RE: DOCKET NO. 980724-EG - Petition to modify Heating and Cooling Program by Tampa Electric Company.

Issue 1: Should the Commission approve Tampa Electric Company's petition for modification of the Heating and Cooling Program, including approval for energy conservation cost recovery?

Recommendation: Yes. The modified Heating and Cooling Program is cost-effective and appears to be directly monitorable. Reasonable and prudent expenditures for the program, as modified, should be approved for cost recovery, and the resulting demand and energy savings should continue to count towards TECO's DSM goals.
