Re: Request for Amendment to Authority to Provide Interexchange Telecommunications Service in the State of Florida by PaeTec Communications, Inc.

Dear Ms. Bayó:

On July 20, 1998, PaeTec Communications, Inc. ("PaeTec") submitted an application and supporting tariffs for intrastate interexchange service and facilities-based alternative local exchange service within the state of Florida. On November 13, 1998, the Florida Public Service Commission ("Commission"), in Order No. PSC-98-1507-FOF-TI, Docket No. 980916-TI, Certificate No. 5757, granted PaeTec the authority to provide interexchange service within the state of Florida subject to an action by an interested party pursuant to Rule 25-22.029 of the Florida Administrative Code. No such action was taken.

On November 13, 1998, the Commission, in Order No. PSC-98-1498-FOF-TX, Docket No. 980919-TX, Certificate No. 5756, granted PaeTec the authority to provide alternative local exchange service in the state of Florida as well.

It is the intention of PaeTec to collocate a switched long distance capable facility with our alternative local exchange traffic switching platform, currently under construction at 100 North Biscayne Blvd. in Miami, to carry interexchange traffic as well. PaeTec respectfully requests that the Commission amend our authority to reflect the fact that PaeTec intends to provide facilities-based, switched long distance service within the state of Florida. We anticipate beginning this service concurrently with the provision of alternative local exchange service in the summer of this year.

Appropriate tariff changes will be forwarded to you in separate correspondence if required. If you have any questions concerning this filing, please do not hesitate to contact me. Thank you for your attention to this matter.

Sincerely,

JT Ambrosi
