WHEREAS, Section 251 of the Telecommunications Act of 1996 (the "Act") imposes specific obligations on LECs with respect to the resale of telecommunications services; and

WHEREAS, GTE is entering, under protest, into certain aspects of this Agreement that incorporate adverse results from the arbitrated agreements approved by the Commission in this state and is doing so in order to avoid the expense of arbitration while at the same time preserving its legal positions, rights and remedies;

NOW, THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, GTE and NETWORK hereby covenant and agree as follows:

# ATTACHMENT A ARTICLE I SCOPE AND INTENT OF AGREEMENT

Pursuant to this Agreement, the Parties will extend certain arrangements to one another within each area in which they both operate within the State for the purchase of certain telecommunication services. This Agreement also governs the purchase by NETWORK of certain telecommunications services provided by GTE in its franchise areas for resale by NETWORK. This Agreement is an integrated package that reflects a balancing of interests critical to the Parties. This Agreement will be submitted to the Florida Public Service Commission (the "Commission") for approval. The Parties agree that their entrance into this Agreement is without prejudice to and does not waive any positions they may have taken previously, or may take in the future, in any legislative, regulatory, judicial or other public forum addressing any matters, including matters related to the same types of arrangements and/or matters related to GTE's cost recovery covered in this Agreement. NETWORK agrees to negotiate reciprocal terms and conditions with GTE based on this Agreement. GTE's execution of this Agreement is not a concession or waiver in any manner concerning its position that certain of the rates, terms and conditions contained herein are unlawful, illegal and improper.

The services and facilities to be provided to NETWORK by GTE in satisfaction of this Agreement may be provided pursuant to GTE tariffs and then current practices. Should such services and facilities be modified by tariff or by Order, including any modifications resulting from other Commission proceedings, federal court review or other judicial action, and unless otherwise specified herein, such modifications will be deemed to automatically supersede any rates and terms and conditions of this Agreement. The Parties shall cooperate with one another for the purpose of incorporating required modifications into this Agreement.

- 29.1 Impairment of Service. The characteristics and methods of operation of any circuits, facilities or equipment of either Party connected with the services, facilities or equipment of the other Party pursuant to this Agreement shall not interfere with or impair service over any facilities of the other Party, its affiliated companies, or its connecting and concurring carriers involved in its services, cause damage to its plant, violate any applicable law or regulation regarding the invasion of privacy of any communications carried over the Party's facilities or create hazards to the employees of either Party or to the public (each hereinafter referred to as an "Impairment of Service").
- Resolution. If either Party causes an Impairment in Service, the Party whose network or service is being impaired (the "Impaired Party") shall promptly notify the Party causing the Impairment of Service (the "Impairing Party") of the nature and location of the problem and that, unless promptly rectified, a temporary discontinuance of the use of any circuit, facility or equipment may be required. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve the Impairment of Service. If the Impairing Party is unable to promptly remedy the Impairment of Service, then the Impaired Party may at its option temporarity discontinue the use of the affected circuit, facility or equipment.
- 30. <u>Publicity</u>. - 31. Regulatory Agency Control. This Agreement shall at all times be subject to changes, modifications, orders, and rulings by the Federal Communications Commission and/or the applicable state utility regulatory commission to the extent the substance of this Agreement is or becomes subject to the jurisdiction of such agency.
- 32. Changes in Legal Requirements. GTE and NETWORK further agree that the terms and conditions of this Agreement were composed in order to effectuate the legal requirements in effect at the time the Agreement was produced. Any modifications to those requirements will be deemed to automatically supersede any terms and conditions of this Agreement.
- 33. Effective Date. This Agreement will be effective only upon execution and delivery by both Parties and approval by the Commission in accordance with Section 252 of the Act. If this Agreement or changes or modifications thereto are subject to approval of a regulatory agency, the "effective date" of this Agreement for such purposes will be ten (10) Business Days after such approval or in the event this Agreement is developed in whole or in part through arbitration, sixty (60) Business Days after such approval. Such date (i.e., ten (10) or, if arbitrated, sixty (60) Business Days after the approval) shall become the "effective date" of this Agreement for all purposes.
- 34. Regulatory Matters. Each Party shall be responsible for obtaining and keeping in effect all FCC, state regulatory commission, franchise authority and other regulatory approvals that may be required in connection with the performance of its obligations under this Agreement.
- 35 <u>Rule of Construction</u>. No rule of construction requiring interpretation against the drafting party hereof shall apply in the interpretation of this Agreement.
- 36. Section References. Except as otherwise specified, references within an Article of this Agreement to a Section refer to Sections within that same Article.

- 38. Severability. If any provision of this Agreement is held by a court or regulatory agency of competent jurisdiction to be unenforceable, the rest of the Agreement shall remain in full force and effect and shall not be affected unless removal of that provision results, in the opinion of either Party, in a material change to this Agreement. If a material change as described in this paragraph occurs as a result of action by a court or regulatory agency, the Parties shall negotiate in good faith for replacement language. If replacement language cannot be agreed upon within a reasonable period, either Party may terminate this Agreement without penalty or liability for such termination upon written notice to the other Party.
- Subcontractors. Provider may enter into subcontracts with third parties or affiliates for the performance of any of Provider's duties or obligations under this Agreement.
- 40. Subsequent Law. The terms and conditions of this Agreement shall be subject to any and all applicable laws, rules, or regulations that subsequently may be prescribed by any federal, state or local governmental authority. To the extent required by any such subsequently prescribed law, rule, or regulation, the Parties agree to modify, in writing, the affected term(s) and condition(s) of this Agreement to bring them into compliance with such law, rule, or regulation.
- Taxes. Any state or local excise, sales, or use taxes (excluding any taxes levied 41. on income) resulting from the performance of this Agreement shall be borne by the Party upon which the obligation for payment is imposed under applicable law, even if the obligation to collect and remit such taxes is placed upon the other Party. The collecting Party shall charge and collect from the obligated Party, and the obligated Party agrees to pay to the collecting Party, all applicable taxes, except to the extent that the obligated Party notifies the collecting Party and provides to the collecting Party appropriate documentation as GTE requires that qualifies the obligated Party for a full or partial exemption. Any such taxes shall be shown as separate items on applicable billing documents between the Parties. The obligated Party may contest the same in good faith, at its own expense, and shall be entitled to the benefit of any refund or recovery, provided that such Party shall not permit any lien to exist on any asset of the other Party by reason of the contest. The collecting Party shall cooperate in any such contest by the other Party. The other Party will indemnify the collecting Party from any sales or use taxes that may be subsequently levied on payments by the other Party by the collecting Party.
  - 41.1 <u>Tax</u> A charge which is statutorily imposed by the state or local jurisdiction and is either (a) imposed on the seller with the seller having the right or responsibility to pass the charge(s) on to the purchaser and

