To whom ever it may concern,
there aren't enough words in the
English Language ^(sp). I'm so angry
I can't spell, to think you put a
charge of 1.78 for carrier time
charge & Universal Connectivity
charge on my bill then you
have the stupidity to hold
hearings on how people feel
about it.

I'm told it will be on my bill whether
I make a long distance call or not,
that is wrong. I would not pay it
if I could keep from it.
As you can see I am definitely not
in favor of it.

Sincerely, Elbert Gibbens
