereof. Default is defined to include:

The Party shall provide the other Party with at least ninety (90) calendar days' prior written notice of such termination, which shall be effective on the date specified in the notice. Notwithstanding termination of this Agreement as to a specific operating area, this Agreement shall remain in full force and effect in the remaining operating areas.
- 2.5 <u>Liability upon Termination</u>. Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in this Agreement to survive termination.

- Amendments. Any amendment, modification, or supplement to this Agreement must be in writing and signed by an authorized representative of each Party. The term "this Agreement" shall include future amendments, modifications, and supplements.
- 4. <u>Assignment.</u> Any assignment by either Party of any right, obligation, or duty, in whole or in part, or of any interest, without the written consent of the other Party shall be void, except that either Party may assign all of its rights, and delegate its obligations, liabilities and dutias under this Agreement, either in whole or in part, to any entity that is, or that was immediately preceding such assignment, a Subsidiary or Affiliate of that Party without consent, but with written notification. The effectiveness of an assignment shall be conditioned upon the assignee's written assumption of the rights, obligations, and duties of the assigning Party.
- Authority. Each person whose signature appears on this Agreement represents and warrants that
 he or she has authority to bind the Party on whose behalf he or she has executed this Agreement.
- 6. Responsibility for Payment. GTE may charge EZ Talk and EZ Talk will pay GTE a deposit before GTE is required to perform under this Agreement if EZ Talk has not established a good payment history with GTE. Such deposit will be calculated based on GTE's estimated two-month charges to EZ Talk using EZ Talk's forecast of resale lines and unbundled loops and ports. Interest will be paid on the deposit in accordance with state requirements for end user deposits.
- Billing and Payment. Except as provided elsewhere in this Agreement and where applicable, in conformance with MECAB and MECOD guidelines, EZ Talk and GTE agree to exchange all information to accurately, reliably, and properly order and bill for features, functions and services rendered under this Agreement.
 - 7.1 <u>Dispute</u>. If one Party disputes a billing statement issued by the other Party, the billed Party shall notify Provider in writing regarding the nature and the basis of the dispute within six (6) months of the statement date or the dispute shall be waived. The Parties shall diligently work toward resolution of all billing issues.
 - 7.2 Late Payment Charge. If any undisputed amount due on the billing statement is not received by Provider on the payment due date, Provider may charge, and Customer agrees to pay, at Provider's option, interest on the past due balance at a rate squal to the lesser of the interest rates set forth in the applicable GTE/Contel state access tariffs or the GTOC/GSTC FCC No. 1 tariff, one and one-half percent (1½%) per month or the maximum nonusurious rate of interest under applicable law. Late payment charges shall be included on the next statement.
 - 7.3 Due Date. Payment is due thirty (30) calendar days from the bill date.
 - Audits. Either Party may conduct an audit of the other Party's books and records pertaining to the services provided under this Agreement, no more frequently than once per twelve (12) month period, to evaluate the other Party's accuracy of billing, data and invoicing in accordance with this Agreement. Any audit shall be performed as follows: (i) following at least thirty (30) Business Days' prior written notice to the audited Party; (ii) subject to the reasonable scheduling requirements and limitations of the audited Party; (iii) at the auditing Party's sole cost and expense; (iv) of a reasonable scope and duration; (v) in a manner so as not to interfere with the audited Party's business operations; and (vi) in compliance with the audited Party's security rules.
- Binding Effect. This Agreement shall be binding on and inure to the benefit of the respective successors and permitted assigns of the Parties.

- Capacity Planning and Forecasting. Within thirty (30) days from the effective date of this
 Agreement, the Parties agree to have met and developed joint planning and forecasting
 responsibilities which are applicable to local services. Such responsibilities shall include but are
 not limited to the following:
 - 9.1 EZ Talk will furnish to GTE information that provides for state-wide annual forecasts of order activity, in-service quantity forecasts, and facility/demand forecasts.
 - 9.2 EZ Talk shall notify GTE promptly of changes greater than ten percent (10%) to current forecasts (increase or decrease) that generate a shift in the demand curve for the following forecasting period.
- Compliance with Laws and Regulations. Each Party shall comply with all federal, state, and local statutes, regulations, rules, ordinances, judicial decisions, and administrative rulings applicable to its performance under this Agreement.
- Confidential Information.
 - 11.1 Identification. Either Party may disclose to the other proprietary or confidential customer, technical, or business information in written, graphic, oral or other tangible or intangible forms ("Confidential Information"). In order for information to be considered Confidential Information under this Agreement, it must be marked "Confidential" or "Proprietary," or bear a marking of similar import. Orally or visually disclosed information shall be deemed Confidential Information only if contemporaneously identified as such and reduced to writing and delivered to the other Party with a statement or marking of confidentiality within thirty (30) calendar days after oral or visual disclosure.