NETWORKS.PL III-15

#### ATTACHMENT A

the seller is responsible for remitting the charge(s) to the state or local jurisdiction or (b) imposed on the purchaser with the seller having an obligation to collect the charge(s) from the purchaser and remit the charge(s) to the state or local jurisdiction.

Taxes shall include but not be limited to: federal excise tax, state/local sales and use tax, state/local utility user tax, state/local telecommunication excise tax, state/local gross receipts tax, and local school taxes. Taxes shall not include income, income-like, gross receipts on the revenue of a provider, or property taxes. Taxes shall not include payroll withholding taxes unless specifically required by statute or ordinance.

- 41.2 <u>Fees/Regulatory Surcharges</u> A charge imposed by a regulatory authority, other agency, or resulting from a contractual obligation, in which the seller is responsible or required to collect the fee/surcharge from the purchaser and the seller is responsible for remitting the charge to the regulatory authority, other agency, or contracting party.
- 42. <u>Trademarks and Trade Names</u>. Except as specifically set out in this Agreement, nothing in this Agreement shall grant, suggest, or imply any authority for one Party to use the name, trademarks, service marks, or trade names of the other for any purpose whatsoever.
- 43. Walver. The failure of either Party to insist upon the performance of any provision of this Agreement, or to exercise any right or privilege granted to it under this Agreement, shall not be construed as a waiver of such provision or any provisions of this Agreement, and the same shall continue in full force and effect.
- 44. TBD Prices. Numerous provisions in this Agreement and its Attachments refer to pricing principles. If a provision references prices in an Attachment and there are no corresponding prices in such Attachment, such price shall be considered "To Be Determined" (TBD). With respect to all TBD prices, prior to NETWORK ordering any such TBD item, the Parties shall meet and confer to establish a price. If the Parties are unable to reach agreement on a price for such item, an interim price shall be set for such item that is equal to the price for the nearest analogous item for which a price has been established (for example, if there is not an established price for a non recurring charge (NRC) for a specific service, the Parties would use the NRC for the most analogous retail service for which there is an established price). Any interim prices so set shall be subject to modification by any subsequent decision of the Commission. If an interim price is different from the rate subsequently established by the Commission, any

underpayment shall be paid by NETWORK to GTE, and any overpayment shall be refunded by GTE to NETWORK, within 45 Business Days after the establishment of the price by the Commission.

Amendment of Certain Rates. Terms and Conditions. The rates, terms and conditions in this Agreement that are specified in Appendix 458 (the "AT&T Terms") were taken from the GTE/AT&T Interconnection, Resale and Unbundling Agreement (the AT&T Agreement) approved by the Commission in Case No. 960847-TP. The rates, terms and conditions not included in this Agreement but referenced in Appendix 45A (the "GTE Terms") were excluded from the AT&T Agreement by the Commission in Case No. 960847-TP. GTE and NETWORK agree that if the "AT&T Terms" are deemed to be unlawful, or are stayed, enjoined or otherwise modified, in whole or in part, by a court or commission of competent jurisdiction, then this Agreement shall be deemed to have been amended accordingly, by modification of the "AT&T Terms" or, as appropriate, the substitution of "GTE Terms" for all stayed and enjoined "AT&T Terms", and such amendments shall be effective retroactive to the Effective Date of this Agreement.

GTE and NETWORK further agree that the terms and conditions of this Agreement reflect certain requirements of the FCC's First Report and Order in CC Docket No. 98-98. The terms and conditions of this Agreement shall be subject to any and all actions by any court or other governmental authority that invalidate, stay, vacate or otherwise modify the FCC's First Report and Order, in whole or in part ("actions"). To the extent warranted by any such action, the parties agree that this Agreement shall be deemed to have been modified accordingly as in the first paragraph of this Section 45. The parties agree to immediately apply any affected terms and conditions, including any in other sections and articles of this Agreement, consistent with such action, and within a reasonable time incorporate such modified terms and conditions in writing into the Agreement. If the AT&T Terms are affected by such action and GTE determines they cannot be consistently applied therewith, the GTE Terms shall apply. NETWORK acknowledges that GTE may seek to enforce such action before a commission or court of competent jurisdiction. GTE does not waive any position regarding the #legality or inappropriateness of the FCC's First Report and Order.

The rates, terms and conditions (including rates which may be applicable under true-up) specified in both the "GTE Terms" and the "AT&T Terms" are further subject to amendment, retroactive to the Effective Date of the Agreement, to provide for charges or rate adjustments resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution,

#### ATTACHMENT A

undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's end user surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

If the Commission (or any other commission or federal or state court) in reviewing this Agreement pursuant to applicable state and federal laws, including Section 252(e) of the Telecommunications Act of 1996, deletes or modifies in any way this Section 45, NETWORK agrees that this entire Agreement is void and will not become effective, and NETWORK agrees to withdraw this Agreement from consideration by the Commission (or any other commission or federal or state court).

Nothing in this Agreement shall be deemed to create a third-party beneficiary relationship with NETWORK's end users.
- 2.3 No Liability for Errors. GTE is not liable for mistakes that appear in GTE's listings, 911 and other information databases, or for incorrect referrals of end users to NETWORK for any ongoing NETWORK service, sales or repair inquiries, and with respect to such mistakes or incorrect referrals. NETWORK shall indemnify and hold GTE harmless from any and all

ctaims, demands, causes of action and liabilities whatsoever, including costs, expenses and reasonable attorney's fees incurred on account thereof, by third parties, including NETWORK's end users or employees. For purposes of this Section 2.3, mistakes and incorrect referrals shall not include matters arising out of the willful misconduct of GTE or its employees or agents.

