On April 2, 1999, BellSouth filed a Notice of Intent to Request Specified Confidential Treatment of the direct testimony that was to be filed in these Dockets on April 7, 1999. Again, I emphasize that a ruling has not been made on the items identified above. Also, BellSouth's Request and Revised Request for Confidential Treatment only address testimony and exhibits filed on direct.

Any information filed on direct that is not identified in the revised chart should be released into the public domain. The revised chart does **not** reclassify any information released by our May 12, 1999, memorandum. It does, however, release certain information contained in Michael D. West's CD Rom exhibit that is not specifically identified above. In addition, the revision corrects the identification of certain documents.
