Re: Petition of Sprint-Florida, Incorporated  
for Approval of Interconnection with AT&T Wireless  
Services, Inc.

Dear Ms. Bayo:

Enclosed for filing is the original and five (5) copies of  
Sprint-Florida, Inc.'s Petition for approval of an  
Interconnection Agreement with AT&T Wireless Services, Inc.

Please acknowledge receipt and filing of the above by  
stamping the duplicate copy of this letter and returning the  
same to this writer.

Thank you for your assistance in this matter.

Sincerely,

Susan S. Masterton

FPSC-RECORDS/REPORTING

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition for Approval ) Filed: June 9, 2000  
of Interconnection Agreement )  
Between Sprint-Florida, Inc. and )  
AT&T Wireless Services, Inc. ) Docket No.  
\_\_\_\_\_ )

PETITION OF SPRINT-FLORIDA, INCORPORATED  
FOR APPROVAL OF INTERCONNECTION AGREEMENT  
WITH AT&T WIRELESS SERVICES, INC.

Sprint-Florida, Incorporated (Sprint-Florida) files this Petition with the Florida Public Service Commission seeking approval of an Interconnection Agreement which Sprint-Florida has entered with AT&T Wireless Services, Inc. In support of this Petition, Sprint-Florida states:

1. Florida Telecommunications law, Chapter 364, Florida Statutes as amended, requires local exchange carriers such as Sprint-Florida to negotiate "mutually acceptable prices, terms and conditions of interconnection and for the resale of services and facilities" with alternative local exchange carriers. Section 364.162, Florida Statutes (1996).

2. The United States Congress has also recently enacted legislation amending the Communications Act of 1934. This legislation, referred to as the Telecommunications Act of 1996, requires that any such "agreement adopted by negotiation or arbitration shall be submitted for approval to the State commission" 47 U.S.C. §252(e).

DOCUMENT NUMBER-DATE

07101 JUN-98

FPSC-RECORDS/REPORTING

3. In accordance with the above provisions, Sprint-Florida has entered an Agreement with AT&T Wireless Services, Inc., which is a CMRS carrier as that term is defined in 47 C.F.R. 20.3. This Agreement was executed on May 16, 2000 and is attached hereto as Attachment A.

4. Under the Federal Act, an agreement can be rejected by the State commission only if the commission finds that the agreement or any portion thereof discriminates against a telecommunications carrier not a party to the agreement or if the implementation of that agreement is not consistent with the public interest, convenience and necessity. 47 U.S.C. §252(e)(2).

5. The Agreement with AT&T Wireless Services, Inc. does not discriminate against other similarly situated carriers which may order services and facilities from Sprint-Florida under similar terms and conditions. The Agreement is also consistent with the public interest, convenience and necessity. As such, Sprint-Florida seeks approval of the Agreement from the Florida Public Service Commission as required by the Federal statutory provisions noted above.

Wherefore, Sprint-Florida, Incorporated respectfully requests that the Florida Public Service Commission approve the Interconnection Agreement between Sprint-Florida and AT&T Wireless Services, Inc.

Respectfully submitted this 9th day of June, 2000.

Sprint-Florida, Incorporated

A handwritten signature in black ink, appearing to read "Susan S. Masterton". The signature is written in a cursive style and is positioned above a horizontal line.

## INTERCONNECTION AGREEMENT

This Interconnection Agreement (the "Agreement"), is entered into by and between AT&T Wireless Services, Inc. ("AWS"), a Delaware corporation, on behalf of its wireless operating Affiliates and Switch Share Partners and Sprint- Florida, Incorporated ("Sprint"), a Florida corporation, hereinafter collectively, "the Parties," and individually as a "Party," entered into and effective this 1st day of May, 2000 ("Effective Date"), for an eighteen (18) month term ending October 31, 2001 ("End Date").

**WHEREAS**, the Parties wish to interconnect their networks for the transmission and termination of Local Traffic (as defined herein) between Sprint and AWS; and

**WHEREAS**, the Parties intend the rates, terms and conditions of this Agreement, and their performance of obligations thereunder, to comply with the Communications Act of 1934, as amended (the "Act"), the Rules and Regulations of the Federal Communications Commission ("FCC"), and the orders, rules and regulations of the Florida Public Service Commission (the "Commission"); and

**WHEREAS**, the Parties wish to replace any and all other prior interconnection agreements, both written and oral, applicable to the state of Florida;

Now, therefore, in consideration of the terms and conditions contained herein, AWS and Sprint hereby mutually agree as follows:

### PART A – DEFINITIONS

#### 1. DEFINED TERMS

- 1.1. Certain terms used in this Agreement shall have the meanings as otherwise defined throughout this Agreement. Other terms used but not defined herein will have the meanings ascribed to them in the Act or in the Rules and Regulations of the FCC or the Commission. The Parties acknowledge that other terms appear in this Agreement which are not defined or ascribed as stated above. The Parties agree that any such terms shall be construed in accordance with their customary usage in the Telecommunications industry as of the Effective Date of this Agreement.
- 1.2. "Act" means the Communications Act of 1934, as amended.
- 1.3. "Affiliate" is as defined in the Act.
- 1.4. "Ancillary Traffic" means all traffic destined for ancillary services, or that may have special billing requirements, including, but not limited to the following:
  - 1.4.1. Directory Assistance;

