RE: REQUEST BY LITTLE SUMTER UTILITY COMPANY TO RELEASE FUNDS FROM ESCROW ACCOUNT

By Order No. PSC-96-1132-FOF-WS, issued in Docket 960305-WS on September 10, 1996, the Commission directed Little Sumter Utility Company to establish an escrow account that can only be used to fund conservation programs approved by the Southwest Florida Water Management District. The order required that a request to release funds from the escrow account be accompanied by an explanation of the specific use of the funds and documentation that the funds will be used to further a conservation program approved by the water management district.

On March 30, 2000, the utility filed the attached Request to Release Funds from Escrow. According to the Request, the utility expended \$227.43 on a newspaper advertising program targeted at reducing water consumption. Along with this Request, the utility provided copies of the newspaper advertisements, invoices and Proof of Publication from The Daily Sun Newspaper. These advertisements have been approved by the Southwest Florida Water Management District. The attachments are being retained in the Division of Water and Wastewater for our future reference.

Accordingly, the utility's request to release funds from the escrow account should be authorized. Pursuant to the escrow account, the bank will disburse funds to the utility upon written instructions of the Commission through the Director of the Division of Records and Reporting. Staff therefore requests that you provide written instructions to Citizens First Bank to release \$227.43 from the escrow account to Little Sumter Utility Company.

HELP PROTECT OUR WATER RESOURCES

Your lawn will need less fertilizer (and will be healthier) if you mow frequently and leave the nutrient-rich grass clippings on the lawn. If you must collect the clippings, save them to use as mulch around shrubs and flowers. Never throw grass clippings into ditches, canals, lakes or storm drains.
