Docket No. 981444-TP

Filed: May 18, 2000

**ALLEGIANCE TELECOM OF FLORIDA, INC.'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

Allegiance Telecom of Florida, Inc. ("Allegiance"), by and through its undersigned counsel, and pursuant to Rule 25-22.006, Florida Administrative Code, files this Request for Confidential Classification within twenty-one days of filing its Notice of Intent to Request Confidential Classification, and states:

1. Allegiance requests that the document attached hereto as Attachment "A" be classified as "proprietary confidential business information" within the meaning of Section 364.183, Florida Statutes (1997). Attachment "A" is an edited version of the document on which the information asserted to be confidential has been blocked out by the use of an opaque marker. An unedited version of the information contained in Attachment "A" was submitted to the Division of Records and Reporting on April 28, 2000, together with Allegiance's Notice of Intent to Request Confidential Classification for this document and is provided herewith under a separate cover marked "confidential" with the information asserted to be confidential highlighted in yellow.

2. The attached document contains existing and projected NXX Code utilization information for Allegiance's operations in Florida, including, for each NXX code, data reflecting: the number of 1,000 block-demand per month from May, 2000 through October, 2001; the number of available 1,000 blocks with less than 10% contamination, the number of aging numbers, number of telephone numbers available for reassignment, number of reserved telephone numbers, and

FPSD-RECORDS/REPORTING

number of assigned and active telephone numbers for each 1,000 block. Allegiance's current and projected utilization of NXX codes is "proprietary confidential business information" as contemplated by Section 364.183(3)(e), Florida Statutes (1999), because such information is intended to be and is treated by Allegiance as highly sensitive, private and confidential information and the public disclosure of such information would cause harm to Allegiance's competitive interests and business operations by enabling Allegiance's competitors to analyze such information and gain knowledge concerning Allegiance's market share and marketing strategy.

3. Allegiance has treated and intends to continue to treat the information for which confidential classification is sought as private, and this information has not been publicly disclosed or released.

WHEREFORE, based on the foregoing, Allegiance respectfully requests that the Commission grant this request for confidential classification by determining that the information described above and filed herewith is proprietary confidential business information, exempt from disclosure under the public records laws of the State of Florida, and protected from disclosure while it is maintained at the Commission.

Respectfully submitted,

KENNETH A. HOFFMAN, ESQ.
JOHN R. ELLIS, ESQ.

Room 270G
Tallahassee, FL 32399-0850

By: 
KENNETH A. HOFFMAN, ESQ.

For the purposes of data collection, the definitions used in the spreadsheets are:	
NPA	Number Plan Area (i.e. area code)
NXX	Prefix (i.e., the first three digits of a telephone number)
Contamination	Any block in which end user customers have been assigned telephone numbers
Number of Blocks With Less Than 10% Contamination	<p>Example: In an NXX, there are 10,000 telephone numbers. If your company has assigned 1500 telephone numbers, then the ratio of 1500 to 10000 (=0.15) is the contamination rate. Multiplying this number by 100 yields the percent contamination, which in this case is 15%.</p> <p>This calculation would be repeated for every NXX within the same NPA.</p> <p>Similarly, in a 1,000-block with 50 customers, the contamination is 50/1000 = 0.05, or 5%.</p> <p>Count the numbers of blocks where the contamination is less than 10%.</p>
Disconnected Numbers	Telephone numbers which are available for reassignment
Reserved Numbers	Any telephone number reserved for special purposes (vanity numbers, test numbers, service numbers)
Reserved Blocks	Any 1,000-block that has been set aside by the Pricing Administrator for some specific future use or purpose
Average Growth	Average number of new NXXs or 1,000 blocks assigned per month
