Gentlemen ;

Reference is made to the attached letter of Notice of Application for Initial certificate of Authorization for Water and Wastewater Certificates. I assume we received this notice because we live in St. Johns County. As you can well appreciate, it is impossible to determine what this is all about.

If I try to read between the lines, I guess Intercoastal Utilities is applying for the authority to provide water and receive raw sewage from an area in St. Johns or Duval Counties. If this is correct, I would like to object for the following reason.

I am assuming this raw sewage would be treated at the Sawgrass Treatment Plant located on A-1-A in Ponte Vedra Beach, Florida. I would like to tell you that the odor emanating from this plant is terrible. This odor is an embarrassment to the community of Sawgrass and all of Ponte Vedra Beach.

In closing, I do not feel that Intercoastal Utilities should be allowed to serve additional areas until they eliminate the terrible odors from their existing facility.

I thank you for the opportunity to voice my opinion.

Sincerely,
Fred J. Davies
