To Whom It May Concern,

Before you give any Co,
Telephone, gas, oil, electric

Now over and above our reg
bill + long distance bill, we
are paying ^{\$}7.33.

We are ^{husband - me} 70 + 65. We are on a
very low income. ^{me} 478.00 + 636.00
+ we need a phone due to our
age + we live in the country.

You tell me how any one on
a fixed income can keep this
up with electric, gas, oil +
phone going up, up, up?

Our Country is the only Country
who do not give a damn about
old people. But look at how
income people (+ I do not mean
selfish people) who are going

2 steps forward + 3 back.

You can't even get a job any more if you don't have a phone.

At min. wage what do you expect from people.

All these big companies have so MANY businesses under different names, + they keep doing it so they can keep asking for rate increases. This should not be allowed.

But again I feel our feelings as the public does not matter. We just again waste our tax money for studies.

I thank You
