To Whom it Concerns:

I appreciate the opportunity for rate comments. I have two.

#1 On our attached bill (towards the top) Sprint charges, for local service, \$7.98 for a one party access line and \$1.00 for touch-tone line feature. This sub total should be \$8.98 and yet it is listed as \$9.09. The potential of this error--11 cents X 12 months X thousands of customers would equal some large dollar amounts.

#2 Sprint charges us \$3.50 monthly for "FCC network access charge." Our long distance carrier also charges us a fee to connect to them. It seems like we are paying twice for the privilege of making long distance calls. Please clarify.

Thank you for your consideration.
