CUSTOMER COMMENTS

My first question is when two homes come of the same line of water, which one has to put in the line for its meter?
my second one is when did the State of Florida started to charge for well water on private land, the water on this parcel of land which is Breeze Hill since somewhere in 70's or before, it's always been private own. Now it seems to be under the Water Commission. Please try to my me understand this.

I didn't quite understand the meeting on Oct 6 in Breeze Hill.
Thank you

Madeline Tracey

CUSTOMER COMMENTS

to the public serv. Comm. We are
Very much against your decision to allow
such a large increase in water & sewer
rates in Breeze Hill, I feel the \$9000 per mo.
of around is more than sufficient since
we are not there more than 4 months per
for this reason I am also opposed to meters being
installed and a flat rate whether any water & sewer
is used several residence in Breeze Hill have gone
as far as to obtain records of cost of this service
the present park mgr. is trying to rip off
all the residence in Breeze Hill and would
appear you the Comm. are involved.
The more I become aware of fl. law
the less I like Florida.