Notwithstanding the foregoing, preorders and all orders for services placed by EZ Talk pursuant to this Agreement, and information that would constitute customer proprietary network information of EZ Talk end user customers pursuant to the Act and the rules and regulations of the FCC, as well as recorded usage information with respect to EZ Talk end users, whether disclosed by EZ Talk to GTE or otherwise acquired by GTE in the course of its performance under this Agreement, and where GTE is the NANP Number Plan Administrator, EZ Talk information submitted to GTE in connection with such responsibilities shall be deemed Confidential Information of EZ Talk for all purposes under this Agreement whether or not specifically marked or designated as confidential or proprietary.

- 11.2 Handling. In order to protect such Confidential information from improper disclosure, each Party agrees:
 - (a) That all Confidential Information shall be and shall remain the exclusive property of the source;

If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.

If the Parties are unable to reach agreement on a price for such item, an interim price shall be set for such item that is equal to the price for the nearest analogous item for which a price has been established (for example, if there is not an established price for a non recurring charge (NRC) for a specific service, the Parties would use the NRC for the most analogous retail service for which there is an established price). GTE does not waive any position regarding the illegality or inappropriateness of the FCC's First Report and Order.

If the Parties cannot reach agreement on such a provision within twenty (20) calendar days thereafter, the Parties agree that this entire Agreement is void and will not become effective, and EZ Talk agrees to withdraw this Agreement from consideration by the Commission (or any other commission or federal or state court). In such event, each Party shall have twenty-five (25) days following the close of the twenty (20)-day negotiation period within which to file a petition for arbitration before the Commission under Section 252(e) of the Telecommunications Act of 1996 of the issues that remain in dispute under this Section.

- 4. Impact of Payment of Charges on Service. EZ Talk is solely responsible for the payment of all charges for all services, facilities and elements furnished under this Agreement, including, but not limited to, calls originated or accepted at its or its end users' service locations. If EZ Talk fails to pay when due any and all charges billed to EZ Talk under this Agreement, including any late payment charges (collectively, "Unpaid Charges"), and any or all such charges remain unpaid more than forty-five (45) Business Days after the bill date of such Unpaid Charges excepting previously disputed charges for which EZ Talk may withhold payment, GTE shall notify EZ Talk in writing that it must pay all Unpaid Charges to GTE within seven Business Days. If EZ Talk disputes the billed charges, it shall, within said seven day period, inform GTE in writing of which portion of the Unpaid Charges it disputes, including the specific details and reasons for the dispute, unless such reasons have been previously provided, and shall immediately pay to GTE all undisputed charges. If EZ Talk and GTE are unable, within thirty (30) Business Days thereafter, to resolve issues related to the disputed charges, then either EZ Talk or GTE may file a request for arbitration under Article III of this Agreement to resolve those issues. Upon resolution of any dispute hereunder, if EZ Talk owes payment it shall make such payment to GTE with any late payment charge under Article III, Section 7.2, from the original payment due date. If EZ Talk owes no payment, but has previously paid GTE such disputed payment, then GTE shall credit such payment including any late payment charges. If EZ Talk fails to pay any undisputed Unpaid Charges, EZ Talk shall, at its sole expense, within five Business Days notify its end users that their service may be disconnected for EZ Talk's failure to pay Unpaid Charges, and that its end users must select a new provider of local exchange services. GTE may discontinue service to EZ Talk upon failure to pay undisputed charges as provided in this Section 4, and shall have no liability to EZ Talk or EZ Talk's end users in the event of such disconnection. If EZ Talk fails to provide such notification or any of EZ Talk's end users fail to select a new provider of services within the applicable time period, GTE may provide local exchange services to EZ Talk's end users under GTE's applicable end user tariff at the then current charges for the services being provided. In this circumstance, otherwise applicable service establishment charges will not apply to EZ Talk's end user, but will be assessed to EZ Talk.
- 5 Unlawful Use of Service. Services provided by GTE pursuant to this Agreement shall not be used by EZ Talk or its end users for any purpose in violation of law. EZ Talk, and not GTE, shall be responsible to ensure that EZ Talk and its end users use of services provided hereunder comply at all times with all applicable laws. GTE may refuse to furnish service to EZ Talk or disconnect particular services provided under this Agreement to EZ Talk or, as appropriate, EZ Talk's end users when (i) an order is issued by a court of competent jurisdiction finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law or (ii) GTE is notified in writing by a law enforcement agency acting within its jurisdiction that any facility furnished by GTE is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law. Termination of service shall take place after reasonable notice is provided to EZ Talk, or as ordered by the court. If facilities have been physically disconnected by law enforcement officials at the premises where located, and if there is not presented to GTE the written finding of a court, then upon request of EZ Talk and agreement to pay restoral of service charges and other applicable service charges, GTE shall promptly restore such service.

- 6. <u>Timing of Messages</u>. With respect to GTE resold measured rate local service(s), chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network.
- 7. Procedures For Preordering, Ordering, Provisioning, Etc., Certain procedures for preordering, ordering, provisioning, maintenance and billing and electronic interfaces for many of these functions are described in <u>Appendix B</u>. All costs and expenses for any new or modified electronic interfaces EZ Talk requires that GTE determines are Currently Available and GTE agrees to develop will be paid by EZ Talk pursuant to <u>Appendix B</u>. The schedule for implementation of any new or modified electronic interfaces will be developed by GTE according to industry standards and will be based upon the amount of work needed to design, test and implement the new or modified interface.