- 1.4.2. 911;
- 1.4.3. Operator call termination (busy line interrupt and verify “BLV/BLVI”); and
- 1.4.4. Information services requiring special billing (e.g., 900 and 950).
- 1.5. “Business Day(s)” means the days of the week excluding Saturdays, Sundays, and all official legal holidays.
- 1.6. “Central Office Switches” (“COs”) are switching facilities within the public switched Telecommunications network, including, but not limited to:
  - 1.6.1. “End Office Switch(es)” (“EOs”) are switches from which end-user telephone exchange services are directly connected and offered.
  - 1.6.2. “Tandem Switch(es)” are switches which are used to connect and switch trunk circuits between and among Central Office Switches.
  - 1.6.3. “Mobile Switching Centers” (“MSCs”) are switching facilities in the CMRS network which perform the switching function for the routing of calls among its CMRS subscribers and subscribers in other CMRS or landline networks. The MSC also coordinates intercell and intersystem call hand-offs and records all system traffic for analysis and billing.
  - 1.6.4. “Remote Switch(es)” are switches in networks that are located away from their host or control office. All or most of the central control equipment for the Remote Switch is located at the host or control office.
- 1.7. “Collocation” is as defined by the FCC.
- 1.8. “Commercial Mobile Radio Services” (“CMRS”) is as set forth in 47 C.F.R. Section 20.3.
- 1.9. “Common Transport” means a local interoffice transmission path between the Sprint Tandem Switch and a Sprint End Office Switch or between a Sprint End Office Switch and a Sprint Remote Switch. Common transport is shared between multiple customers.
- 1.10. “Competitive Local Exchange Carrier ” (“CLEC”) or “Alternative Local Exchange Carrier” (“ALEC”)” means any entity or person authorized to provide local exchange services in competition with an ILEC.
- 1.11. “Dedicated Transport” provides a local interoffice transmission path between Sprint’s Central Office and AWS’s Central Office. Dedicated transport is limited to the use of a single customer.
- 1.12. “Effective Date” is the date referenced in the opening paragraph on page 1 of the Agreement, unless otherwise required by the Commission.

- 1.13. "End Date" is the date this Agreement terminates as referenced in the opening paragraph.
- 1.14. "Electronic Interfaces" means access to operations support systems consisting of pre-ordering, ordering, provisioning, maintenance and repair and billing functions.
- 1.15. "FCC" means the Federal Communications Commission.
- 1.16. "Incumbent Local Exchange Carrier" ("ILEC") is any local exchange carrier that was, as of February 8, 1996, deemed to be a member of the Exchange Carrier Association as set forth in 47 C.F.R. Section 69.601(b) of the FCC's regulations.
- 1.17. "Indirect Traffic" means traffic which is originated by one Party and terminated to the other Party in which a third-party Telecommunications Carrier provides the intermediary transiting service. Indirect Traffic does not require a physical direct trunk group between the Parties.
- 1.18. "Interconnection" means the connection of separate pieces of equipment, transmission facilities, etc. within, between or among networks for the transmission and routing of exchange service and exchange access. The architecture of interconnection may include collocation and/or mid-span meet arrangements.
- 1.19. "Interexchange Carrier" ("IXC") means a provider of interexchange Telecommunications Services.
- 1.20. "InterMTA Traffic." For purposes of reciprocal compensation under this Agreement, InterMTA Traffic means Telecommunications traffic between Sprint and AWS that, at the beginning of the call, originates in one Major Trading Area but terminates in a different Major Trading Area.
- 1.21. "IntraLATA Toll Traffic" means Telecommunications traffic as defined in accordance with Sprint's then-current intraLATA toll serving areas to the extent that said traffic originates and terminates within the same LATA.
- 1.22. "Local Traffic" means, for purposes of reciprocal compensation under this Agreement, Telecommunications traffic between Sprint and AWS that, at the beginning of the call, originates and terminates within the same MTA, as defined in 47 C.F.R. 24.202. This shall not affect Sprint's landline calling scope or other interexchange arrangements which shall be determined in accordance with Commission-approved local calling areas.
- 1.23. "Major Trading Area" ("MTA") refers to the largest FCC-authorized wireless license territory which serves as the definition for local service area for CMRS traffic for purposes of reciprocal compensation under Section 251(b)(5) as defined in 47 C.F.R. 24.202(a).
- 1.24. "North American Numbering Plan" ("NANP") means the plan for the allocation of unique ten-digit directory numbers consisting of a three-digit area code, a three-digit

office code, and a four-digit line number. The plan also extends to format variations, prefixes, and special code applications.

- 1.25. "Numbering Plan Area" ("NPA" – sometimes referred to as an area code) means the three-digit indicator which is designated by the first three digits of each ten-digit telephone number within the NANP. Each NPA contains 800 possible NXX Codes. There are two general categories of NPA, "Geographic NPAs" and "Non-Geographic NPAs." A "Geographic NPA" is associated with a defined geographic area, and all telephone numbers bearing such NPA are associated with services provided within that Geographic area. A "Non-Geographic NPA," also known as a "Service Access Code (SAC Code)" is typically associated with a specialized Telecommunications Service which may be provided across multiple geographic NPA areas; 500, 800, 900, 700, and 888 are examples of Non-Geographic NPAs.
- 1.26. "NXX," "NXX Code," "Central Office Code," or "CO Code" is the three-digit switch entity indicator which is defined by the fourth, fifth and sixth digits of a ten-digit telephone number within the NANP.
- 1.27. "Ordering And Billing Forum" ("OBF") refers to functions under the auspices of the Carrier Liaison Committee (CLC) of the Alliance for Telecommunications Industry Solutions (ATIS).
- 1.28. "Parity" means Sprint shall provide services, Network Elements, and functionality on a non-discriminatory basis to AWS as it provides to its Affiliates or any other entity that obtains such services, Network Elements, and functionality.
- 1.29. "Point Of Interconnection" ("POI") is a mutually agreed upon point of demarcation where the networks of Sprint and AWS interconnect for the exchange of traffic that is designated by a CLLI (Common Language Location Identifier) code.
- 1.30 "Rate Center" means a specific geographic point and corresponding geographic area that have been identified by a LEC. NPA-NXX codes that have been assigned to the LEC for its provision of exchange services are associated with specific Rate Centers for the purpose of rating calls.
- 1.31 "Rating Point" means the vertical and horizontal ("V&H") coordinates associated with a particular NPA-NXX for rating purposes. The Rating Point need not be in the same location as the switching entity where a telephone number is homed or routed pursuant to the LERG, nor must it be located within the same Rate Center area, but it must be in the same LATA as to which traffic addressed to the relevant NPA is required by Sprint to be routed pursuant to the LERG.
- 1.32 "Routing Point" means the V&H coordinates that a Telecommunications Carrier has designated as the destination for traffic inbound to services provided by that Telecommunications Carrier that bears a certain NPA-NXX designation. The Routing Point need not be the same as the Rating Point, nor must it be located within the same Rate Center area, but it must be in the same LATA as the NPA-NXX.

