Is this docket an amendment to interconnection, unbundling, and resale agreement, or is it an amendment to an interconnection agreement?

We have it titled in CMS as amendment to interconnection agreement, but it is included in a "batch" recommendation with amendments to interconnection, unbundling, and resale agreements.

Please advise, so we can show it correctly on agenda and vote sheet, and also change CMS if necessary!

Thanks. Kay

This docket is an amendment to an interconnection, unbundling and resale agreement as shown on the consent recommendation. Also note that the name of the company is MGC Communications, Inc. and not MCG. I verified this with the paperwork from BellSouth and the existing agreement between the companies as listed in case management.

Thanks

Okay. Thanks. We'll correct the title (including name) in CMS.

Linda, please print and correct.  
Thanks. Kay
