I agree. The traffic information in this docket would not longer be accurate and would also not likely be considered confidential, not to mention that staff likely no longer has any use for it. Sally, what do you think? Does staff need it anymore? I think it's been closed long enough. It is way past the appeals stage.

Yes, it was. Never got a definitive answer, so I have to go through the cycle again. I really think we can return the material, considering the length of time the docket has been closed.

Wasn't this one of the Dockets you'd asked Ann Shelfer about a long time ago. For some reason, I thought we'd already resolved this. It just seems too familiar. Frankly, I think that my files have been archived, since the docket was closed so long ago. I can try to check, but otherwise, I guess I'd need someone to send me the requests for confidential treatment so they could be addressed.

FPSC-RECORDS/REPORTING

Subject: 931090 - resolution by Nassau County Commission for countywide calling in Nassau County

Beth, this was your docket, though you weren't on the case when it went to hearing. There are 3 documents without a ruling:

02904-96, 07308-96, and 08081-96

It appears they were made a part of the record, based on the transcript, and would need a ruling.

Can you look into this?

Kay