- 1.33. "Switch Share Partners" means a licensed two-way CMRS provider that has contracted with AWS to use an AWS MSC for its switching functions.
- 1.34. "Tandem Switching" is as set forth in 47 CFR 51.319 (c) (2).
- 1.35. "Tariff" means a filing made at the state or federal level for the provision of a Telecommunications Service by a Telecommunications Carrier that provides for the terms, conditions and pricing of that service. Such filing may be required by law or voluntary and may or may not be specifically approved by the Commission or FCC.
- 1.36. "Telecommunications" is as defined in the Act.
- 1.37. "Telecommunications Carrier" means any provider of Telecommunications Services as defined in 47 U.S.C., 153, Section 3.
- 1.38. "Telecommunication Services" is as defined in the Act.
- 1.39. "Transit Service" means the delivery of traffic by Sprint or AWS, that originated on one Party's network, transited through the other Party's network, and terminated to a third party Telecommunications Carrier's network.
- 1.40. "Transit Traffic" means traffic that originated on one Party's network, transited through the other Party's network, and terminated to a third party Telecommunications Carrier's network.
- 1.41. "Trunk-Side" refers to a Central Office Switch connection that is capable of, and has been programmed to treat the circuit as, connecting to another switching entity or another Central Office Switch. Trunk-side connections offer those transmission and signaling features appropriate for the connection of switching entities or other distribution points, and cannot be used for the direct connection of ordinary telephone station sets.
- 1.42. "Wire Center" denotes a building or space within a building which serves as an aggregation point on a given carrier's network, where transmission facilities and circuits are connected or switched. Wire center can also denote a building in which one or more Central Offices, used for the provision of basic exchange services and access services, are located.

## **PART B – GENERAL TERMS AND CONDITIONS**

### **1. SCOPE OF THIS AGREEMENT**

- 1.1. This Agreement specifies the rights and obligations of each Party with respect to the establishment of rates, terms and conditions for Interconnection with the other's local network under Sections 251 and 252 of the Act ("Interconnection Services"). The Interconnection Services set forth herein address the exchange of traffic between AWS and Sprint. If such traffic is Local Traffic, the provisions of this Agreement shall apply. The Interconnection Services covered by this CMRS Interconnection Agreement are for CMRS carriers only in association with CMRS services. CMRS Interconnection hereunder is intended for CMRS to wireline or wireline to CMRS, but not wireline to wireline communications. Such CMRS Interconnection will not be used to terminate other types of traffic exchanged on the network under the terms and conditions of this Agreement.
- 1.2. Other interconnections are covered by separate contract, tariff or price lists. AWS may also take such other services not covered by this Agreement as the Parties may agree either pursuant to applicable state tariffs or separate agreement ("Non-Interconnection Services"). The rates, terms and conditions for such Non-Interconnection Services shall be as designated in the applicable tariff or separate agreement. Any Ancillary Services (e.g., directory assistance, operator services, etc.) will be billed at the standard rates for those services.
- 1.3. Sprint shall not discontinue any Interconnection arrangement or Telecommunications Service provided or required hereunder without providing AWS reasonable notice, but in no case less than thirty (30) days' prior written notice or as otherwise required by law, of such discontinuation of such service or arrangement. Sprint agrees to cooperate with AWS in any transition resulting from such discontinuation of service and to minimize the impact to customers which may result from such discontinuance of service.
- 1.4. Sprint will comply with Sections 51.325 through 51.335 of Title 47 of the Code of Federal Regulations as may be amended from time to time, regarding notification for network changes and upgrades.
- 1.5. The services and facilities to be provided to AWS by Sprint in satisfaction of this Agreement may be provided pursuant to Sprint Tariffs and then current practices on file with the appropriate Commission or FCC but only to the extent that specific terms and conditions governing such services or facilities are not described in the Agreement.

## **2. REGULATORY APPROVALS**

- 2.1. This Agreement, and any amendment or modification hereof, will be submitted to the Commission for approval in accordance with Section 252 of the Act. Sprint and AWS shall use their best efforts to obtain approval of this Agreement by any regulatory body having jurisdiction over this Agreement and to make any required tariff modifications. In the event any governmental authority or agency rejects any provision hereof, the Parties shall negotiate promptly and in good faith such revisions as may reasonably be required to achieve approval.
- 2.2. The Parties acknowledge that the respective rights and obligations of each Party as set forth in this Agreement are based on the text of the Act and the rules and regulations promulgated thereunder by the FCC and the Commission as of the Effective Date ("Applicable Rules"). In the event of any amendment to the Act, any effective legislative action or any effective regulatory or judicial order, rule, regulation, arbitration award or other legal action purporting to apply the provisions of the Act which revises, modifies or reverses the Applicable Rules (individually and collectively, "Amended Rules"), either Party may, by providing written notice to the other Party, require that the affected provisions of this Agreement be renegotiated in good faith within sixty (60) days and this Agreement shall be amended accordingly to reflect the pricing, terms and conditions of each such Amended Rules relating to any of the provisions in this Agreement.
- 2.3. Section 2.2 shall control notwithstanding any other provision of this Agreement to the contrary. Any rates, terms or conditions thus developed or modified shall be substituted in place of those previously in effect and shall be deemed to have been effective under this Agreement as of the effective date established by the Amended Rules. Should the Parties be unable to reach agreement with respect to the applicability of such order or the resulting appropriate modifications to this Agreement within sixty (60) days, either Party may present any such issues to the Commission or the FCC to establish appropriate Interconnection arrangements under the Act in light of the Amended Rules, it being the intent of the Parties that this Agreement shall be brought into conformity with the then current obligations under the Act as determined by the Amended Rules.
- 2.4. Additional services, beyond those specified herein, requested by either Party relating to the subject matter of this Agreement will be incorporated into this Agreement by written amendment hereto.