Letter of Authorization

- 8.1 GTE will not release the Customer Service Record (CSR) containing Customer Priority Network Information (CPNI) to EZ Talk on GTE end user customer accounts unless EZ Talk first provides to GTE a written Letter of Authorization (LOA), signed by the end user customer, authorizing the release of such information to EZ Talk or if state or federal law provides otherwise, in accordance with such law.
- 8.2 An LOA will be required before GTE will process an order for services provided in cases in which the subscriber currently receives Exchange Service from GTE or from a local service provider other than EZ Talk. Such LOA may be a blanket LOA or such other form as agreed upon between GTE and EZ Talk.
- 9. <u>Customer Contacts</u>. Except as otherwise provided in this Agreement or as agreed to in a separate writing by EZ Talk, EZ Talk shall provide the exclusive interface with EZ Talk's end user customers in connection with the marketing or offering of EZ Talk services. Except as otherwise provided in this Agreement, in those instances in which GTE personnel are required pursuant to this Agreement to interface directly with EZ Talk's end users, such personnel shall not identify themselves as representing GTE. All forms, business cards or other business materials furnished by GTE to EZ Talk end users shall be generic in nature. In no event shall GTE personnel acting on behalf of EZ Talk pursuant to this Agreement provide information to EZ Talk end users about GTE products or services unless otherwise authorized by EZ Talk.

ARTICLE V RESALE OF SERVICES

1. General. The purpose of this Article V is to define the Exchange Services and related Vertical Features and other services (collectively referred to for purposes of this Article V as the "services") that may be purchased from GTE and resold by EZ Talk and the terms and conditions applicable to such resold services. Except as specifically provided otherwise in this Agreement, provisioning of Exchange Services for resale will be governed by the GTE Guide. GTE will make available to EZ Talk for resale any Telecommunications Service that GTE currently offers, or may offer hereafter, on a retail basis to subscribers that are not telecommunications carriers, except as qualified by Section 2.1 below.

Terms and Conditions.

- 2.1 <u>Restrictions on Resale</u>. The following restrictions shall apply to the resale of retail services by EZ Talk.
 - 2.1.1 EZ Talk shall not resell to one class of customers a service that is offered by GTE only to another class of customers in accordance with state requirements (e.g., R-1 to B-1, disabled services or lifeline services to non-qualifying customers).
 - 2.1.2 EZ Talk shall not resell lifeline services and services for the disabled.
 - 2.1.3 EZ Talk shall not resell promotional offerings of ninety (90) days or less in duration. These promotional offerings are not available to EZ Talk for resale. GTE will apply any applicable resale discount to the ordinary rate for a retail service rather than the special promotional rate.
- 2.2 Interim Universal Service Support Charge for Wholesale Services. If EZ Talk wishes to resell GTE's Basic Exchange Residential and Business services, it is GTE's position that GTE's current intraLATA toll rates include implicit subsidies that support below-cost prices for other services and thus promote universal service. This universal service support is lost where a CLEC resells GTE's local service but does not resell GTE's intraLATA toll service. For this reason, GTE will not resell Basic Exchange Residential or Business services unless EZ Talk pays the monthly interim universal service support charge set forth in Appendix A. GTE believes that this interim surcharge is required by state and federal law.

The lawfulness of GTE's interim surcharge is being addressed (or will be addressed) by the Commission or a court of competent jurisdiction. The Parties agree that GTE will offer for resale Basic Local Exchange Residential and Business services at the avoided cost discount rate set forth in <u>Appendix A</u> without the interim surcharge, but subject to the following terms and conditions:

- 2.2.1 EZ Talk agrees that within thirty (30) days after the effective date of a Commission or court order affaming GTE's interim surcharge, EZ Talk will (i) begin paying the monthly interim surcharge in accord with <u>Appendix A</u>, and (ii) make a lump sum payment to GTE of the total interim surcharges retroactive to the effective date of this agreement.
- 2.2.2 Notwithstanding any provision in this Agreement, GTE may, at is sole discretion and at any time, seek injunctive or other relief (i) requiring EZ Talk to pay GTE's

interim surcharge or (ii) requiring the Commission to immediately impose the interim surcharge.

- 2.2.3 Nothing in this Agreement shall restrict or impair GTE from seeking injunctive relief or any other remedy at any time and in any court regarding GTE's interim surcharge or the Commission's rejection or modification of GTE's interim surcharge.
- 2.3 <u>Restrictions on Discount of Retail Services</u>. The discount specified in Section 5.3 herein shall apply to all retail services except for the following:
 - 2.3.1 EZ Talk may resell services that are provided at a volume discount in accordance with terms and conditions of applicable tariff. EZ Talk shall not aggregate end user lines and/or traffic in order to qualify for volume discount.
 - 2.3.2 EZ Talk may resell ICB/Contract services without a discount and only to end user customers that already have such services.
 - 2.3.3 EZ Talk may resell COCOT coin or coinless line, however, no discount applies.
 - 2.3.4 EZ Talk may resell special access; however, no discount applies.
 - 2.3.5 EZ Talk may resell Operator Services and Directory Assistance as specified in Section 5.6 herein; however, no discount applies.
- 2.4 Resale to Other Carriers. Services available for resale may not be used by EZ Talk to provide access to the local network as an alternative to tariffed switched and special access by other carriers, including, but not limited to: interexchange carriers, wireless carriers, competitive access providers, or other retail telecommunications providers.

