Re: Credit facility for Progress Telecommunications Corporation

Dear Sir or Madam:

This letter confirms that Progress Telecommunications Corporation ("PTC") has an inter-company line of credit with Progress Capital Holdings Inc. ("PCH"), its parent company and the wholly owned downstream holding company for all of Florida Progress Corporation's diversified operations. Borrowings by PTC under its inter-company line of credit are funded externally through PCH's \$400 million commercial paper program which is rated A-1 by Standard & Poor's and P-1 by Moody's. The commercial paper program is backed by a \$100 million 364-day and \$300 million long-term revolving credit facility with a group of banks led by Chase Manhattan. These facilities expire in November 2000 and November 2003, respectively.

In addition to the inter-company line of credit, PCH has a \$41 million equity investment in PTC. PTC also has access to long-term financing through the PCH medium-term note program.

If you require any further information in regard to the credit back-up for PTC, please contact the Treasury Department of Florida Progress at (727) 820-5870.

Very truly yours,

Pamela A. Saari

Ron Mudry **Vice President and General Manager**

Summary

With more than 15 years of cross-functional experience in the telecommunications industry, Ron Mudry was the logical management choice to lead the team that launched *Progress teleCOM* in 1998. Currently, Ron serves as vice president and general manager of this growing carrier's carrier that provides wholesale fiber-optic services to other telecom companies in Florida and the southeast United States.

Prior to launching *Progress teleCOM*, Ron held a variety of management positions at GTE Corporation ranging from finance, sales and marketing, international, strategic planning, and mergers & acquisitions. While working with GTE's equipment financing subsidiary, Ron developed his start-up business acumen by establishing and managing the Central Sales Operations group, which developed and supported new products and became the largest provider of new business to the subsidiary. As assistant vice president of corporate development at GTE, Ron directed domestic and international business units in the implementation of transactions that included acquisitions, joint ventures, strategic alliances and divestitures. Accomplishments included leading GTE's team evaluation of a \$500+ million acquisition/joint venture and the review of a multi-billion dollar acquisition of a global data network.

While managing the International Treasury division, Ron was responsible for the development and implementation of financing strategies, which supported GTE's international expansion. In addition, Ron led the corporate negotiations and structuring of the \$150 million credit facility to facilitate the bid to acquire a Latin American telecommunications company.

Elizabeth Walker
Director Network Services Division

Summary

With more than 25 years of experience in the telecommunications industry, Elizabeth Walker is a seasoned professional. Currently, Elizabeth is Director Network Services Division at *Progress teleCOM*, a preferred provider of telecommunications services throughout Florida and the Southeast, where she is responsible for all aspects of the network.

Prior to joining *Progress teleCOM*, Elizabeth was a senior consultant for local service at MCI. In this position, she was responsible for developing and directing the installation of Local Service Networks & Switches as well as management of the Alpha Test Team, which was responsible for certifying the first 25 cities for local service delivery. During the merger of MCI/WorldCom, she was a member of the team that designed an integration strategy for local number portability, providing a solution for MCI's acquisition of the local market.

At Bell Canada, Elizabeth held a number of positions including Tier "C" Manager of local service where she managed a \$150 million budget. As Senior Project Manager of the Energy and Education division Elizabeth controlled a \$10M budget and was key to the installation of the largest Nortel Voice system in North America which included installation of a DMS 100 to support ISDN/PRI applications, Option 81 digital PBXs with voice mail and a joint dialing plan for 10K users. She was also key to designing and installing a fiber network between Bruce and Pickering, the two nuclear stations in Ontario, Canada.

Education

Management and technical courses, Bell Canada, Toronto, Ontario, Canada, 1974-1995
Human resources, George Brown College, Toronto, Ontario, Canada, 1991
Memorial University of Newfoundland, St. John's, Newfoundland, Canada, 1966-1968

Brian Leimbach

Senior Manager, Network Engineering

Summary

With 15 years experience in telecommunications and information technology, Brian Leimbach is uniquely qualified to lead *Progress teleCOM's* Network Engineering Teams. Before assuming his current position, Leimbach served as manager of business development/sales for *Progress teleCOM*. In this position Brian lead a team of Account Executives and Account Managers while reviewing opportunities to diversify and grow Progress teleCOM's business. He also helped combine Florida Power Corporation's IT infrastructure with that of Carolina Power & Light. Earlier, he organized the Florida Power Corporation Enterprise Telecommunications team, including resources, processes and responsibilities, into a wholly owned subsidiary, now known as *Progress teleCOM*.

As *Progress teleCOM's* Network Engineering Manager, Leimbach is responsible for direction of sales, broadband and premise engineering as well as maintenance of the entire engineering budget. Brian has worked for AT&T Network Systems and AT&T Paradyne, Racal Data Group and Florida Power Corporation, performing duties ranging from sales and technical to consulting and management.

