fwd: Confidential Filing in  
Undocketed

====NOTE=====5/05/99==4:46pm==  
Received a request for confidentiality  
from Gulf Power on certain commercial  
and financial information contained in  
FERC Form 1 for year ending 12/31/98.  
It is in the undocketed file now,  
should this material be put in a  
docket? Pls advise.

.....  
Yes, I think it will have to be  
docketed to handle the confidentiality  
request. This isn't something we can  
send back after looking at it. If any  
one disagrees, please let me know.

Any response from the others on  
docketing, or can I go ahead and open  
one up?
