Additional Issues For Discussion

At Public Service Commission Workshop on Merchant Plants

At Staff Workshop at 10:00 a.m., Monday, May 3, 1999

Submitted by Orlando Utilities Commission

1. Should merchant plants be required to meet the 15% reserve margin requirements consistent with Florida utility responsibilities?
2. Should existing Florida utilities be relieved of their obligation to serve retail customers when, in the interest of the utility, it is not cost effective to do so?
