### Public Service Commission

DATE: September 2, 1999  
TO: Parties of Record  
FROM: Blanca S. Bayó, Director *BSB*  
Division of Records and Reporting  
RE: Docket No. 950379-EI - Determination of regulated earnings of Tampa Electric Company pursuant to stipulations for calendar years 1995 through 1999.

This is to inform you that Commission is reporting the following communications in the above-referenced docket.

- E-Mail from Nainan Desai, University of South Florida, dated September 1, 1999.
- E-Mail from Fred Johnson, Farmers Market Restaurant, dated September 1, 1999.
- E-Mail from Rod Kelly, Facilities Planning & Development, dated September 1, 1999.
- E-Mail from Judy E. Berglund, Department of Veterans Affairs, dated September 1, 1999.
- E-Mail from Stephen M. Afflixio, Afflixio Consulting Services, dated August 30, 1999.
- E-Mail from Sandy Henderson, Hillsborough County Water Department, dated August 30, 1999.

These e-mails, copies of which are attached, are being made a part of the record in these proceedings. Pursuant to Section 350.042, F.S. any party who desires to respond to this communication may do so. The response must be received by the Commission within 10 days after receiving notice that the communication has been placed on the record. Please mail your response to the Division of Records and Reporting, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0870.

Sub: TECO's Electric Technology Resource Center (ETRC)

Dear Sir or Madam,

I am writing to you in support of the need for ETRC type facility. At USF we have found it beneficial in many ways. Some of the key benefits are listed as follows:

- Excellent hands on education for students, and maintenance personnel dealing with the University's energy conservation program.
- Provides technical training by way of bringing experts in the field.
- A place to experiment with new technologies and study the effectiveness.

We believe, TECO, the electric utility, is rightfully involved in providing and maintaining a much-needed facility like ETRC.

Please feel free to contact me if you have any question. Thank you.

Sincerely,

Nainan Desai, MBA  
Professional Engineer

**DATE:** September 1, 1999  
**TO:** Blanca Bayo, Director, Division of Records and Reporting  
**FROM:** Melinda Butler, Assistant to Commissioner Jacobs *MB*  
**RE:** Communication From an Interested Party Received in  
Docket No. 950379

---

RECEIVED - FPSC  
SEP - 1 PM 4:25  
RECORDS AND  
REPORTING

This office has received the attached e-mail of Naiman Desai dated August 30, 1999. The referred to attachment to the e-mail, which ostensibly contains the substance of the communication, was not retrievable from our computer system because it had an unknown format. Therefore only the e-mail announcing the attachment has been viewed by the Commissioner and the actual correspondence relating to Docket No. 950379 has not been viewed or considered in any way by Commissioner Jacobs. Under the terms of the advisory opinion from the Commission on Ethics (issued July 24, 1991 as COE 91-33-JULY 19, 1991), this does not constitute an ex parte communication by virtue of the fact that it was sent by an individual customer and it was not seen by the Commissioner. Given that it is not an ex parte communication, it does not require dissemination to parties pursuant to the provisions of Section 350.042, Florida Statutes. However; in such cases Commissioner Jacobs has requested that a copy of the correspondence and this memo, as a matter of routine, be placed in the correspondence side of the file in this docket.

Commissioner Johnson,

It is my understanding that the PSC is questioning the value of the ETRC operated by TECO in Tampa. As one who has had the opportunity to benefit from the classes provided by the ETRC, it is my opinion that the ETRC is vital to users such as myself. I have attended numerous classes, technology sessions and displays offered at the ETRC. I have found that the service they provide to is not available anywhere else in such a convenient and economical manner. You should look at their seminar schedule to appreciate the range and depth of services they provide at a fraction of the cost offered by other insititutions and enterprises. Please do not do anything to eliminate or diminish the services they provide.

Thanks,

Rod Kelly,  
Manager, Facilities Planning & Development

Department of Veterans Affairs  
James A. Haley Veterans' Hospital  
13000 Bruce B. Downs Blvd  
Tampa, Florida 33612

August 30, 1999

Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

Dear Commissioner:

The James A. Haley Veterans' Hospital, Tampa Florida has had the good fortune to utilize the Tampa Electric Company Technology Center extensively in the past for the latest information and demonstration of the most recent advances in Food Equipment Technology. We have established an ongoing partnership with this center and rely heavily on their expertise and knowledge in the field to help us in our purchasing and decision making process.

Thanks to the availability of the Technology Center, we have been able to evaluate first hand, state of the art equipment and processes, including advanced delivery systems, ovens, steamers and blast chillers. Based on this center's capabilities, after extensive evaluation, we have purchased the USECO Advanced Delivery System and the USECO Blast Chiller. We are currently in the process of determining our needs for ovens and have

selected a product based on the information gained at the Technology Center.