## 3. Unauthorized Changes.

- 3.1 Procedures. If NETWORK submits an order for resold services under this Agreement in order to provide service to an end user that at the time the order is submitted is obtaining its local services from GTE or another LEC using GTE resold services, and the end user notifies GTE that the end user did not authorize NETWORK to provide local exchange services to the end user, NETWORK must provide GTE with written documentation of authorization from that end user within thirty (30) Business Days of notification by GTE. If NETWORK cannot provide written documentation of authorization within such time frame, NETV-DRK must within three (3) Business Days thereafter:
  - (a) notify GTE to change the end user back to the LEC providing service to the end user before the change to NETWORK was made; and
  - (b) provide any end user information and billing records NETWORK has obtained relating to the end user to the LEC previously serving the end user; and
  - (c) notify the end user and GTE that the change back to the previous.
     LEC has been made.

Furthermore, GTE will bill NETWORK fifty dollars (\$50.00) per affected line to compensate GTE for switching the end user back to the original LEC.

4. Impact of Payment of Charges on Service. NETWORK is solely responsible for the payment of all charges for all services, facilities and elements furnished under this Agreement, including, but not limited to, calls originated or accepted at its or its end users' service locations. If NETWORK fails to pay when due any and all charges billed to NETWORK under this Agreement, including any late payment charges (collectively, "Unpaid Charges"), and any or all such charges remain unpaid more than forty-five (45) Business Days after the bill date of such Unpaid Charges excepting previously disputed charges for which NETWORK may withhold payment, GTE shall notify NETWORK in writing that it must pay all

NETWORKLEL IV-2

#### ATTACHMENT A

Unpaid Charges to GTE within seven (7) Business Days. If NETWORK disputes the billed charges, it shall, within said seven (7) day period, inform GTE in writing of which portion of the Unpaid Charges it disputes, including the specific details and reasons for the dispute, unless such reasons have been previously provided, and shall immediately pay to GTE all undisputed charges. If NETWORK and GTE are unable, within thirty (30) Business Days thereafter, to resolve issues related to the disputed charges, then either NETWORK or GTE may file a request for arbitration under Article I:i of this Agreement to resolve those issues. Upon resolution of any dispute hereunder, if NETWORK owes payment it shall make such payment to GTE with any late payment charge under Article III, Section 7.2, from the original payment due date. If NETWORK owes no payment, but has previously paid GTE such disputed payment, then GTE shall credit such payment including any late payment charges. If NETWORK fails to pay any undisputed Unpeid Charges, NETWORK shall, at its sole expense, within five (5) Business Days notify its end users that their service may be disconnected for NETWORK's failure to pay Unpaid Charges, and that its end users must select a new provider of local exchange services. GTE may discontinue service to NETWORK upon failure to pay undisputed charges as provided in this Section 4, and shall have no liability to NETWORK or NETWORK's end users in the event of such disconnection. If NETWORK fails to provide such notification or any of NETWORK's end users fail to select a new provider of services within the applicable time period, GTE may provide local exchange services to NETWORK's end users under GTE's applicable end user tartiff at the then current charges for the services being provided. In this circumstance, otherwise applicable service establishment charges will not apply to NETWORK's and user, but will be assessed to NETWORK.

Unlawful Use of Service. Services provided by GTE pursuant to this Agreement 5. shall not be used by NETWORK or its end users for any purpose in violation of law. NETWORK, and not GTE, shall be responsible to ensure that NETWORK and its end users use of services provided hereunder comply at all times with all applicable laws. GTE may refuse to furnish service to NETWORK or disconnect particular services provided under this Agreement to NETWORK or, as appropriate, NETWORK's end user when (i) an order is issued by a court of competent jurisdiction finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law or (ii) GTE is notified in writing by a law enforcement agency acting within its jurisdiction that any facility furnished by GTE is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law. Termination of service shall take place after reasonable notice is provided to NETWORK, or as ordered by the court. If facilities have been physically disconnected by law enforcement officials at the premises where located, and if there is not presented to GTE the written finding of a court, then upon request of

NETWORK and agreement to pay restoral of service charges and other applicable service charges, GTE shall promptly restore such service.

- 6. Timing of Messages. With respect to GTE resold measured rate local service(s), chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network.
- 7. Procedures For Preordering, Ordering, Provisioning, Etc., Certain procedures for preordering, ordering, provisioning, maintenance and billing and electronic interfaces for many of these functions are described in <u>Appendix B</u>. All costs and expenses for any new or modified electronic interfaces NETWORK requires that GTE determines are Currently Available and GTE agrees to develop will be paid by NETWORK pursuant to <u>Appendix B</u>. The schedule for implementation of any new or modified electronic interfaces will be developed by GTE according to industry standards and will be based upon the amount of work needed to design, test and implement the new or modified interface.

### 8. Letter of Authorization

- 8.1 GTE will not release the Customer Service Record (CSR) containing Customer Priority Network Information (CPNI) to NETWORK on GTE end user customer accounts unless NETWORK first provides to GTE a written Letter of Authorization (LOA), signed by the end user customer, authorizing the release of such information to NETWORK or if state or federal law provides otherwise, in accordance with such law.
- 8.2 An LOA will be required before GTE will process an order for services provided in cases in which the subscriber currently receives Exchange Service from GTE or from a local service provider other than NETWORK. Such LOA may be a blanket LOA or such other form as agreed upon between GTE and NETWORK.
- 9. <u>Customer Contacts</u>. Except as otherwise provided in this Agreement or as agreed to in a separate writing by NETWORK, NETWORK shall provide the exclusive interface with NETWORK's end user customers in connection with the marketing or offering of NETWORK services. Except as otherwise provided in this Agreement, in those instances in which GTE personnel are required pursuant to this Agreement to interface directly with NETWORK's end users, such personnel shall not identify themselves as representing GTE. # ARTICLE V RESALE OF SERVICES

1. General. The purpose of this Article V is to define the Exchange Services and related Vertical Features and other services (collectively referred to for purposes of this Article V as the "services") that may be purchased from GTE and resold by NETWORK and the terms and conditions applicable to such resold services. Except as specifically provided otherwise in this Agreement, provisioning of Exchange Services for resale will be governed by the GTE Guide. GTE will make available to NETWORK for resale any Telecommunications Service that GTE currently offers, or may offer hereafter, on a retail basis to subscribers that are not telecommunications carriers, except as qualified by Section 2.1 below.

