.....  
As we discussed, the recommendation for this docket will be pulled from the consent agenda--since the docket was opened to handle a notice of adoption of interconnection and resale agreement and we have agreed that these filings will be handled administratively.

Linda, please print this e-mail and document-number and enter it in CMS as a record of handling of the recommendation.

Matilda, please pull the page from 16 sets of recommendation copies. Walter had already run that many by the time I got the word to him about this rec being pulled, but he is setting those 16 aside so we will know which ones have the "bad page."

Let me know if anyone has questions!