We sponsor a 47 week Dietetic Internship program for six post-baccalaureate Dietetic Interns. Our interns have been able to visit the Technology Center, meet with vendors and with Mr. Brad Streetman. The Center has offered generous access to their equipment library and conference rooms for research into layout and design projects, equipment projects and other administrative assignments. It has been an invaluable resource for our internship program.

Our sister hospitals from Bay Pines and Gainesville/Lake City have also taken advantage of the Technology Center.

We feel that this Center offers a critical service for all levels of the Food Service industry. It serves the health care foodservice industry, business and resort industry, school food service, and many other segments of our food service profession. This letter is to strongly support the continuation of this service for our rapidly growing area. It provides a crucial service to the industry and we are in full support of their continued operation.

Judy E. Berglund, MBA, RD, LD  
Chief, Nutrition and Food Service

RECORDS AND  
REPORTING

Florida Public Service Commission

2540 Shumard Oak Blvd.  
Tallahassee, FL 32399-0850

Dear Commissioner Clark:

I am writing on behalf of The Energy Technology Resource Center at the USF campus in Tampa, Florida. I have been involved with the Center since its inception and have remained active in a variety of business applications.

As Corporate Chef for Mutual Wholesale Company of Lakeland, Florida, I use the Center's food service facilities to test food products, new equipment, and recipe development. Additionally, I hold seminars several times a month to train many different areas of restaurant and food service operations. The Center has increased the awareness of the restaurant community in the value of energy management, new technology available to help improve food safety, and in general, to provide vision for the operator that they may not experience elsewhere.

As a consultant to the Melting Pot Restaurants, Inc., I worked with the Center in conducting an extensive study. We tested the feasibility of converting the then 40-unit restaurant chain to induction cooktops, which would be placed on over 2,000 tables in their fondue restaurants.

As President of the Tampa Bay American Culinary Federation Chapter, the Center has proven to me to be an invaluable resource for the culinary arts in the Tampa Bay area. The opportunity for Certified Chefs, Associate Members and Culinary students to work in a test kitchen with state of the art equipment is unique to the facility. The students are the future of the industry and have developed a sense of partnership with a gas and electric utility. This would not occur without a facility such as the ETRC.

In the interest of brevity, I cannot begin to list the variety of seminars, college approved courses, food and equipment demonstrations and charity events that I have been involved with at the Center. Quite simply, I cannot imagine being able to operate successfully without this valuable facility.

Please contact me at your convenience with any questions you may have regarding this important contributor to the Tampa Bay area.

Sincerely,

Stephen M. Affixio, CEC, FCP  
Affixio Consulting Services

Dear Ms. Johnson:

As a Utilities Manager in the Hillsborough County Water Department, I oversee the operation and maintenance of five wastewater treatment facilities. As part of their excellent customer service, our TECO account representatives provide us with information on seminars to be held at the ETRC. My electricians have attended several such seminars and have come back with enthusiastic reviews of the material presented at those workshops.

Most recently, two of our guys attended a power quality seminar. One of them is setting up a meeting to share with our other electricians the information presented at the ETRC. The other is planning additional plant projects based on information presented at that same workshop.

I attended a Y2K seminar at the ETRC. The material presented was timely, as we have been making our own Y2K plans. I also was given a tour of the facility and brought back some valuable information. Because of the knowledge gained by our personnel and the associated benefits to our organization, my Section Manager favors increased staff training at future workshops at the ETRC.

Sincerely,

Sandy Henderson  
Utilities Manager  
Hillsborough County Water Department

August 31, 1999

Dear Commissioner:

It has come to my attention that the funding for the Tampa Electric Company's Energy and Technology Resource Center is under review and would like to relay my experiences with them.

When I was owner of BuddyFreddys Restaurant in Plant City and was in the process of designing the building for our new location in Brandon, I worked extensively with Brad Streetman and Ray Dohle on a comprehensive plan for reducing the productivity and energy efficiency of the restaurant by having an all electric kitchen.

Regretfully, we had to compromise the design by choosing to reduce our initial capital outlay in lieu of obtaining a highly energy-efficient restaurant.

Upon completing construction of our Brandon facility, the ETRC was again called on to help us examine an outrageously high water usage problem.

During construction, a 1.5 inch, 180 degree water pipe was punctured, causing us to have a usage rate of over 1 million gallons of water per month. Ray Dohle was instrumental in working with us to locate and solve the problem.

TECO and the ETRC have been a valuable asset for me and would urge you to consider their contribution to our business community.

Sincerely,  
Fred Johnson  
Owner

Dear Commissioner,

Please excuse my mistake in an earlier message:  
"I worked extensively with Brad Streetman and Ray Dohle on a comprehensive plan for reducing the productivity and energy efficiency of the restaurant by having an all electric kitchen."  
This should have read that we were increasing the productivity and energy efficiency of the restaurant.

Thank you,  
Fred O. Johnson