### 2. Terms and Conditions.

- Restrictions on Resale. The following restrictions shall apply to the resale of retail services by NETWORK.
  - 2.1.1 NETWORK shall not resell to one class of customers a service that is offered by GTE only to another class of customers in accordance with state requirements (e.g., R-1 to B-1, disabled services or lifeline services to non-qualifying customers).
  - 2.1.2 NETWORK shall not resell lifeline services and services for the disabled.
  - 2.1.3 NETWORK shall not reself promotional offerings of 90 days or less in duration. These promotional offerings are not available to NETWORK for resale. GTE will apply any applicable resale discount to the ordinary rate for a retail service rather than the special promotional rate.
- 2.2 Interim Universal Service Support Charge for Wholesale Services, NETWORK wishes to resell GTE's Basic Exchange Residential and Business services. It is GTE's position that GTE's current intraLATA toll rates include implicit subsidies that support below-cost prices for other services and thus promote universal service. This universal service support is lost where a CLEC resells GTE's local service but does not resell GTE's intraLATA toll service. For this reason, GTE will not resell Basic Exchange Residential or Business services unless NETWORK pays the monthly interim universal service support charge set forth in Appendix

NETWORKS.PL V-1

PAGE 41

#### ATTACHMENT A

A. GTE believes that this interim surcharge is required by state and federal law.

The lawfulness of GTE's interim surcharge is being addressed (or will be addressed) by the Commission or a court of competent jurisdiction. The parties agree that GTE will offer for resale Basic Local Exchange Residential and Business services at the avoided cost discount rate set forth in Appendix A without the interim surcharge, but subject to the following terms and conditions:

- 2.2.1 NETWORK agrees that within thirty (30) days after the effective date of a Commission or court order affirming GTE's interim surcharge, NETWORK will (i) begin paying the monthly interim surcharge in accord with Appendix A, and (ii) make a lump sum payment to GTE of the total interim surcharges retroactive to the effective date of this agreement.
- 2.2.2 Notwithstanding any provision in this \*\*greement, GTE may, at is sole discretion and at any time, seek injunctive or other relief (i) requiring the CLEC to pay GTE's interim surcharge or (ii) requiring the Commission to immediately impose the interim surcharge.
- 2.2.3 Nothing in this Agreement shall restrict or impair GTE from seeking injunctive relief or any other remedy at any time and in any court regarding GTE's interim surcharge or the Commission's rejection or modification of GTE's interim surcharge.
- 2.3 Restrictions on Discount of Retail Services. The discount specified in Section 5.3 herein shall apply to all retail services except for the following:
  - 2.3.1 NETWORK may resell services that are provided at a volume discount in accordance with terms and conditions of applicable teriff. NETWORK shall not aggregate end user lines and/or traffic in order to qualify for volume discount.
  - 2.3.2 NETWORK may resell ICB/Contract services without a discount and only to end user customers that already have such services.
  - 2.3.3 NETWORK may resell COCOT coin or coinless line, however, no discount applies.
  - 2.3.4 NETWORK may resell special access; however, no discount applies.

- 2.3.5 NETWORK may resell Operator Services and Directory Assistance as specified in Section 5.6 herein; however, no discount applies.
- 2.4 Resale to Other Carriers. Services available for resale may not be used by NETWORK to provide access to the local network as an alternative to tarriffed switched and special access by other carriers, including, but not limited to: interexchange carriers, wireless carriers, competitive access providers, or other retail telecommunications providers.

## 3. Ordering and Billing.

- 3.1 Local Service Request. Orders for resale of services will be placed utilizing standard Local Service Request ("LSR") forms. GTE will continue to participate in industry forums for developing service order/disconnect order formats and will incorporate appropriate industry standards. Complete and accurate LSR forms (containing the requisite end user information as described in the Guide) must be provided by NETWORK before a request can be processed.
- 3.2 Certificate of Operating Authority. When ordering, NETWORK must represent and warrant to GTE that it is a certified provider of local dial-tone service. NETWORK will provide a copy of its Certificate of Operating Authority or other evidence of its status to GTE upon request.
- 3.3 <u>Directory Assistance Listings</u>. GTE shall include a NETWORK customer listing in its Directory Assistance database as part of the Local Service Request ("LSR") process. GTE will honor NETWORK Customer's preferences for listing status, including non-published and unlisted, as noted on the LSR and will enter the listing in the GTE database which is used to perform Directory Assistance functions as it appears on the LSR.
- Nonrecurring Charges. NETWORK shall be responsible for the payment of all nonrecurring charges ("NRCs") applicable to resold services (e.g., installation, changes, ordering charges) as listed in Appendix A. In addition, NRCs for Field Service work (Installation/Repair requiring on site visits will be charged from the appropriate tariff. No discount applies to nonrecurring charges. GTE shall be entitled to receive through NRCs any unreimbursed costs it incurs performing under this Agreement.
- 3.5 <u>Transfera Between NETWORK and Another Reseller of GTE Services.</u>
  When NETWORK has obtained an end user customer from another

reseller of GTE services, NETWORK will inform. GTE of the transfer by submitting standard LSR forms to GTE.

- 3.6 Local Calling Detail. Except for those services and in those areas where measured rate local service is available to end users, monthly billing to NETWORK does not include local calling detail. However, NETWORK may request and GTE shall consider developing the capabilities to provide local calling detail in those areas where measured local service is not available for a mutually agreeable charge.
- 3.7 <u>Procedures</u>. An overview of the procedures for preordering, ordering, provisioning and billing for resold services are outlined in <u>Appendix B</u>, attached hereto and made a part hereof.
- 3.8 <u>LIDB</u>. For resale services, the LSR will generate updates to GTE's LIDB for validation of calling card, collect, and third number billed calls.
- 3.9 Originating Line Number Screening (OLNS). Upon request, GTE will update the database to provide OLNS which indicates to an operator the acceptable billing methods for calls originating from the calling number (e.g., penal institutions, COCOTS).

