Re: Bell South Telecommunications, Inc.
Petition For Waiver of Rule 25-4, 107,25.108
and 25-4.113, Florida Administrative Code
In response to P.S.C. Ruling on April 18, 2000

OBJECTION TO BELL SOUTH PETITION

I hereby file this opposition to the bell south petition waiver in that it affects me personally and any properties that I own for the following reasons:

ONE

Bell South is not being truthful in any respects, also taking things way out of proportion. They have misrepresented all the facts and have not acted in good faith.

TWO

I have not had a full opportunity to defend my position on this matter, because I did not receive a copy of the petition from Bell South, or anyone else, until getting a faxed copy a day before the hearing, which does not give any opportunity to defend my self against it. Bell South has again acted in bad faith in this respects by trying to keep me in the blind.

THREE

This waiver would be unconstitutional as it would affects tenants of properties where I do not reside, and infringe on their rights,

This petition violates the fourteenth amendment of denial of rights without due process.

SIX

This petition also violates civil rights on the basis that Bell South has the right to deny service on the basis of a person exercising their right of due process, and being penalized for such.

I HEREBY REQUEST A FORMAL HEARING.
