Subject: fwd: Negotiated Agreements

-----URGENT-NOTE-----3/23/99--2:23pm-----
Recently we have a new complication to the negotiated agreements and I wanted to make you all aware of it.

Records and Reporting is having a difficult time identifying the adopted agreements, and as a result, the description given at the top of the CASR may not state that it is an adopted agreement.

It is extremely important that each of you check the agreements at the time you receive new ones to make sure there are no adopted agreements among them, since adopted agreements should not go to agenda.

I have looked through all of your consent agenda agreements for 3/30 and 4/20 agendas, and have found two already on the 3/30 agenda that, although the case management description shows them as IUR agreements, are actually adoptions of agreements (D's No. 990088 & 990230).

If in future you find that an agreement you have received is an adoption of a previous agreement, please give it to me immediately so that I can have the docket withdrawn BEFORE it gets included in the agenda. This will save a lot of time and effort here in our department, in legal and in R & R.

We are working on a solution to this problem. I'll keep you informed.

Thanks for your help.

June, thank you. Fyi, please remember that this applies only to Agreements that adopt a previously approved Agreement in its entirety. Agreements that adopt PORTIONS of previously approved Agreement(s) do go to agenda... Kim and June, it looks like the withdrawal memos covering 990088 and 990230 are ready to be sent to Mr.T...Thank you.

Vic, FYI, I KNOW which ones they apply to. Incidentally, the memos aren't quite ready for Mr. Talbott. I still need Tina Watts's initials. I was unable to get them yesterday, when I did the memos.