#### Maintenance.

- Maintenance, Testing and Repair. GTE will provide repair and maintenance services to NETWORK and its end user customers for resold services in accordance with the same standards and charges used for such services provided to GTE end user customers. GTE will not initiate a maintenance call or take action in response to a trouble report from a NETWORK end user until such time as trouble is reported to GTE by NETWORK. NETWORK must provide to GTE all end user information necessary for the installation, repair and servicing of any facilities used for resold services according to the procedures described in the Guide.
- 4.2 Specifics and Procedures for Maintenance. An overview of the procedures for maintenance of resold services and additional matters agreed to by the Parties concerning maintenance are set forth in Appendix B.

Modifications to services listed on <u>Appendix A</u> shall be provided to NETWORK in accordance with GTE's practices and procedures.

- 5.2.1 <u>Promotional Services</u>. GTE shall make available for resale, those promotional offerings that are greater than 90 days in duration and the special promotional rate will be subject to the applicable resale discount.
- 5.3 <u>Rates</u>. The prices charged to NETWORK for local services shall be calculated as follows:
  - 5.3.1 Avoided Cost Discount as shown on Appendix A shall apply to all retail services except those services listed in Section 2.1 and Section 2.3 herein.
  - 5.3.2 The discount dollar amount calculated under Section 5.3.1 above will be deducted from the retail rate.
  - 5.3.3 The resulting rate is the resale rate.
  - 5.3.4 This discount dollar amount in Section 5.3.2 above shall not change during the Term of this Agreement, even though GTE may change its retail rates.
- 5.4 <u>Grandfathered Services</u>. Services identified in GTE Tariffs as grandfathered in any manner are available for resale only to end user customers that already have such grandfathered service.   - 5.6.1 If NETWORK requests branding or unbranding, GTE will provide such unbranding or rebranding with NETWORK's name.

5.6.2 NETWORK will be billed a charge for unbranding or rebranding and customized routing.

- 5.6.3 For those offices that NETWORK has requested GTE to rebrand and/or unbrand OS and DA, GTE will provide it where GTE performs its own OS and DA service subject to capability and capacity limitations where customized routing is Currently Available. If GTE uses a third-party contractor to provide OS or DA, GTE will not provide branding nor will GTE negotiate it with a third party on behalf of NETWORK. NETWORK must negotiate with the third party. In these instances, NETWORK will need to purchase customized routing and dedicated trunking to differentiate its OS/DA traffic from GTE's.
- Misdirected Calls. The Parties will employ the following procedures for handling any misdirected calls (e.g., Business office, repair bureau, etc.).
  - 6.1 To the extent the correct provider can be determined, each Party will refer misdirected calls to the proper provider of local exchange service. When referring such calls, both Parties agree to do so in a courteous manner at no charge.
  - 6.2 For misdirected repair calls, the Parties will provide their respective repair bureau contact number to each other on a reciprocal basis and provide the end user the correct contact number.
  - 6.3 In responding to misdirected calls, neither Party shall make disparaging remarks about each other, nor shall they use these calls as a basis for internal referrals or to solicit end users or to market services.

#### 911/E911 Arrangements.

# APPENDIX A SERVICES AVAILABLE FOR RESALE

General. The rates contained in this <u>Appendix A</u> are based upon an avoided cost discount from GTE's retail rates as provided in Article V, Section 5.3 of the Agreement to which this <u>Appendix A</u> is attached. The avoided cost discount is based upon GTE's most current available cost studies and are subject to change resulting from future Commission or other proceedings, including but not limited to any generic proceeding to determine GTE's unrecovered costs (e.g., historic costs, contribution, undepreciated reserve deficiency, or similar unrecovered GTE costs (including GTE's interim Universal Service Support Surcharge)), the establishment of a competitively neutral universal service system, or any appeal or other litigation.

GTE assesses a separate interim universal service fund surcharge for resale of Basic Local Exchange Residential and Business Services at the avoided cost discount set forth to provide continued universal service support that is implic. in GTE's current retail services prices. This surcharge is being addressed (or will be addressed) by the Commission or a court of competent jurisdiction. The parties agree that GTE will offer for resale Basic Local Exchange Residential and Business Services set forth in Appendix A without the interim surcharge, but subject to the following terms and conditions:

- A. NETWORK agrees that within thirty (30) days after the effective date of a Commission or court order affirming GTE's interim surcharge, NETWORK will (i) begin paying the monthly interim surcharge in accord with Appendix A, and (ii) make a lump sum payment to GTE of the total interim surcharges retroactive to the effective date of this Agreement.
- B. Notwithstanding any provision in this Agreement, GTE may, at its sole discretion and at any time, seek injunctive or other relief (i) requiring NETWORK to pay GTE's interim surcharge or (ii) requiring the Commission to immediately impose the interim surcharge.
- C. Nothing in this Agreement shall restrict or impair GTE from seeking injunctive relief or any other remedy at any time and in any court regarding GTE's interim surcharge or the Commission's rejection or modification of GTE's interim surcharge.

The avoided cost discount is 13.04%.

