Docket No. 980733-TL

Filed: August 3, 1998

GTC, INC.'S MOTION
FOR TEMPORARY PROTECTIVE ORDER

Pursuant to Rule 25-22.034 and 25-22.006(6)(c), Florida Administrative Code, GTC, Inc. ("GTC"), by and through its undersigned counsel, requests that the Florida Public Service Commission enter a temporary protective order covering certain information to be produced in response to the Attorney General's and Citizens' First Request for Production of Documents to GTC ("First POD"), and states:

1. The First POD was served by mail on June 25, 1998. Therein, the Attorney General and Office of Public Counsel request GTC to produce its responses to certain data requests sent to GTC by Staff on June 19, 1998. While GTC has not finalized its responses to those data requests at this time, it believes that some of the information that it may include in its responses is confidential and should not be disclosed to the

public. See Fla. Stat. §§ 364.24 and 119.07(3)(r) (1995). This information includes, but is not limited to, total revenues, total units of services, and other related data. This kind of information is routinely considered confidential by the Commission. Any data request response submitted by the Company with this kind of data will be submitted with a claim of confidentiality under Section 364.183(1), Florida Statutes, as set forth in the procedural memorandum for this project, dated July 10, 1998.

2. The Attorney General and Public Counsel have indicated their desire to have certain of the materials and information they have designed made available so that they may more closely review certain materials and information provided over a longer period of time and to be provided with copies of certain documents for review to their consultants.

3. One objective of this review would be to reduce the volume of materials and information actually taken by the Attorney General and Public Counsel and, ultimately, the volume of proprietary confidential materials and information that will be needed as evidence or supporting documentation in this special project. This review, in the Company's opinion, has the potential to significantly reduce the volume of material and information for which final proprietary confidential treatment must eventually be requested.

4. By this Motion, GTC requests that the materials and information identified as confidential and made available for inspection or produced to the Attorney General and Public Counsel in response to the First POD be granted the protection of a Temporary Protective Order as provided for by Rule 25-22.006(5)(c), Florida Administrative Code. A temporary protective order will temporarily exempt the confidential documents from the disclosure requirements for the Public Records Act and protect the materials and information from public disclosure until the Attorney General and Public Counsel, their employees, agents, consultants, expert witnesses and others acting on their behalf complete their review of the materials and information.

5. Production Procedures. For purposes of this motion and the resulting Temporary Protective Order, GTC proposes and will follow these production procedures:

- A. All documents that reflect information that GTC believes to be confidential shall be marked conspicuously with the word "confidential" and numbered for control. The portion of a document reflecting confidential information shall be highlighted with a yellow marker.
- B. Documents marked "confidential" shall be numbered and segregated from the non-confidential documents, and shall

- be sent to the Attorney General and Office of Public Counsel in envelopes marked "confidential" on the front.
- C. The Attorney General and Office of Public Counsel shall exercise reasonable care to prevent the disclosure of documents marked "confidential" during their review of such documents.
- D. Within a reasonable time before the workshops in this proceeding, the Attorney General and Office of Public Counsel will notify counsel for GTC of their intent to use some or all of the confidential documents provided by GTC so that GTC can prepare and file a request for confidential classification and/or motion for permanent protective order in a timely manner.
- E. GTC, the Attorney General and the Office of Public Counsel shall cooperate in good faith to minimize the amount of confidential material to be used at the workshops in this case.
- F. The Attorney General's and Public Counsel's attorneys, employees, agents, consultants, expert witnesses and other persons acting on their behalf may review all documents or answers stamped confidential. Such persons shall not disclose the contents of any document stamped confidential to anyone other than the Attorney General's or Public Counsel's attorneys, employees, agents, expert

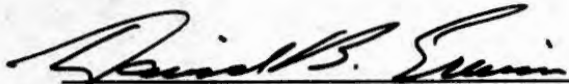

witnesses and other persons acting on their behalf
without the prior written consent of GTC.

6. GTC anticipates that the procedures outlined in this Motion will greatly reduce the volume of materials for which proprietary confidential treatment must ultimately be sought. The alternative to this approach entails lengthy, but ultimately needless, review by the parties and by the Commission of materials which the Attorney General and Public Counsel do not find necessary for their purposes in this docket.

7. Nothing in this Motion is intended to, nor shall it, create a precedent as to the confidentiality of any of the material sought to be protected, nor is it intended to preclude any party from challenging GTC's claim of proprietary confidential treatment for any material or information which the Company files with its final Request for Confidential Classification.

WHEREFORE, GTC moves for a Temporary Protective Order covering materials produced by it in response to the First POD in this docket.

DATED this 3rd day of August, 1998.