Ordering and Billing.

- 3.1 Local Service Request. Orders for resale of services will be placed utilizing standard Local Service Request ("LSR") forms. GTE will continue to participate in industry forums for developing service order/disconnect order formats and will incorporate appropriate industry standards. Complete and accurate LSR forms (containing the requisite end user information as described in the Guide) must be provided by FZ Talk before a request can be processed.
- 3.2 <u>Certificate of Operating Authority</u>. When ordering, EZ Talk must represent and warrant to GTE that it is a certified provider of local dial-tone service. EZ Talk will provide a copy of its Certificate of Operating Authority or other evidence of its status to GTE upon request.
- 3.3 <u>Directory Assistance Listings.</u> GTE shall include a EZ Talk customer listing in its Directory Assistance database as part of the Local Service Request ("LSR") process. GTE will honor EZ Talk Customer's preferences for listing status, including non-published and unlisted, as noted on the LSR and will enter the listing in the GTE database which is used to perform Directory Assistance functions as it appears on the LSR.
- Nonrecurring Charges EZ Talk shall be responsible for the payment of all nonrecurring charges ("NRC"s) applicable to resold services (e.g., installation, changes, ordering charges) as listed in <u>Appendix A</u>. In addition, NRCs for Field Service work (Installation/Repair requiring on site visits will be charged from the appropriate tariff. No discount applies to nonrecurring charges.

- 3.5 Transfers Between EZ Talk and Another Reseller of GTE Services. When EZ Talk has obtained an end user customer from another reseller of GTE services, EZ Talk will inform GTE of the transfer by submitting standard LSR forms to GTE.
- 3.6 Local Calling Detail. Except for those services and in those areas where measured rate local service is available to end users, monthly billing to EZ Talk does not include local calling detail. However, EZ Talk may request and GTE shall consider developing the capabilities to provide local calling detail in those areas where measured local service is not available for a mutually agreeable charge.
- 3.7 <u>Procedures.</u> An overview of the procedures for preordering, ordering, provisioning and billing for resold services are outlined in <u>Appendix B</u>, attached hereto and made a part hereof.
- 3.8 <u>LIDB</u>. For resale services, the LSR will generate updates to GTE's LIDB for validation of calling card, collect, and third number billed calls.
- 3.9 <u>Originating Line Number Screening (OLNS)</u>. Upon request, GTE will update the database to provide OLNS which indicates to an operator the acceptable billing methods for calls originating from the calling number (e.g., penal institutions, COCOTS).

Maintenance.

- 4.1 Maintenance. Testing and Repair. GTE will provide repair and maintenance services to EZ Talk and its end user customers for resold services in accordance with the same standards and charges used for such services provided to GTE end user customers. GTE will not initiate a maintenance call or take action in response to a trouble report from a EZ Talk end user until such time as trouble is reported to GTE by EZ Talk. EZ Talk must provide to GTE all end user information necessary for the installation, repair and servicing of any facilities used for resold services according to the procedures described in the Guide.
- 4.2 Specifics and Procedures for Maintenance. An overview of the procedures for maintenance of resold services and additional matters agreed to by the Parties concerning maintenance are set forth in <u>Appendix B</u>.

Subject to the limitations on resale enumerated in this Article, any new services that GTE offers in the future at retail to customers who are not telecommunications carriers shall also be available to EZ Talk for resale under the same terms and conditions contained in this Agreement. Additional regulations, terms and conditions relating to the type of services listed on <u>Appendix A</u> can be found in the appropriate intrastate local, toll and access tariffs. Terms, conditions and other matters concerning rate applications, technical parameters, provisioning capability, definitions and feature interactions contained in such tariffs are applicable to the type of services offered under this Agreement and are incorporated herein by reference. Modifications to services listed on <u>Appendix A</u> shall be provided to EZ Talk in accordance with GTE's practices and procedures.
 - 5.2.1 <u>Promotional Services</u>. GTE shall make available for resale, those promotional offerings that are greater than 90 days in duration and the special promotional rate will be subject to the applicable resale discount.
- 5.3 Rates. The prices charged to EZ Talk for local services shall be calculated as follows:
 - 5.3.1 Avoided Cost Discount as shown on <u>Appendix A</u> shall apply to all retail services except those services listed in Section 2.1 and Section 2.3 herein.
 - 5.3.2 The discount dollar amount calculated under Section 5.3.1 above will be deducted from the retail rate.
 - 5.3.3 The resulting rate is the resale rate.
 - 5.3.4 This discount dollar amount in Section 5.3.2 above shall not change during the Term of this Agreement, even though GTE may change its retail rates.
- 5.4 <u>Grandfathered Services</u>. Services identified in GTE Tariffs as grandfathered in any manner are available for resale only to end user customers that already have such grandfathered service. An existing end user customer may not move a grandfathered service to a new service location. Grandfathered services are subject to a resale discount.

