Dear Sirs:

Re: Wildwood Estates Docket & 961444 - Ws Progress Report for December 1999 - January 2000

The City of Wildwood took over the maintenance of the water and sewer plant effective January 1, 2000.

We approved the installation of the 8" force main which will allow for future development of up to 650 units on the Wildwood property.

Engineering drawings and the application for constructing the domestic wastewater collection/transmission system was sent to the DEP for approval.

The City of Wildwood completed the repairs to the manholes, installed new discharge and time-lapse meters, repaired the generator transfer switch, installed a new chlorinator, and a new propane tank.

Yours truly,

Don G. Choquet
