Dear PSC,

This letter is to inform you that LEC-Link would like withdraw it's tariff and certification as a reseller of telecommunications in the state of Florida. This is due to the continued unreasonable conditions and limitations on the resale of telecommunications services by BellSouth. We have hoped that this problem might be cured by the PSC but there has been no resolution to this problem. It is our belief that they are not fully complying with The Telecommunications Act of 1996. A copy of a prior complaint is enclosed.

LEC-Link has not sold any services or gained any gross revenue in the state of Florida and has been a CLEC in name only. Because LEC-Link has never had a customer in this state, withdrawing our tariff and certification will in no way effect anyone's telecommunications. If there is anything further that we must do or if you need more information please contact Jason Jordan or me at the above address. We would also like written confirmation of this process and the date of our official withdrawal.

Sincerely

Jerry LaQuiere
