 Re: Interoceanal Wlelition application
 MAIL ROOM

Dear Sir/Madam:

I can't imagine you would approve an expansion of the service area of Interoceanal since they can't handle what they already have.

For several weeks, indeed months, they have been unable to process all of the sewage they have. At first it was because they hadn't finished the second processing system, then they used the second tank to simply store raw sewage for extended periods. The result is a terrible stench over a large area, for a long time.

We are outraged that they can't serve us properly and astonished they could even consider expanding their service area when they lack facilities, expertise, and the will to do a proper job of what they already have.

Done 2/18/00

Robert A. McElroy