# APPENDIX B SERVICE ORDERING, PROVISIONING, BILLING AND MAINTENANCE

- 1. Service Ordering, Service Provisioning, and Billing Systems Generally. The following describes generally the operations support systems that GTE will use and the related functions that are available for ordering, provisioning and billing for resold services. Except as specifically provided otherwise in this Agreement, service ordering, provisioning, billing and maintenance shall be governed by the GTE Guide. Before orders can be taken, NETWORK will provide GTE with its Operating Company Number ("OCN") and Company Code ("CC") as follows:
  - (a) NETWORK must provide its OCN (four-digit alpha-numeric assigned by Belicore or number administrator) on the NETWORK Profile. The GTE Guide provides the necessary information for NFTWORK to contact Belicore to obtain the OCN. There are no optional fields on the Profile.
  - (b) Before the Local Service Request ("LSR") and Directory Service Request ("DSR") order forms can be processed NETWORK must provide the OCN and Customer Carrier Name Abbreviation ("CCNA").
  - 1.1 Operations Support Systems for Resold Services
    - 1.1.1 NETWORK will also be able to order services for resale, as well as interim number portability, directly from GTE through an electronic interface. To initiate an order for these services, NETWORK will submit a Local Service Request ("LSR") from its data center to GTE's Data Center using an electronic NDM interface. If no NDM interface exists or if NETWORK chooses to establish a separate NDM interface, NETWORK must request an NDM facility. For new entrants that elect not to interface electronically, GTE will accommodate submission of LSR orders by facsimile, E-mail, Internet or a dial NDM arrangement. An LSR is very similar to an ASR, except that it will be used exclusively for line-side interconnection requests. GTE will transfer LSRs to GTE's NOMC centralized service order processing center electronically.
    - 1.1.2 Most LSRs will be used either to transfer an existing GTE customer to NETWORK or to request service for a new customer who is not an existing GTE customer. Depending on the situation, different information will be required on the LSR. LSRs for a conversion of a

GTE local customer to NETWORK must include information relating to all existing, new and disconnected services for that customer, including the customer's name, type of service desired, location of service and features or options the customer desires. NETWORK will be able to obtain this customer information after GTE has received the customer's written consent as specified in Article IV, Section 8. For service to a new customer who is not an existing GTE customer, the LSR must contain the customer's name, service address, service type, services, options, features and Services data. If known, the LSR should include the telephone number and due data/desired due data.

- 1.1.3 While NETWORK would have its own customer information and may have the SAG/GTE products on tape from GTE, NETWORK would not have the due date or new telephone number for new customers since that information is contained in GTE's systems. Therefore, a process is required to provide this information to NETWORK, GTE itself does not have uniform access to this information electronically. Until GTE and NETWORK have agreed and established electronic interfaces. NETWORK agrees that an 800 number is the method that will be used. The 800 telephone number will connect NETWORK directly to GTE's NOMC service. representatives. When NETWORK receives a request for basic services from a new local service customer. NETWORK will call GTE's NOMC through the 800 number, and, while the new customer is on hold, GTE will provide the due date for service and the new telephone number for that customer. At the same time. NETWORK will give GTE the new customer's name, service address and type of requested service (i.e., R1, B1). GTE will enter that information into its SORCES or SOLAR service ordering systems to be held in suspense until NETWORK sends the confirming LSR. NETWORK will then return to its customer holding on the line and provide the due date and new telephone number.
- 1.1.4 After concluding the telephone call with the new customer, NETWORK will complete a confirming LSR for the new service and send it electronically to GTE's data center for processing. Upon receipt, GTE will match the LSR with the service order suspended in GTE's system, and if there is a match, GTE will process the LSR. After the LSR is processed, GTE will transmit confirmation electronically to NETWORK through the NDM that the LSR has been processed, providing a record of the telephone number and due date. NETWORK will be required to submit the confirming

LSR by 12:00 p.m. each day local time, as defined by the location of the service address. If NETWORK fails to submit the LSR in a timely manner, the suspended LSR will be considered in jeopardy, at which time GTE will assign a new due date upon receipt of the delayed LSR for such customer requests and notify NETWORK of the change.

- 1.1.5 Number assignments and due date schedules for services other than single line service and hunt groups up to 12 lines will be assigned within approximately twenty-four (24) hours after GTE's receipt of the LSR using the standard Local Service Confirmation ("LSC") report sent electronically to NETWORK over the NDM, thereby providing a record of the newly established due date. An exception would be a multi-line hunt group for 12 lines or fewer. The other numbers then will be provided through the normal electronic confirmation process.
- 1.1.6 The processing of specifically requested telephone numbers (called "vanity numbers") is as follows. GTE will work with NETWORK on a real time interface to process vanity numbers while NETWORK's customer is still on the line. If a number solution can be established expeditiously, it will be done while till a customer is still on the line. If extensive time will be required to find a solution, GTE service representatives will work with NETWORK representatives off line as GTE would for its own customers. For all of this, the basic tariff guidelines for providing telephone numbers will be followed.
- 1.1.7 Once the order for resold service is established, it is moved for provisioning to the next system level. Here, GTE will validate and process the LSR to establish an account for NETWORK and, if GTE continues to provide some residual services to the customer, GTE will maintain a GTE account. In GTE's system, GTE's account is called the Residual Account and NETWORK's account is referred to as the NETWORK Account. If any engineering for the service is necessary, the account would be distributed to the SSCC. Otherwise, it will be distributed for facility assignment.
- 1.1.8 With the account established and any engineering and facility assignment complete, GTE then will transmit electronically a record to GTE's CZT field personnel if physical interconnection or similar activity is required. The CZTs will provision the service and then electronically confirm such provision in the SOLAR/SORCES

system when completed. The accounts then will be transmitted to GTE's Customer Billing Services System ("CBSS"). GTE shall provide to NETWORK a service completion report. Call records for actual service provided to NETWORK's customers on GTE facilities will be transmitted from GTE's switches through some usage rating systems (BIP, UMS), screened and eventually delivered to CSSS for the generation of bills.

- 1.1.9 CBSS is a different system than CABS, and it is the one that GTE will utilize to produce the required bills for resold services and local number portability. CBSS will create a bill to NETWORK for resold services along with a summary bill master. Daily unrated records for intraLATA toll usage and local usage (incollect usage data will be provided on rated basis) on NETWORKs accounts will be generated and transmitted electronically to NETWORK.
- 1.1.10 On resold accounts, GTE will provide usage in EMR format per existing file exchange schedules. The usage billing will be in agreed upon level of detail for NETWORK to issue a bill to its end users.
- 1.1.11 GTE will provide NETWORK with detailed monthly billing information in a paper format until an agreed upon Electronic Data Interchange 811 electronic bill format is operational.
- 1.1.12 State or sub-state level billing will include up to ten (10) summary bill accounts.
- 1.1.13 GTE accepts NETWORK's control reports and agrees to utilize industry standard return codes for unbillable messages.

