This rescheduling was precipitated by the possibility that Hurricane Floyd would make landfall on the east coast of Florida. Many utility officials and employees expecting to participate in the September 16, 1999, workshop became unavailable due to emergency management responsibilities. Pursuant to and consistent with Executive Order 99-227, this workshop has been rescheduled to assure the timely performance of vital emergency response functions.

PURPOSE: The purpose of this workshop is to afford an opportunity for public comment on the ten-year site plans submitted by Florida's electric utilities. At the workshop, the utilities will describe their plans, the key assumptions underlying the plans and