- 5.6.1 If EZ Talk requests branding or unbranding, GTE will provide such unbranding or rebranding with EZ Talk's name.
- 5.6.2 EZ Talk will be billed a charge for unbranding or rebranding and customized routing.
- 5.6.3 For those offices that EZ Talk has requested GTE to rebrand and/or unbrand OS and DA, GTE will provide it where GTE performs its own OS and DA service subject to capability and capacity limitations where customized routing is Currently Available. If GTE uses a third-party contractor to provide OS or DA, GTE will not provide branding nor will GTE negotiate it with a third party on behalf of EZ Talk. EZ Talk must negotiate with the third party. In these instances, EZ Talk will need to purchase customized routing and dedicated trunking to differentiate its OS/DA traffic from GTE's.
- Misdirected Calls. The Parties will employ the following procedures for handling any misdirected calls (e.g., Business office, repair bureau, etc.).
 - 6.1 To the extent the correct provider can be determined, each Party will refer misdirected calls to the proper provider of local exchange service. When referring such calls, both Parties agree to do so in a courteous manner at no charge.
 - 6.2 For misdirected repair calls, the Parties will provide their respective repair bureau contact number to each other on a reciprocal basis and provide the end user the correct contact number.
 - 6.3 In responding to misdirected calls, neither Party shall make disparaging remarks about each other, nor shall they use these calls as a basis for internal referrals or to solicit end users or to market services.

911/E911 Arrangements.

- 7.1 <u>Description of Service</u>. Where GTE is the 911 service provider, GTE shall provide 911 Service as described in this Section as an element of local exchange services available for resale.
- 7.2 Cooperation and Level of Performance. The Parties agree to provide access to 911/E911 in a manner that is transparent to the end user. The Parties will work together to facilitate the prompt, reliable and efficient level of performance that will provide the same grade of service as that which GTE provides to its own end users.
- 7.3 Updates to Master Street Address Guide (MSAG). It shall be the responsibility of EZ Talk to ensure that the address of each of its end users is included in the MSAG. Where GTE is the lead telco, GTE will accept address records provided on EZ Talk's LSR. GTE and EZ Talk will work together to develop the process by which LSR errors out of the MSAG will be handled, with appropriate cost recovery to GTE. Where GTE is not the lead telco, GTE has no action and EZ Talk must establish a separate relationship with the lead telco to submit records for MSAG validation. APPENDIX A SERVICES AVAILABLE FOR RESALE

General. The rates contained in this Appendix A are based upon an avoided cost discount from GTE's retail rates as provided in Article V, Section 5.3 of the Agreement to which this Appendix A is attached. The avoided cost discount is based upon GTE's most current available cost studies and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Universal Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

GTE assesses a separate interim universal service fund surcharge for resale of Basic Local Exchange Residential and Business Services at the avoided cost discount set forth to provide continued universal service support that is implicit in GTE's current retail services prices. This surcharge is being addressed (or will be addressed) by the Commission or a court of competent jurisdiction. The parties agree that GTE will offer for resale Basic Local Exchange Residential and Business Services set forth in Appendix A without the interim surcharge, but subject to the following terms and conditions:

- A. EZ Talk agrees that within thirty (30) days after the effective date of a Commission or court order affirming GTE's interim surcharge, EZ Talk will (i) begin paying the monthly interim surcharge in accord with Appendix A, and (ii) make a lump sum payment to GTE of the total interim surcharges retroactive to the effective date of this Agreement.
- B. Notwithstanding any provision in this Agreement, GTE may, at its sole discretion and at any time, seek injunctive or other relief (i) requiring EZ Talk to pay GTE's interim surcharge or (ii) requiring the Commission to immediately impose the interim surcharge.
- C. Nothing in this Agreement shall restrict or impair GTE from seeking injunctive relief or any other remedy at any time and in any court regarding GTE's interim surcharge or the Commission's rejection or modification of GTE's interim surcharge.

The avoided cost discount is 13.04%.