  Transmission will occur via the NDM. Tape data will conform to Attachment "A" of the LRDTR. Data will be delivered Monday through Friday except for Holidays as agreed. Data packages will be tracked by invoice sequencing criteria. GTE contacts will be provided for sending/receiving usage files.
- 1.1.14 GTE will retain data backup for 45 Business Days. To the extent this retention is exclusively for NETWORK, NETWORK shall reimburse GTE for all expenses related to this retention.
- 1.1.15 In addition to the LSR delivery process, NETWORK will distribute directory assistance and directory listing information (together sometimes referred to hereafter as "DA/DL information") to GTE

via the LSR ordering process over the NDM. GTE will provide listings service via its "listing continuity" offering.

- 1.1.16 Charges and credits for PIC changes ordered via an LSR will appear on the resale bill. As NETWORK places a request for a PIC change via LSR, the billing will be made on NETWORK account associated with each individual end user. GTE will process all PIC changes from IXCs that are received for NETWORK end users by rejecting back to the IXC with the NETWORK OCN. Detail is provided so that NETWORK can identify the specific charges for rebilling to its end user.
- 1.1.17 <u>CMDS</u>. The parties will provide for the distribution of intraLATA CMDS incollect messages and/or selected local measured service messages as follows:
  - 1.1.17.1 Messages to be Screened. GTE receives CMDS I transmissions containing intraLATA incollect messages from the state RBOC CMDS host each Business Day. Per NETWORK's request, GTE will screen the incollects by NPA and line number and accumulate the Collect. Third Number Billed and Credit Card (collectively called incollects) messages in a data file. The screening will be for end users who have chosen NETWORK as their local. service provider through a Resale or Unbundled Network arrangement. The screened incollect messages and any Local Measured Service (LMS) usage will be accumulated and forwarded to NETWORK. The Parties will mutually agree on the frequency of the data exchange and the method of transmission (i.e., magnetic tape or direct electronic transmission). GTE will forward the screened messages in the industry standard EMR format. GTE intraLATA toll messages that are recorded by GTE and dialed on a one plus or zero plus basis are not part of this section and will not be screened.
  - 1.1.17.2 Compensation. GTE will bill NETWORK monthly for all services related to the screening, accumulating, processing and transmitting of incollect messages and LMS usage, if applicable, at a reasonable and mutually agreeable charge. In addition, any message processing fee associated with NETWORK's incollect messages that are charged to GTE by the CMDS Host will be passed on

to NETWORK on the monthly statement. All revenue, surcharges, taxes and any other amounts due to the CMDS Host for NETWORK's incollect messages will be billed on the monthly statement. It is NETWORK's responsibility to bill and collect all incollect and LMS amounts due from its end users. The incollect and LMS revenue amounts that are listed on the monthly invoice are payable to GTE in total. The Parties agree that the arrangement for invoicing the incollect and LMS revenue amounts due GTE is not a settlement process with NETWORK.

- 1.1.17.3 <u>Administration</u>. The Parties agree to develop a process whereby NETWORK's end user information is available in a timely manner to allow GTE to build tables to screen the CMDS incollect files and LMS files on behalf of NETWORK.
- 1.1.18

  Backbilling. GTE shall bill NETWORK on a timely basis. In no case shall GTE bill NETWORK for previously unbilled charges that are for more than one year prior to the current bill date.

#### 1.2 Order Processing.

- 1.2.1 Order Expectations. NETWORK agrees to warrant to GTE that it is a certified provider of telecommunications service. NETWORK will document its Certificate of Operating Authority on the NETWORK Profile and agrees to update this NETWORK Profile as required to reflect its current certification. The Parties agree to exchange and to update end user contact and referral numbers for order inquiry, trouble reporting, billing inquiries, and information required to comply with law enforcement and other security agencies of the government. The Parties also agree to exchange and to update internal order, repair and billing point of contacts. Prior to submitting an order under this Agreement, NETWORK shall obtain such documentation as may be required by state and federal laws and regulations.
- 1.2.2 GTE shall provide NETWORK with a specified customer contact center for purposes of placing service orders and coordinating the installation of services. These activities shall be accomplished by telephone call or facsimile until electronic interface capability has

been established. The Parties adopt the OBF LSR and DSR forms for the ordering, confirmation and billing of resale services.

- 1.2.3 GTE will process such service orders during normal operating hours, at a minimum on each Business Day between the hours of 8 a.m. to 8 p.m. Eastern Time and shall implement service orders within the same time intervals used to implement service orders for similar services for its own users.
- 1.2.4 GTE will provide current GTE customer proprietary network information (name, address, telephone number and description of services provided by GTE including PIC and white page directory listing information) as provided in Article V, Section. The return of customer information will be via facsimile or via electronic transmission.

# Maintenance Systems.

## 2.1 General Overview

2.1.1 If NETWORK requires maintenance for its local service customers. NETWORK will initiate a request for repair (sometimes referred to as a "trouble report") by calling GTE's Customer Care Repair Center. During this call, GTE service representatives will verify that the end-user is a NETWORK customer and will then obtain the necessary information from NETWORK to process the trouble report. While NETWORK representatives are still on the line, GTE personnel will perform an initial analysis of the problem and remote line testing for resale services. If engineered services are involved. the call will be made to the GTE SSCC for handling. If no engineering is required and the line testing reveals that the trouble can be repaired remotely. GTE personnel will correct the problem and close the trouble report while NETWORK representatives are still on the line. If on-line resolution is not possible, GTE personnel will provide NETWORK representatives a commitment time for repair, and the GTE perconnel then will enter the trouble ticket into the GTE service dispatch queue. NETWORK's repair service commitment times will be within the same intervals as GTE provides to its own end users. Maintenance and repair of GTE facilities is the responsibility of GTE and will be performed at no incremental charge to NETWORK. If, as a result of NETWORKinitiated trouble report, trouble is found to be the responsibility of NETWORK (e.g., non-network cause) GTE will charge NETWORK

for trouble isolation. NETWORK will have the ability to report trouble for its end users to appropriate trouble reporting centers 24 hours a day, 7 days a week. NETWORK will be assigned a customer contact center when initial service agreements are made.

