Mr. John C. Cutting  
Division of Research and  
Regulatory Review  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0872

Dear Mr. Cutting:

Enclosed is GT Com's response to staff's request for data concerning access by telecommunications companies to customers in multi-tenant environments.

If any additional information is required, I can be reached by telephone at (850) 229-7222.

Sincerely,

Bill Thomas  
Director-Products & Services

- 
1. Are you aware of any specific instances during 1997 in which a landlord or building owner denied or limited access to an alternative telecommunications provider for the installation of telecommunications equipment? If so, please describe these instances.

**RESPONSE:** We are unaware of any instances in our area in which access was denied to an alternative telecommunications provider.

2. Are you aware of any tenants in multi-tenant environments, where local telecommunications service was provided through the landlord, who were unable to obtain local service from an alternative provider during 1997? If so, please describe these instances.

**RESPONSE:** We are unaware of any instances in our service area.

3. Please describe or provide a copy of any agreements designed to provide telecommunications service in multi-tenant environments, including marketing agreements, exclusive contracts, and leases.

**RESPONSE:** We do not have any agreements of this nature.

4. Please provide any other information or material that you believe would be useful to staff in its analysis of access by telecommunications companies to customers in multi-tenant environments.

**RESPONSE:** No comment.
