.....
Tyler, I spoke with Carol and Blanca about this vote sheet. We checked the original recommendation that was filed on 11/18 and verified that it contained 2 issues only. Since the recommendation is what the Commissioners vote on (rather than the agenda page or the vote sheet, each of which contained THREE issues and were pulled from the electronic version of the rec), we are going to make an administrative correction to the vote sheet and have the Commissioners re-sign it. We will then cross through the incorrect vote sheet and place an explanatory note on it, and leave that vote sheet in the docket file for the record. A copy of this e-mail will also be placed in the docket file.

I've cc'd Rosanne and Noreen in case they wish to discuss this or have concerns about what we intend to do to correct the vote sheet.

This is an example of the type of correction we hope to catch before the agenda. Please give a quick review to your agenda items as soon as possible after you get the "agenda availability" e-mail from Carol. If you see an inconsistency or mistake, please let Carol know immediately.

Thanks. Kay

Records caught the error and called us on friday, November 19, 1999. We immediately sent a new electronic copy down the same day. Apparently, something happened with that one. On the morning of agenda, I noticed that the incorrect recommendation was in the agenda booklet but the correct version was on the internet. Sometime after agenda, after being instructed to do so, I sent another electronic copy to records. (I am not sure of the exact date) CMS is now correct. Please, include this response with the e-mail in the file.

Thanks. Tyler Van Leuven