## **3. TERM AND TERMINATION**

- 3.1. This Agreement shall be deemed effective upon the Effective Date, provided however that if either Party has any outstanding undisputed past due obligations, this Agreement will not be effective until such time as any past due obligations either Party are paid in full. No order or request for services under this Agreement shall be processed before the Effective Date.

- 3.2. For any Interconnection arrangements covered by this Agreement that may already be in place, the Parties agree that, upon the Effective Date, the rates contained in Attachment I shall be applied to those arrangements. To the extent that Sprint is not able to bill the new rates for the pre-existing Interconnection arrangements on the Effective Date, the Parties agree that, once billing is possible, the rate will be applied to the pre-existing Interconnection arrangements retroactively to the Effective Date. The Parties agree that interim billing processes, as defined in subsequent sections of this Agreement, will be implemented as needed.
- 3.3. Except as provided herein, Sprint and AWS agree to provide service to each other on the terms of this Agreement for a period ending on the End Date.
- 3.4. In the event of default, either Party may terminate this Agreement in whole or in part provided that the non-defaulting Party so advises the defaulting Party in writing of the event of the alleged default and the defaulting Party does not remedy the alleged default within sixty (60) days after written notice thereof. Default is defined to include:
  - 3.4.1. Either Party's insolvency or initiation of bankruptcy or receivership proceedings by or against the Party; or
  - 3.4.2. Either Party's material breach of any of the terms or conditions hereof, including the failure to make any material undisputed payment when due.
- 3.5. Termination of this Agreement for any cause shall not release either Party from any liability which at the time of termination has already accrued to the other Party or which thereafter may accrue in respect to any act or omission prior to termination or from any obligation which is expressly stated herein to survive termination.
- 3.6. Notwithstanding the above, should Sprint sell or trade substantially all the assets in an exchange or group of exchanges that Sprint uses to provide Telecommunications Services, then Sprint may terminate this Agreement in whole or in part as to that particular exchange or group of exchanges upon sixty (60) days prior written notice.

#### **4. POST EXPIRATION INTERIM SERVICE ARRANGEMENTS**

- 4.1 If this Agreement expires for any reason other than termination for cause or upon sale under Section 3.6, it is the intent of Parties to continue the arrangements between the Parties that are the subject matter of this Agreement in order to avoid disruption of services to their respective end users. Therefore, except in the event of termination for cause under Section 3.4 or termination upon sale under Section 3.6, the arrangements between the Parties will continue to be governed by the same terms and conditions contained in this Agreement subject to the following terms:
  - 4.1.1 No later than one hundred and sixty (160) days prior to the End Date, either Party gives notice to the other Party to initiate negotiations, and

negotiations, mediation, arbitration or review and approval of an agreement by a state commission based on such notice continue;

- 4.1.2 Such negotiations, mediation, arbitration or review and approval have not been under way for more than twelve (12) months;
- 4.1.3 A Party gives at least forty-five (45) days notice of its intent to terminate the Agreement under this Section.

The following timeline is provided to illustrate significant milestones for contract expiration and the negotiation process.

<u>Date</u>	<u>Milestone</u>
5/1/00	Effective Date
5/24/01	160 days prior to End Date
10/31/01	End Date
5/23/02	12 months after 5/24/01 (160 days prior to End Date)

- 4.2 Prior to expiration of this Agreement as provided in Section 3.3 or 4.1, AWS may request uninterrupted service under the terms of:
  - 4.2.1 Any standard terms or conditions or tariffs approved by a Commission;
  - 4.2.2 An existing agreement between Sprint and another carrier.
- 4.3 Upon expiration of this Agreement as provided in Sections 3.3 or 4.1, AWS may request uninterrupted service under the terms of an existing agreement between Sprint and another carrier. Nothing contained in this Section 4 shall alter AWS's rights under 47 U.S.C., Section 252(i).
- 4.4 At any time, the Parties may substitute a new agreement voluntarily entered into by the Parties.

## **5. AUDITS AND EXAMINATIONS**

- 5.1. As used herein "Audit" shall mean a comprehensive review of services performed under this Agreement. Either Party (the "Requesting Party") may perform one (1) Audit per twelve (12) month period commencing with the Effective Date.
- 5.2. Upon thirty (30) days written notice by the Requesting Party to the other "Audited Party," Requesting Party shall have the right through its authorized representative to make an Audit, during normal business hours, of any records, accounts and processes which contain information bearing upon the provision of the services provided and performance standards agreed to under this Agreement. Within the above-described thirty (30) day period, the Parties shall reasonably agree upon the

scope of the Audit, the documents and processes to be reviewed, and the time, place and manner in which the Audit shall be performed. Audited Party agrees to provide Audit support, including appropriate access to and use of Audited Party's facilities (e.g., conference rooms, telephones, copying machines).

