MEMORANDUM

September 28, 1999

TO: DEPUTY EXECUTIVE DIRECTOR/TECHNICAL (BANE)

FROM: DIVISION OF ELECTRIC AND GAS (DRAPER) *ESD CSW*

JDJ

RE: OCTOBER 5, 1999, AGENDA CONFERENCE - ITEM 6 - DOCKET NO. 991094-EM - PETITION BY ORLANDO UTILITIES COMMISSION FOR MODIFICATION OF ELECTRIC RATE SCHEDULES.

SPECIAL

INSTRUCTIONS: PLEASE PROVIDE COPIES OF THIS MEMORANDUM TO THE PARTIES OF RECORD

Staff would like to make an oral modification to the second paragraph on page 3 of its recommendation filed on September 23, 1999, in Docket No. 991094-EM - Petition by Orlando Utilities Commission for modification of electric rate schedules. The modification has been highlighted below.

Although OUC determined that hourly wholesale prices fall into six pricing periods, it decided at this time to implement a shoulder pricing period only for the General Service Large Demand (GSLD) class and for General Service Demand (GSD) customers ~~taking service at primary voltage whose demand exceeds one Megawatt~~. GSD customers ~~taking service at secondary voltage whose demand is less than one Megawatt~~ will only pay differing TOU rates for on-peak and off-peak winter and summer period.

The revision is minor and staff would therefore like to make an oral modification to its recommendation at the October 5 Agenda Conference.