As the manager of enterprise telecommunications at Florida Power Corporation, Brian managed seven division teams with various responsibilities including coordination and management of \$5 million per-year-contracts for inter-exchange carriers and local exchange carriers; development of feasibility studies for Florida Power's telecommunication projects; engineering and management of the voice/video functions for Florida Power; design and implementation of Local Area Network systems including a network of more than 80 routers and 4,000 distributed processors in 32 Florida counties; and installation and maintenance of telecom equipment for Florida's Suncoast, Central and Northern regions. While at Florida Power, Brian also managed an O&M Budget of \$4.5 million and a capital budget of \$20 million.

Other career highlights include bringing the industry's first V.34 PCMCIA Modem to market for AT&T Paradyne, managing a multi-functional team of engineers and developing a life cycle for a new industry product. At AT&T Network Systems, Leimbach grew and maintained the revenue base to \$20 million for leading edge SONET telecom products, including digital Loop Carriers and Digital Multiplexers.

Education

M.B.A., Nova Southeastern University, Ft. Lauderdale, FL, 1995

Master's Certificate in Project Management, P.M.I., George Washington University, Washington, D.C., 1995

B.S., Computer Science, Stockton State College, Pomona, NJ, 1985

Jackie D. Hall

Senior Manager of Carrier Relations

Summary

Jackie D. Hall's business philosophy – "There is nothing I can't do or figure out; there are no road blocks that can't be removed" – has helped her obtain her career goals. Named International Woman of the Year for 1992-93 by the International Biographical Institute, she has extensive experience in the imaging and telecommunications industries. Currently, Jackie is senior manager of carrier relations at *Progress teleCOM*, a preferred provider of telecom services throughout Southeast.

Prior to joining *Progress teleCOM*, Jackie was a contract manager at MCI where she implemented a new concept of partnering telecommunication providers with power companies. She managed all internal and vendor build-outs of regional fiber network projects, ultimately saving MCI more than \$37.2 million. In addition, she created a multi-million dollar, enterprise-wide business plan for MCI to build the Texas Medical Center's own fiber network, located in Houston, Texas.

With by-line feature articles in *Integrated Image* magazine and the *International Journal of Micrographics & Optical Technology*, she also has an extensive background in the imaging industry. Jackie managed the Imaging Litigation Support Center at Bickel & Brewer Law Firm, recruiting and training 100 staff members within 30 days to use new electronic imaging technology. Another career highlight includes being named one of The World's Who's Who of Women "2000 Notable American Women" in 1992-93.

Within seven months at *Progress teleCOM*, Jackie was responsible for generating in excess of \$30 million over a five-year period. Because of her relationships with key players in the telecommunications industry and her knowledge of the network in the Southeast, Jackie has been able to connect major network players throughout Florida to Atlanta – saving the national carriers millions in access charges.

George N. Townsend, III

Senior Manager Sales

Summary

With more than eight years in the telecommunications industry, George N. Townsend is senior manager of sales for Progress teleCOM, a preferred provider of telecommunications services throughout Florida. His extensive cost and sales management experience helped him quickly rise through the ranks of Florida Power Corporation, sister company to Progress teleCOM.

Prior to joining Progress teleCOM, George was business development manager at Florida Power Corporation where he was responsible for managing property rights processes and developing business opportunities within the telecommunications industry. As supervisor of cost and scheduling, he managed the \$500 million Project Cost & Scheduling System, while keeping control practices consistent with corporate policies and directives. In addition, George was a treasury analyst at Florida Power where he analyzed the treasury department's budgets and quarterly budget variance reports. As a cash analyst for the treasury department, he planned and implemented the company's short-term cash management strategy, including borrowing and investment portfolio management.

Career highlights include successfully negotiating a Master Tower and Land Lease Agreement with several large telecommunications companies, which generated a net new income of more than \$1,000,000 from wireless companies that won A/B licenses at the FCC auction. George also successfully negotiated a \$2 million dollar agreement with Florida Gas Transmission company, to collocate a natural gas transmission pipeline in FPC right-of-way in north & central Florida. In addition he negotiated a \$400,000 agreement with Central Florida Pipeline Co., a subsidiary of GATX, to collocate a petroleum pipeline from the Port of Tampa to Orlando International Airport.

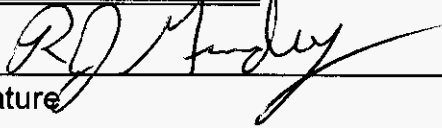

At Progress teleCOM, George is responsible for managing the sales process for broadband capacity transport and wireless attachments as well as developing sales strategies and budgets.

George's Education includes a B.A. in Business Management, University of South Florida, 1981