- 5.3. Each Party, whether or not in connection with an on-site verification review, shall maintain reasonable records for a minimum of twelve (12) months and provide the other Party with reasonable access to such information as is necessary to determine amounts receivable or payable under this Agreement.
- 5.4. The Parties' right to access information for verification review purposes is limited to data not in excess of twelve (12) months in age. Once specific data has been reviewed and verified, it is unavailable for future reviews; provided however that any items not reconciled at the end of a review will be subject to follow-up review effort; provided further that any retroactive adjustments required subsequent to previously reviewed and verified data will also be subject to follow-up review. Information of either Party involved with a verification review shall be subject to confidentiality provisions of this Agreement.
- 5.5. Each Party shall bear its own expenses in connection with the conduct of the Audit. The reasonable cost of special data extraction required by the Requesting Party to conduct the Audit will be paid for by the Requesting Party. For purposes of this Section 5.3, a "special data extraction" shall mean the creation of an output record or informational report (from existing data files) that is not created in the normal course of business. If any program is developed to Requesting Party's specifications and at Requesting Party's expense, Requesting Party shall specify at the time of request whether the program is to be retained by Audited Party for reuse for any subsequent Audit.
- 5.6. Adjustments, credits or payments shall be made and any corrective action shall commence within thirty (30) days from Requesting Party's receipt of the final audit report to compensate for any errors or omissions which are disclosed by such Audit and are agreed to by the Parties. One and one-half percent (1.5%) or the highest interest rate allowable by law for commercial transactions, whichever is lower, shall be assessed and shall be computed by compounding monthly from the time of the error or omission to the day of payment or credit.
- 5.7. This Section 5 shall survive expiration or termination of this Agreement for a period of two (2) years after expiration or termination of this Agreement.

## **6. INTELLECTUAL PROPERTY RIGHTS**

- 6.1. Any intellectual property which originates from or is developed by a Party shall remain in the exclusive ownership of that Party. Except for a limited license to use patents or copyrights to the extent necessary for the Parties to use any facilities or equipment (including software) or to receive any service solely as provided under this Agreement, no license in patent, copyright, trademark or trade secret, or other

proprietary or intellectual property right now or hereafter owned, controlled or licensable by a Party, is granted to the other Party or shall be implied or arise by estoppel. It is the responsibility of Sprint to ensure, at no separate or additional cost to AWS, that it has obtained any necessary licenses in relation to intellectual property of third parties used in Sprint's network to the extent of Sprint's own use of facilities or equipment (including software) in the provision of service to its end-user customers, but not that may be required to enable AWS to use any facilities or equipment (including software), to receive any service, to perform its respective obligations under this Agreement, or to provide service by AWS to its end-user customers.

- 6.2. Following notice of an infringement claim against Sprint based on the use by AWS of a service or facility, and following adjudication of the claim against Sprint, AWS shall at AWS's expense, procure from the appropriate third parties the right to continue to use the alleged infringing intellectual property or if AWS fails to do so, Sprint may charge AWS for such costs as permitted under a Commission order.

## **7. LIMITATION OF LIABILITY**

- 7.1. Neither Party shall be responsible to the other or to customers of the other for any indirect, special, consequential or punitive damages, including (without limitation) damages for loss of anticipated profits or revenue or other economic loss in connection with or arising from anything said, omitted, or done hereunder (collectively "Consequential Damages"), whether arising in contract or tort, provided that the foregoing shall not limit a Party's obligation under Section 8 to indemnify, defend, and hold the other Party harmless against amounts payable to third parties. Notwithstanding the foregoing, in no event shall either Party's liability to the other for a service outage exceed an amount equal to the proportionate charge for the service(s) provided for the period during which the service was affected.

## **8. INDEMNIFICATION**

- 8.1. Each Party agrees to defend indemnify and hold harmless the other Party from and against claims by third parties for damage to tangible personal or real property and/or personal injuries to the extent caused by the negligence or willful misconduct or omission of the indemnifying Party.
- 8.2. AWS shall defend, indemnify and hold harmless Sprint from all claims by AWS's subscribers.
- 8.3. Sprint shall defend, indemnify and hold harmless AWS from all claims by Sprint's subscribers.
- 8.4. The indemnifying Party under this Section agrees to defend any suit brought against the other Party either individually or jointly with the indemnified Party for any such loss, injury, liability, claim or demand.

- 8.5. The indemnified Party agrees to notify the other Party promptly, in writing, of any written claims, lawsuits, or demands for which it is claimed that the indemnifying Party is responsible under this Section and to cooperate in every reasonable way to facilitate defense or settlement of claims.
- 8.6. The indemnifying Party shall have complete control over defense of the case and over the terms of any proposed settlement or compromise thereof. The indemnifying Party shall not be liable under this Section for settlement by the indemnified Party of any claim, lawsuit, or demand, if the indemnifying Party has not approved the settlement in advance, unless the indemnifying Party has had the defense of the claim, lawsuit, or demand tendered to it in writing and has failed to promptly assume such defense. In the event of such failure to assume defense, the indemnifying Party shall be liable for any reasonable settlement made by the indemnified Party without approval of the indemnifying Party.
- 8.7. When the facilities or services of other companies or carriers are used in establishing connections to and/or from points not reached by a Party's facilities, neither Party shall be liable for any act or omission of the other companies or carriers.
- 8.8. In addition to its indemnity obligations hereunder, each Party shall, to the extent allowed by law or Commission Order, provide, in its tariffs and contracts with its subscribers that relate to any Telecommunications Services provided or contemplated under this Agreement, that in no case shall such Party's agents, contractors or others retained by such Party be liable to any subscriber or third party for (i) any loss relating to or arising out of this Agreement, whether in contract or tort, that exceeds the amount such Party would have charged the applicable subscriber for the service(s) or function(s) that gave rise to such loss, and (ii) Consequential Damages (as defined in Section 7.1 above).

