Tallahassee, FL 32399-0850

Dear Sirs:

I just finished writing this  
same letter to Bell South and feel  
that you are probably the ones to  
express my anxieties to.

It's most annoying to realize  
that almost every time I get a bill  
from Bell South, a new charge has  
been tacked on for another cause that  
I had no say in supporting. First, the  
Toll Access charge which started with  
a dollar is now up to \$3.50, the  
Maintenance Plan has climbed to \$3.95  
and barely covers anything that  
needs attention. Recently, an.85 chg.  
over

original

was added for what is called a  
"Carrier Line Charge." And now, a  
new addition to the "Family of Funds"  
for .93 which has something to do  
with AT&T long-distance calls. I do  
not use AT&T. I use Telecom - U S A -  
Central which is much cheaper. Per-  
haps, if AT&T didn't have to pay  
Paul Reiser for their T.V. commercials,  
they could compete at a lower rate.

I listened to the recording twice  
and it stated that the monies for  
this fund would help the needy & we  
don't need bureaucrats taking our  
money as they see fit to help worth-  
while causes. I donate to the causes  
of my choice as I see fit. Such un-  
authorized methods are undemocratic  
and impermissible.

If I remove AT&T as my long-  
distance carrier, will the .85 and  
.93 charges be omitted?
