Re: Docket No. 990001-EI - Fuel and purchased power cost recovery clause and generating performance incentive factor.

Dear Mr. Childs:

After our discussion last week concerning Staff's Second Set of Interrogatories to Florida Power & Light Company in the above-referenced docket, I confirmed that the interrogatories are improperly numbered. The interrogatories are staff's first set in this docket and should have been labeled accordingly. With this clarification, please respond to the interrogatories as they are currently numbered.

Please let me know if you have any questions concerning these interrogatories.

Yours truly,

Wm. Cochran Keating, IV