## **9. CONFIDENTIALITY AND PUBLICITY**

- 9.1. All information which is disclosed by one Party ("Disclosing Party") to the other ("Recipient") in connection with this Agreement, or acquired in the course of performance of this Agreement, shall be deemed confidential and proprietary to the Disclosing Party and subject to this Agreement, such information including but not limited to, orders for services, forecasts, usage information in any form, and Customer Proprietary Network Information ("CPNI") as that term is defined by the Act and the rules and regulations of the FCC or carrier information as defined in 47 U.S.C., Section 222 ("Confidential and/or Proprietary Information").
- 9.2. For a period of three (3) years from receipt of Confidential Information, Recipient shall (1) use it only for the purpose of performing under this Agreement, (2) hold it in confidence and disclose it only to employees or agents who have a need to know it in order to perform under this Agreement, and (3) safeguard it from unauthorized use or disclosure using no less than the degree of care with which Recipient safeguards

its own Confidential Information. No individual who is employed in Recipient's marketing department may have access to Confidential Information.

- 9.3. Recipient shall have no obligation to safeguard Confidential Information (1) which was in the Recipient's possession free of restriction prior to its receipt from Disclosing Party, (2) which becomes publicly known or available through no breach of this Agreement by Recipient, (3) which is rightfully acquired by Recipient free of restrictions on its disclosure, or (4) which is independently developed by personnel of Recipient to whom the Disclosing Party's Confidential Information had not been previously disclosed. Recipient may disclose Confidential Information if required by law, a court, or governmental agency, provided that Disclosing Party has been notified of the requirement promptly after Recipient becomes aware of the requirement, and provided that Recipient undertakes all lawful measures to avoid disclosing such information until Disclosing Party has had reasonable time to obtain a protective order. Recipient agrees to comply with any protective order that covers the Confidential Information to be disclosed.
- 9.4. Unless otherwise agreed in writing, neither Party shall publish or use the other Party's logo, trademark, service mark, name, language, pictures, or symbols or words from which the other Party's name may reasonably be inferred or implied in any product, service, advertisement, promotion, or any other publicity matter, except that nothing in this paragraph shall prohibit a Party from engaging in valid comparative advertising. This Section 9.4 shall confer no rights on a Party to the service marks, trademarks and trade names owned or used in connection with services by the other Party or its Affiliates, except as expressly permitted in writing by the other Party.
- 9.5. Neither Party shall produce, publish, or distribute any press release or other publicity referring to the other Party or its Affiliates, or referring to this Agreement, without the prior written approval of the other Party. Each Party shall obtain the other Party's prior approval before discussing this Agreement in any press or media interviews. In no event shall either Party mischaracterize the contents of this Agreement in any public statement or in any representation to a governmental entity or member thereof.
- 9.6. Except as otherwise expressly provided in this Section 9, nothing herein shall be construed as limiting the rights of either Party with respect to its customer information under any applicable law, including without limitation Section 222 of the Act.

## **10. WARRANTIES**

- 10.1. Except as specifically provided elsewhere in this Agreement to the contrary, neither Party makes any representations or warranties, express or implied, with respect to quality, functionality or characteristics of the services provided pursuant to this Agreement, including, but not limited to, implied warranties of merchantability

and/or fitness for a particular purpose. No representation or statement made by either Party or any of its agents or employees, oral or written, including, but not limited to, any specifications, descriptions or statements provided or made shall be binding upon either Party as a warranty.

## **11. ASSIGNMENT AND SUBCONTRACT**

- 11.1. If any Affiliate of either Party succeeds to that portion of the business of such Party that is responsible for, or entitled to, any rights, obligations, duties, or other interests under this Agreement, such Affiliate may succeed to those rights, obligations, duties, and interest of such Party under this Agreement. In the event of any such succession hereunder, the successor shall expressly undertake in writing to the other Party the performance and liability for those obligations and duties as to which it is succeeding a Party to this Agreement. Thereafter, the successor Party shall be deemed AWS or Sprint.
- 11.2. Except as herein before provided, and except for an assignment confined solely to moneys due or to become due, any assignment of this Agreement or of the work to be performed, in whole or in part, or of any other interest of a Party hereunder, except to an Affiliate, without the other Party's written consent, which consent shall not be unreasonably withheld or delayed, shall be void. It is expressly agreed that any assignment of moneys shall be void to the extent that it attempts to impose additional obligations other than the payment of such moneys on the other Party or the assignee additional to the payment of such moneys.

## **12. GOVERNING LAW**

- 12.1. This Agreement shall be governed by and construed in accordance with the Act and the FCC's Rules and Regulations, or a decision of a tribunal with jurisdiction, except insofar as state law may control any aspect of this Agreement, in which case the domestic laws of the state of Florida, without regard to its conflicts of laws principles, shall govern.

## **13. RELATIONSHIP OF PARTIES**

- 13.1. It is the intention of the Parties that each shall be an independent contractor and nothing contained herein shall constitute the Parties as joint venturers, partners, employees or agents of one another, and neither Party shall have the right or power to bind or obligate the other.

## **14. NO THIRD PARTY BENEFICIARIES**

- 14.1. The provisions of this Agreement are for the benefit of the Parties hereto and not for any other person, and this Agreement shall not provide any person not a Party hereto with any remedy, claim, liability, reimbursement, right of action, or other right in excess of those existing without reference hereto.

## 15. NOTICES

15.1. Except as otherwise provided herein, all notices or other communication hereunder shall be deemed to have been duly given when made in writing and delivered in person, by facsimile, or sent by certified mail, postage prepaid, return receipt requested, on the date the mail is delivered or its delivery attempted.

If to Sprint: Director  
Local Carrier Markets  
Sprint  
6480 Sprint Parkway  
Mailstop: KSOPHM0310  
Overland Park, KS 66251  
Fax: (913) 315-0628

If to AWS: Jill Mounsey  
Director- External Affairs  
AT&T Wireless Services, Inc.  
7277 164<sup>th</sup> Ave. NE  
Redmond, WA 98052  
Fax: (425) 580-8609

with a Field Service Manager  
copy to: Sprint  
Mailstop: FLAPKA0306  
555 Lake Border Dr.  
Apopka, FL 32703

15.2. If personal delivery is selected to give notice, a receipt of such delivery shall be obtained. The address to which notices or communications may be given to either Party may be changed by written notice given by such Party to the other pursuant to this Section 15.