APPENDIX B SERVICE ORDERING, PROVISIONING, BILLING AND MAINTENANCE

- Service Ordering, Service Provisioning, and Billing Systems Generally. The following describes generally the operations support systems that GTE will use and the related functions that are available for ordering, provisioning and billing for resold services. Except as specifically provided otherwise in this Agreement, service ordering, provisioning, billing and maintenance shall be governed by the GTE Guide. Before orders can be taken, EZ Talk will provide GTE with its Operating Company Number ("OCN") and Company Code ("CC") as follows:
 - (a) EZ Talk must provide its OCN (four-digit alpha-numeric assig. ad by Bellcore or number administrator) on the EZ Talk Profile. The GTE Guide provides the necessary information for EZ Talk to contact Bellcore to obtain the OCN. There are no optional fields on the Profile.
 - (b) Before the Local Service Request ("LSR") and Directory Service Request ("DSR") order forms can be processed EZ Talk must provide the OCN and Customer Carrier Name Abbreviation ("CCNA").
 - 1.1 Operations Support Systems for Resold Services
 - 1.1.1 EZ Talk will also be able to order services for resale, as well as interim number portability, directly from GTE through an electronic interface. To initiate an order for these services, EZ Talk will submit a Local Service Request ("LSR") from its data center to GTE's Data Center using an electronic NDM interface. If no NDM interface exists or if EZ Talk chooses to establish a separate NDM interface, EZ Talk must request an NDM facility. For new entrants that elect not to interface electronically, GTE will accommodate submission of LSR orders by facsimile, E-mail, Internet or a dial NDM arrangement. An LSR is very similar to an ASR, except that it will be used exclusively for line-side interconnection requests. GTF will transfer LSRs to GTE's NOMC centralized service order processing centar electronically.
 - 1.1.2 Most LSRs will be used either to transfer an existing GTE customer to EZ Talk or to request service for a new customer who is not an existing GTE customer. Depending on the situation, different information will be required on the LSR. LSRs for a conversion of a GTE local customer to EZ Talk must include information relating to all existing, new and disconnected services for that customer, including the customer's name, type of service desired, location of service and features or options the customer desires. EZ Talk will be able to obtain this customer information after GTE has received the customer's written consent as specified in Article IV, Section 8. For service to a new customer who is not an existing GTE customer, the LSR must contain the customer's name, service address, service type, services, options, features and Services data. If known, the LSR should include the telephone number and due date/desired due date.
 - 1.1.3 'While EZ Talk would have its own customer information and may have the SAG/GTE products on tape from GTE, EZ Talk would not have the due date or new telephone number for new customers since that information is contained in GTE's systems. Therefore, a process is required to provide this information to EZ.

Talk. GTE itself does not have uniform access to this information electronically. Until GTE and EZ Talk have agreed and established electronic interfaces, EZ Talk agrees that an 800 number is the method that will be used. The 800 telephone number will connect EZ Talk directly to GTE's NOMC service representatives. When EZ Talk receives a request for basic services from a new local service customer, EZ Talk will call GTE's NOMC through the 800 number, and, while the new customer is on hold, GTE will provide the due date for service and the new telephone number for that customer. At the same time, EZ Talk will give GTE the new customer's name, service address and type of requested service (i.e., R1, B1). GTE will enter that information into its SORCES or SOLAR service ordering systems to be held in suspense until EZ Talk sends the confirming LSR. EZ Talk will then return to its customer holding on the line and provide the due date and new telephone number.

- 1.1.4 After concluding the telephone call with the new customer, EZ Talk will complete a confirming LSR for the new service and send it electronically to GTE's data center for processing. Upon receipt, GTE will match the LSR with the service order suspended in GTE's system, and if there is a match, GTE will process the LSR. After the LSR is processed, GTE will transmit confirmation electronically to EZ Talk through the NDM that the LSR has been processed, providing a record of the telephone number and due date. EZ Talk will be required to submit the confirming LSR by 12:00 p.m. each day local time, as defined by the location of the service address. If EZ Talk fails to submit the LSR in a timely manner, the suspended LSR will be considered in jeopardy, at which time GTE will assign a new due date upon receipt of the delayed LSR for such customer requests and notify EZ Talk of the change.
- 1.1.5 Number assignments and due date schedules for services other than single line service and hunt groups up to 12 lines will be assigned within approximately twenty-four (24) hours after GTE's receipt of the LSR using the standard Local Service Confirmation ("LSC") report sent electronically to EZ Talk over the NDM, thereby providing a record of the newly established due date. An exception would be a multi-line hunt group for 12 lines or fewer. The other numbers then will be provided through the normal electronic confirmation process.
- 1.1.6 The processing of specifically requested telephone numbers (called "vanity numbers") is as follows. GTE will work with EZ Talk on a real time interface to process vanity numbers while EZ Talk's customer is still on the line. If a number solution can be established expeditiously, it will be done while the customer is still on the line. If extensive time will be required to find a solution, GTE service representatives will work with EZ Talk representatives off line as GTE would for its own customers. For all of this, the basic tariff guidelines for providing telephone numbers will be followed.
- 1.1.7 Once the order for resold service is established, it is moved for provisioning to the next system level. Here, GTE will validate and process the LSR to establish an account for EZ Talk and, if GTE continues to provide some residual services to the customer, GTE will maintain a GTE account. In GTE's system, GTE's account is called the Residual Account and EZ Talk's account is referred to as the EZ Talk Account. If any engineering for the service is necessary, the account would be distributed to the SSCC. Otherwise, it will be distributed for facility assignment.
- 1.1.8 With the account established and any engineering and facility assignment complete, GTE then will transmit electronically a record to GTE's CZT field

personnel if physical interconnection or similar activity is required. The CZTs will provision the service and then electronically confirm such provision in the SOLAR/SORCES system when completed. The accounts then will be transmitted to GTE's Customer Billing Services System ("CBSS"). GTE shall provide to EZ Talk a service completion report. Call records for actual service provided to EZ Talk's customers on GTE facilities will be transmitted from GTE's switches through some usage rating systems (BIP, UMS), screened and eventually delivered to CBSS for the generation of bills.