- 2.1.2 Repair calls to the SSCC for engineered services will be processed in essentially the same manner as those by the GTE Customer Care Center. GTE personnel will analyze the problem, provide the NETWORK representative with a commitment time while they are still on the line, and then place the trouble ticket in the dispatch queue.
- 2.1.3 GTE then will process all NETWORK trouble reports in the dispatch queue along with GTE trouble reports in the order they were filed (first in, first out), with priority given to out-of-service conditions. If, at any time, GTE would determine that a commitment time given to NETWORK becomes in jeopardy, GTE service representatives will contact NETWORK by telephone to advise of the jeopardy condition and provide a new commitment time.
- 2.1.4 Trouble reports in the dispatch queue will be transmitted electronically to GTE\_CZT service technicians who will repair the service problems and clear the trouble reports. For cleared NETWORK trouble reports, GTE service technicians will make a telephone call to NETWORK directly to clear the trouble ticket. GTE service technicians will make the confirmation call to the telephone number provided by NETWORK. If NETWORK is unable to process the call or places the GTE technician on hold, the call will be terminated. To avoid disconnect, NETWORK may develop an answering system, such as voice mail, to handle the confirmation calls expeditiously.
- 2.1.5 GTE will provide electronic interface access to operation support systems functions which provide the capability to initiate, status and close a repair trouble ticket. GTE will not provide to NETWORK real time testing capability on NETWORK end user services. GTE will not provide to NETWORK an interface for network surveillance (performance monitoring).
- Electronic Interface. The Parties shall work cooperatively in the implementation of electronic gateway access to GTE operational support systems functions in the long-term in accordance with established industry standards.

- 3.1 NETWORK shall have immediate access to the following OSS electronic interfaces that will provide functionality to enable NETWORK to service customers in an equal and non-discriminatory manner:
  - 3.1.1 Pre-Order functions, e.g., TN Assignment, DD Reservation, Address Validation, Product Availability, that are available on a dial-up or dedicated basis using the Secure Integrated Gateway System (SIGS).
  - 3.1.2 Order functions that are available on a dial-up or dedicated basis using CONNECT: Mail file transfer.
  - 3.1.3 Initial trouble reports via SIGS.
  - 3.1.4 Electronic transfer of the NETWORK bill in electronic data 811 format.
- 3.2 NETWORK may migrate to fully interactive system to system interconnectivity. GTE, with input from NETWORK and other carriers, shall provide general interface specifications for electronic access to this functionality. These specifications will be provided to enable NETWORK to design system interface capabilities. Development will be in accordance with applicable national standards committee guidelines. Such interfaces will be available as expeditiously as possible.
- 3.3 All costs and expenses for any new or modified electronic interfaces exclusively to meet NETWORK requirements that GTE determines are Currently Available and GTE agrees to develop will be paid by NETWORK.
- 3.4 NETWORK shall be responsible for modifying and connecting any of its pre-ordering and ordering systems with GTE provided interfaces as described in this Appendix.
- GTE Initiated Electronic System Redesigns. GTE will not charge NETWORK when GTE initiates its own electronic system redesigns/reconfigurations.

#### PART I LOCAL SERVICES RESALE

### 24. <u>Telecommunications Services Provided for Resale</u>

Upon request by AT&T in accordance with Attachment 4 and subject to the restrictions contained in Section 25.3 hereunder, GTE shall make available to AT&T at the applicable rate set forth in Attachment 14, any Telecommunications Service that GTE currently offers or may hereafter offer at retail to subscribers that are not telecommunications carriers. Such Telecommunications Services provided by GTE pursuant to this Section are collectively referred to as "Local Services."

# 25. General Terms and Conditions for Resale

# 25.1 Ordering

- 25.1.1 Orders for resale of Local Services will be placed utilizing a standard Local Service Request ("LSR") form. A complete and accurate LSR must be provided by AT&T before a request can be processed; provided, however, that immaterial deviations or omissions in the LSR will not prevent an order from being processed. Each Party shall transfer the customer's service features and functionalities "as is" to the other Party when requested by a customer. For purposes of this Section 25, an "as is transfer" is the transfer of all the telecommunications services and features available for resale that are currently being provided for the specified account without the requirement of a specific enumeration of the services and features on the LSR.
- 25.1.2 A Letter of Authorization ("LOA") will be required before Local Services will be provided for resale to a subscriber that currently receives local exchange service from GTE or from a local service provider other that AT&T. Such LOA may be a blanket letter of authorization (Blanket LOA) or such other form as agreed upon by AT&T and GTE. When a Blanket LOA has been provided by AT&T, GTE shall not require an additional disconnect order, LOA or other writing from a customer, or another LEC, in order to process an order for Local Service. Each Party will provide the capability for customers to retain their current phone number in the event that they change local service providers to

the extent technically feasible, allowing them to retain all existing features and functionalities

#### 25.3 Restrictions on Resale

To the extent consistent with the applicable rules and regulations of the FCC and the Commission, AT&T may resell all GTE Local Services as defined in GTE's tariffs. The following restrictions shall apply to the resale of Local Services, as described in Section 24 of this Agreement by AT&T: (i) AT&T shall not resell residential services to non-residential end users; (ii) AT&T shall not resell Lifeline/Linkup services or any other means-tested service offering, to nonqualifying customers; and (iii) AT&T shall resell grandfathered services only to customers qualified to receive such services from GTE.

Beginning with the Effective Date of this Agreement, Resale Services will be priced in accordance with the standards and prices described below.

- The wholesale rates for Local Service Resale will be calculated based upon the discounts described in Annex 1. Such discounts will be applied against the Retail Rates for each GTE Retail Offering.
- 1.1 "Retail Rates" are the effective rates a GTE retail customer would have paid GTE under the Retail Offering selected by AT&T, taking into consideration all applicable discounts, including, but not limited to, volume, term and time of day.
- 1.2 A "Retail Offering" is an individual contract or retail service rate element, or package of rate elements, which GTE offers to its retail customers, including, but not limited, to Grandfathered Services.
- Nonrecurring "change" or "record" charges, rather than service establishment charges, shall apply for the conversion of existing Customers of GTE services, received either directly from GTE or through another reseller, to AT&T local service.