## 16. WAIVERS

16.1. No waiver of any provisions of this Agreement and no consent to any default under this Agreement shall be effective unless the same shall be in writing and properly executed by or on behalf of the Party against whom such waiver or consent is claimed.

16.2. No course of dealing or failure of any Party to strictly enforce any term, right, or condition of this Agreement in any instance shall be construed as a general waiver or relinquishment of such term, right or condition.

16.3. Waiver by either Party of any default by the other Party shall not be deemed a waiver of any other default.

## 17. SURVIVAL

17.1. Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in

this Agreement to survive termination including but not limited to Sections 5, 6, 7, 8, 9, 10, 11, 21, and 23.

## **18. FORCE MAJEURE**

18.1. Neither Party shall be held liable for any delay or failure in performance of any part of this Agreement from any cause beyond its control and without its fault or negligence, such as acts of God, acts of civil or military authority, embargoes, epidemics, war, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, power blackouts, strikes, work stoppage affecting a supplier or unusually severe weather. No delay or other failure to perform shall be excused pursuant to this Section 18 unless delay or failure and consequences thereof are beyond the control and without the fault or negligence of the Party claiming excusable delay or other failure to perform. Subject to Section 3 hereof, in the event of any such excused delay in the performance of a Party's obligation(s) under this Agreement, the due date for the performance of the original obligation(s) shall be extended by a term equal to the time lost by reason of the delay. In the event of such delay, the delayed Party shall perform its obligations at a performance level no less than that which it uses for its own operations. In the event of such performance delay or failure by Sprint, Sprint agrees to resume performance in a nondiscriminatory manner and not favor its own provision of Telecommunications Services above that of AWS.

## **19. DISPUTE RESOLUTION PROCEDURES**

19.1. The Parties recognize and agree that the Commission has continuing jurisdiction to implement and enforce all terms and conditions of this Agreement. Accordingly, the Parties agree that any dispute arising out of or relating to this Agreement that the Parties themselves cannot resolve may be submitted to the Commission for resolution. Upon such a submission, the Parties agree to seek expedited resolution by the Commission, and shall request that resolution occur in no event later than sixty (60) days from the date of submission of such dispute. If the Commission appoints an expert(s) or other facilitator(s) to assist in its decision making, each Party shall pay half of the fees and expenses so incurred. During the Commission proceeding each Party shall continue to perform its obligations under this Agreement. Nothing herein shall operate to prevent either Party from filing a complaint or other proceeding with the FCC.

19.2. If any portion of an amount due to a Party (the "Billing Party") under this Agreement is subject to a bona fide billing dispute between the Parties, the Party billed (the "Non-Paying Party") shall within thirty (30) days of its receipt of the invoice containing such disputed amount give written notice to the Billing Party of the amounts it disputes ("Disputed Amounts") and include in such notice the specific details and reasons for disputing each item. The Non-Paying Party shall pay when due all undisputed amounts to the Billing Party. The balance of the Disputed

Amount shall thereafter be paid with appropriate late charges, if appropriate, upon final determination of such dispute.

- 19.3. If the Parties are unable to resolve the issues related to the Disputed Amounts in the normal course of business within thirty (30) days after delivery to the Billing Party of notice of the Disputed Amounts, each of the Parties shall appoint a designated representative who has authority to settle the dispute and who is at a higher level of management than the persons with direct responsibility for administration of this Agreement. The designated representatives shall meet as often as they reasonably deem necessary in order to discuss the dispute and negotiate in good faith in an effort to resolve such dispute. The specific format for such discussions will be left to the discretion of the designated representatives, provided, however, that all reasonable requests for relevant information made by one Party to the other Party shall be honored.
- 19.4. If the Parties are unable to resolve issues related to the Disputed Amounts within thirty (30) days after the Parties' appointment of designated representatives pursuant to Section 19.3, then either Party may file a complaint with the Commission to resolve such issues or proceed with any other remedy at law or in equity. The Commission may direct payment of any or all funds plus applicable late charges to be paid to either Party.

## **20. COOPERATION ON FRAUD**

- 20.1. The Parties agree that they shall cooperate with one another to investigate, minimize and take corrective action in cases of fraud.

## **21. TAXES**

- 21.1. Any federal, state or local excise, license, sales, use, or other taxes or tax-like charges (excluding any taxes levied on income) resulting from the performance of this Agreement shall be borne by the Party upon which the obligation for payment is imposed under applicable law, even if the obligation to collect and remit such taxes is placed upon the other Party. Any such taxes shall be shown as separate items on applicable billing documents between the Parties. The Party obligated to collect and remit taxes shall do so unless the other Party provides such Party with the required evidence of exemption. The Party so obligated to pay any such taxes may contest the same in good faith, at its own expense, and shall be entitled to the benefit of any refund or recovery, provided that such Party shall not permit any lien to exist on any asset of the other Party by reason of the contest. The Party obligated to collect and remit taxes shall cooperate fully in any such contest by the other Party by providing records, testimony and such additional information or assistance as may reasonably be necessary to pursue the contest.

## **22. AMENDMENTS AND MODIFICATIONS**

22.1. No provision of this Agreement shall be deemed waived, amended or modified by either Party unless such a waiver, amendment or modification is in writing, dated, and signed by both Parties.

## **23. SEVERABILITY**

23.1. Subject to Section 2 – Regulatory Approvals, if any part of this Agreement becomes or is held to be invalid for any reason, such invalidity will affect only the portion of this Agreement which is invalid. In all other respects this Agreement will stand as if such invalid provision had not been a part thereof, and the remainder of the Agreement shall remain in full force and effect.

