Kay, question...This docket started out as a cancellation by PSC for nonpayment of RAFs. It was on the 11/03 Agenda and my rec approved. On 11/09, the company paid the past due charges plus 1998 RAFs and requested voluntary cancellation.

On 11/10, I e-mailed Linda and asked her to change the docket title to a voluntary cancellation. But now that I think about it, I probably should not have done that since it has already been to Agenda with the first title.

Should the title be changed back to Cancellation by PSC? Should I revise the CASR and take it back to agenda? Let me know your thoughts. Thanks.

Since the RAF payment and request for cancellation were not received until after the Commissioners had voted, we really need to leave the docket title as it was. I'll ask Linda by cc: to change the title back.

As for going back to agenda, please run that question by Legal. Kay