- 1.1.9 CBSS is a different system than CABS, and it is the one that GTE will utilize to produce the required bills for resold services and local number portability. CBSS will create a bill to EZ Talk for resold services along with a summary bill master. Daily unrated records for intraLATA toll usage and local usage (incollect usage data will be provided on rated basis) on EZ Talk's accounts will be generated and transmitted electronically to EZ Talk.
- 1.1.10 On resold accounts, GTE will provide usage in EMR format per existing file exchange schedules. The usage billing will be in agreed upon level of detail for EZ Talk to issue a bill to its end users.
- 1.1.11 GTE will provide EZ Talk with detailed monthly billing information in a paper format until an agreed upon Electronic Data Interchange 811 electronic bill format is operational.
- 1.1.12 State or sub-state level billing will include up to ten (10) summary bill accounts.
- 1.1.13 GTE accepts EZ Talk's control reports and agrees to utilize industry standard return codes for unbillable messages. Transmission will occur via the NDM. Tape data will conform to Attachment "A" of the LRDTR. Data will be delivered Monday through Friday except for holidays as agreed. Data packages will be tracked by invoice sequencing criteria. GTE contacts will be provided for sending/receiving usage files.
- 1.1.14 GTE will retain data backup for forty-five (45) Business Days. To the extent this retention is exclusively for EZ Talk, EZ Talk shall reimburse GTE for all expenses related to this retention.
- 1.1.15 In addition to the LSR delivery process, EZ Telk will distribute directory assistance and directory listing information (logether sometimes referred to hereafter as "DA/DL information") to GTE via the LSR ordering process over the NDM. GTE will provide listings service via its "listing continuity" offering.
- 1.1.16 Charges and credits for PIC changes ordered via an LSR will appear on the resale bill. As EZ Talk places a request for a PIC change via LSR, the billing will be made on EZ Talk account associated with each individual end user. GTE will process all PIC changes from IXCs that are received for EZ Talk end users by rejecting back to the IXC with the EZ Talk OCN. Detail is provided so that EZ Talk can identify the specific charges for rebilling to its end user.
- 1.1.17 CMDS. The Parties will provide for the distribution of intraLATA CMDS incollect messages and/or selected local measured service messages as follows:
 - 1.1.17.1 Messages to be Screened. GTE receives CMDS I transmissions containing intraLATA incollect messages from the state RBOC

CMDS host each Business Day. Per EZ Talk's request, GTE will screen the incollects by NPA and line number and accumulate the Collect, Third Number Billed and Credit Card (collectively called incollects) messages in a data file. The screening will be for end users who have chosen EZ Talk as their local service provider through a Resale or Unbundled Network arrangement. The screened incollect messages and any Local Measured Service ("LMS") usage will be accumulated and forwarded to EZ Talk. The Parties will mutually agree on the frequency of the data exchange and the method of transmission (i.e., magnetic tape or direct electronic transmission). GTE will forward the screened messages in the industry standard EMR format. GTE intraLATA toll messages that are recorded by GTE and dialed on a one plus or zero plus basis are not part of this Section and will not be screened.

- 1.1.17.2 Compensation. GTE will bill EZ Talk monthly for all services related to the screening, accumulating, processing and transmitting of incollect messages and LMS usage, if applicable, at a reasonable and mutually agreeable charge. In addition, any message processing fee associated with EZ Talk's incollect messages that are charged to GTE by the CMDS host will be passed on to EZ Talk on the monthly statement. All revenue, surcharges, taxes and any other amounts due to the CMDS host for EZ Talk's incollect messages will be billed on the monthly statement. It is EZ Talk's responsibility to bill and collect all incollect and LMS amounts due from its end users. The incollect and LMS revenue amounts that are listed on the monthly invoice are payable to GTE in total. The Parties agree that the arrangement for invoicing the incollect and LMS revenue amounts due GTE is not a settlement process with EZ Talk.
- 1.1.17.3 Administration. The Parties agree to develop a process whereby EZ
 Talk's end user information is available in a timely manner to allow
 GTE to build tables to screen the CMDS incollect files and LMS files
 on behalf of EZ Talk.
- 1.1.18 <u>Backbilling</u>. GTE shall bill EZ Talk on a timely basis. In no case shall GTE bill EZ Talk for previously unbilled charges that are for more than one year prior to the current bill date.

