981781-

It seems North Fort Myers Utility have put the horse before the cart. They have already hooked up to the system, without talking to us at Buccaneer Estates, whether we would be willing to pay the cost of this service.

Buccaneer residence use to pay \$7.06 per month for waste water treatment, Buccaneer is talking \$10.00 more for the service.

Plus, they want to charge us over \$400.00 for each lot to hook up. We are already hooked up for waste water treatment.

I have a life time lease which gave me this service in my lease.

I don't want to stand in the way of progress but not to the tune of over \$10.00 per month plus over \$400.00 to hook up.

Sincerely,

Budford J. Green
