Re: WinStar Wireless, Inc.'s Price List No. 1, T99-1417

Dear Ms. Bayo:

On behalf of WinStar Wireless, Inc. ("WinStar"), enclosed for filing are an original and three (3) copies of revised and newly added sheets for WinStar's Florida Price List No. 1, referencing file number T99-1417. This filing supercedes filings dated August 25, 1999 and September 27, 1999, as per Ms. Karen Franklin of the Commission. WinStar has added new Outbound Toll Free Commission Program (Section 3), Directory Listing Services (Section 3), Frame Relay Services (Section 4) and Resold Local Exchange Services (Section 5). In addition, WinStar has included new Emergency Services (Section 3) and Telecommunications Relay Services (Section 3), as requested by Mr. Tom Williams of the Commission. The price list sheets bear an issued date of November 1, 1999 and effective date of November 2, 1999.

Please date-stamp the extra copy of this filing and return it to us in the self-addressed, prepaid envelope enclosed herein. Should you have any questions on this matter or if we may provide additional information, please do not hesitate to contact us.

Respectfully submitted,

William B. Wilhelm, Jr.

3.3 Toll Free Service

3.3.2 Outbound Toll-Free Commission Program

The Outbound Toll-Free Commission Program is a promotion designed to give businesses a commission on the revenues derived from Carrier Access Billing (CAB). The commission is based on the number of minutes of outbound toll free (800/888/877) traffic driven over the Company's local access trunks.

The Company will track the number of toll-free long distance minutes handed off to other IXC's (interexchange carriers) by the Company and give a fixed dollar amount per minute back to the Customer in the form of a monthly check. The commission rate per minute will be based on the current CAB rates in effect. All commission rates are determined by the monthly revenue commitment of each Customer

This service is only available to WinStar Large Account Market Customers: (Hotels, Hospitals, and Universities) that are located in an active Company sales territory.

3. BASIC SERVICES AND RATES (CONT'D)

(N)

3.10 Emergency Services (Enhanced 911)

Emergency Services allows Customers to reach appropriate emergency services including police, fire and hospital. Enhanced 911 (E911) has the ability to selectively route an emergency call to the primary E911 provider so that it reaches the correct emergency service located closest to the caller. In addition, the Customer's address and telephone information will be provided to the primary E911 provider for display at the Public Service Answering Point.

3.11 Telecommunications Relay Service

Telecommunications Relay Service refers to the provision of a specialized telecommunications service that allows hearing- and speech-impaired Customers to communicate over the telecommunications network as defined in Florida Statute 364.337. The Company will pass through to the Customer all charges associated with this service, including associated taxes and franchise fees, at the same level of charge as assessed by the ILEC to the Company. The Customer is responsible for the provision of all hardware and installation thereof at the Customer's premises in order to utilize this service; the Company maintains no inventory of hardware for this purpose.

3.12 Directory Listing Services

The following rates apply to Directory Listing Services. Foreign Listings enable the user to list their phone numbers outside their immediate calling area.

<u>Directory Listing Changes</u>	<u>Non-Recurring</u>	<u>Monthly</u>
Listed Service (First Listing)	N/A	\$0.00
Additional Listing	N/A	\$1.20
Unlisted Service (Non-Listed)	N/A	\$1.50

4.5 Frame Relay Services

4.5.1 Frame Relay WAN

WinStar provides two Port methods to access its network, Dedicated Line and Local Access and also offers Network Port Speeds that range from 56 kbps to T1 to provide a selection of access options and prices.

Dedicated Line Access - direct access from the Customer's premises to WinStar's Frame Relay switch using private lease lines forming logical circuits which define the dedicated connection between the two points. Both PVC line and Port access charges apply when utilizing this method of access.

PVC - also referred to as Permanent Virtual Connection (PVC). PVC a service that establishes a fixed path between data terminal equipment.

Local Access - indirect access from the Customer's premises through a Local Exchange Carriers's (LEC) Frame Relay network to WinStar's Frame Relay switch. The connection is a pass through common port facility which Customer's share access, thereby reducing their access charges. The connection is made through a Network-to-Network Interface (NNI), which connects the Company's port to the LEC's via a single path. Both PVC line and Port access charges apply when utilizing this method of access.

Port Charges are the charges billed to the Customer for access into the network.

The Frame Relay Network provides continuous monitoring and fault Management to ensure network availability and performance twenty-four (24)hours a day, seven (7) days a week. WinStar also provides a Customer Care Center to ensure consistent quality of service and issue resolution.