EZ Talk will doctment its Certificate of Operating Authority on the EZ Talk Profile and agrees to update this EZ Talk Profile as required to reflect its current certification. The Parties agree to exchange and to update end user contact and referral numbers for order inquiry, trouble repetiting, billing inquiries, and information required to comply with law enforcement and other security agencies of the government. Prior to submitting an order under this Agreement, EZ Talk shall obtain such documentation as may be required by state and federal laws and regulations.

- 1.2.2 GTE shall provide EZ Talk with a specified customer contact center for purposes of placing service orders and coordinating the installation of services. Maintenance Systems.

2.1 General Overview

- 2.1.1 If EZ Talk requires maintenance for its local service customers, EZ Talk will initiate a request for repair (sometimes referred to as a "trouble report") by calling GTE's Customer Care Repair Center. During this call, GTE service representatives will verify that the end-user is a EZ Talk customer and will then obtain the necessary information from EZ Talk to process the trouble report. While EZ Talk representatives are still on the line. GTE personnel will perform an initial analysis of the problem and remote line testing for resale services. If engineered services are involved, the call will be made to the GTE SSCC for handling. If no engineering is required and the line testing reveals that the trouble can be repaired remotely, GTE personnel will correct the problem and close the trouble report while EZ Talk representatives are still on the line. If on-line resolution is not possible, GTE personnel will provide EZ Talk representatives a commitment time for repair, and the GTE personnel then will enter the trouble ticket into the GTE service dispatch queue. EZ Talk's repair service commitment times will be within the same intervals as GTE provides to its own end users. Maintenance and repair of GTE facilities is the responsibility of GTE and will be performed at no incremental charge to EZ Talk. If, as a result of EZ Talk-initiated trouble report, trouble is found to be the responsibility of EZ Talk (e.g., nonnetwork cause) GTE will charge EZ Talk for trouble isolation. EZ Talk will have the ability to report trouble for its end users to appropriate trouble reporting centers 24 hours a day, 7 days n week. EZ Talk will be assigned a customer contact center when initial earvice agreements are made.
- 2.1.2 Repair calls to the SSCC for engineered services will be processed in essentially the same manner as those by the GTE Customer Care. GTE personnel will analyze the problem, provide the EZ Talk representative with a commitment time while they are still on the line, and then place the trouble ticket in the dispatch queue.
- 2.1.3 GTE then will process all EZ Talk trouble reports in the dispatch queue along with GTE trouble reports in the order they were filed (first in, first out), with priority given to out-of-service conditions. If, at any time, GTE would determine that a commitment time given to EZ Talk becomes in jeopardy, GTE service

representatives will contact EZ Talk by telephone to advise of the jeopardy condition and provide a new commitment time.

- 2.1.4 Trouble reports in the dispatch queue will be transmitted electronically to GTE CZT service technicians who will repair the service problems and clear the trouble reports. For cleared EZ Talk trouble reports, GTE service technicians will make a telephone call to EZ Talk directly to clear the trouble ticket. GTE service technicians will make the confirmation call to the telephone number provided by EZ Talk. If EZ Talk is unable to process the call or places the GTE technician on hold, the call will be terminated. To avoid disconnection, EZ Talk may develop an answering system, such as voice mail, to handle the confirmation calls expeditiously.
- 2.1.5 GTE will provide electronic interface access to operation support systems functions which provide the capability to initiate, status and close a repair trouble ticket. GTE will not provide to EZ Talk real time testing capability on EZ Talk end user services. GTE will not provide to EZ Talk an interface for network surveillance (performance monitoring).
- Electronic Interface. The Parties shall work cooperatively in the implementation of electronic gateway access to GTE operational support systems functions in the long-term in accordance with established industry standards.
 - 3.1 EZ Talk shall have immediate access to the following OSS electronic interfaces that will provide functionality to enable EZ Talk to service customers in an equal and non-discriminatory manner:
 - 3.1.1 Pre-Order functions, e.g., TN Assignment, DD Reservation, Address Validation, Product Availability, that are available on a dial-up or dedicated basis using the Secure Integrated Gateway System ("SIGS").
 - 3.1.2 Order functions that are available on a dial-up or dedicated basis using CONNECT: Mail file transfer.
 - 3.1.3 Initial trouble reports via SIGS.
 - 3.1.4 Electronic transfer of the EZ Talk bill in electronic data 311 format.
 - 3.2 EZ Talk may migrate to fully interactive system to system interconnectivity. GTE, with input from EZ Talk and other carriers, shall provide general interface specifications for electronic access to this functionality. These specifications will be provided to enable EZ Talk to design system interface capabilities. Devalopment will be in accordance with applicable national standards committee guidelines. Such interfaces will be available as expeditiously as possible.
 - 3.3 All costs and expenses for any new or modified electronic interfaces exclusively to meet EZ Talk requirements that GTE determines are Currently Available and GTE agrees to develop will be paid by EZ Talk.
 - 3.4 EZ Talk shall be responsible for modifying and connecting any of its pre-ordering and ordering systems with GTE provided interfaces as described in this Appendix.
- GTE Initiated Electronic System Redesigns. GTE will not charge EZ Talk when GTE initiates its own electronic system redesigns/reconfigurations.