## **24. HEADINGS NOT CONTROLLING**

24.1. The headings and numbering of Sections, Parts and Attachments in this Agreement are for convenience only and shall not be construed to define or limit any of the terms herein or affect the meaning or interpretation of this Agreement.

## **25. ENTIRE AGREEMENT**

25.1. This Agreement, including all Parts and Attachments and subordinate documents attached hereto or referenced herein, all of which are hereby incorporated by reference, constitute the entire matter thereof, and supersede all prior oral or written agreements, representations, statements, negotiations, understandings, proposals, and undertakings with respect to the subject matter thereof.

## **26. COUNTERPARTS**

26.1. This Agreement may be executed in counterparts. Each counterpart shall be considered an original and such counterparts shall together constitute one and the same instrument.

## **27. SUCCESSORS AND ASSIGNS**

27.1. This Agreement shall be binding upon, and inure to the benefit of, the Parties hereto and their respective successors and permitted assigns.

## **28. IMPLEMENTATION**

28.1. This Agreement sets forth the overall terms and conditions, and standards of performance for services, processes, and systems capabilities that the Parties will provide to each other. The Parties understand that the arrangements and provision of services described in this Agreement shall require technical and operational coordination between the Parties. Accordingly, the Parties may agree to form a team that shall further develop and identify those processes, guidelines, specifications,

standards and additional terms and conditions necessary to support the terms of this Agreement.

## **PART C – INTERCONNECTION AND RECIPROCAL COMPENSATION**

### **1. INTERCONNECTION**

- 1.1. AWS shall interconnect with Sprint's facilities as follows for the purpose of routing or terminating traffic as covered under this Agreement:
- 1.2. AWS may interconnect its network facilities at any one (1) or more technically feasible Points of Interconnection (collectively referred to as "POI") within Sprint's network. The Parties agree to interconnect at one (1) or more of Sprint's Tandem Switches or to Sprint's End Office Switches, at AWS's option. For each LATA in which AWS wants to establish Interconnection with Sprint, AWS must establish at least one (1) physical POI in each LATA containing a Sprint Wire Center with which AWS and Sprint exchange Local Traffic, as long as LATAs are required by state or federal regulation.
- 1.3. Interconnection Facilities
  - 1.3.1. Interconnection mid-span meet arrangements will be made available to AWS.
  - 1.3.2. For construction of new facilities for Interconnection, Sprint shall be responsible for provisioning fifty percent (50%) of the interconnection facilities or to Sprint's exchange boundary, whichever is less. AWS shall be responsible for provisioning fifty percent (50%) of the Interconnection facilities or to Sprint's exchange boundary, whichever is greater.
  - 1.3.3. If a mid-span meet arrangement is established via construction of new facilities or re-arrangement of existing physical facilities between Sprint and AWS, the proportionate charges for Interconnection facilities will be adjusted to reflect the respective facility ownership. Should either Party prefer, new Interconnection facilities may be provisioned via third party facilities or AWS can lease tariffed services from Sprint. Special construction charges, if applicable, will be charged in accordance with Sprint's access service tariff.
  - 1.3.4. If third party leased facilities are used for Interconnection, or if leased facilities are provided under a meet-point arrangement between Sprint and a third party, the POI will be defined as the Sprint Central office in which the leased circuit terminates.
  - 1.3.5. If Sprint provided leased facilities are used, the POI will be defined as the demarcation between Sprint's facility and AWS's equipment as long as the end point is within a LATA containing a Sprint Wire Center.
- 1.4. Interconnection to Sprint is possible with the following types of Interconnection:

- 1.4.1. Type 1 Interconnection. Type 1 Interconnection is a trunk connection with line treatment at an End Office that uses trunk-side signaling protocols in conjunction with a feature generically referred to as Trunk With Line Treatment. A Type 1 Interconnection uses multifrequency (MF) address pulsing and supervision only and will provide AWS access to the NXX codes served by that individual End Office Switch (or Remote), the Tandem Switch on which that End Office Switch (or Remote) subtends, and other End Offices subtending that Tandem Switch. A Type 1 Interconnection can be used to reach operator services, 911, or to carry 8YY or 900 traffic.
- 1.4.2. Type 2A Interconnection. A Type 2A Interconnection is a trunk-side connection to a Sprint Tandem Switch that uses either MF or SS7 signaling and supervision. A Type 2A Interconnection provides access to the valid NXX codes with End Offices subtending the Tandem Switch. A Type 2A Interconnection cannot be used to reach operator services, 911, or to carry 8YY or 900 traffic, except as provided in Part C, Section 1.6.
- 1.4.3. Type 2B Interconnection. A Type 2B Interconnection is a trunk-side connection to a Sprint End Office that uses either MF or SS7 signaling and supervision. A Type 2B Interconnection only provides access to the valid NXX codes served by that End Office and Remote Switches subtending that End Office Switch and cannot be used to reach operator services, 911, or to carry 8YY or 900 traffic.
- 1.4.4. Type 2C Interconnection. A Type 2C Interconnection is a trunk-side connection to a Sprint 911 selective router that provides access to the Public Safety Answering Point (PSAP). AWS agrees to order Type 2C Interconnections for all future 911 Interconnection requests.
- 1.4.5. Type 2D Interconnection. A Type 2D Interconnection is a trunk-side connection directly to a Sprint Operator Services System switch that provides access to operator services call processing capabilities.
- 1.5 All Type 2B and Type 1 Interconnections at a Sprint End Office must be at the host office and not at any subtending Remote Switches.
- 1.6. Where AWS requires Ancillary Traffic (e.g., Directory Assistance, Operator Assistance, 911, 8YY) and technical capability exists, separate trunking (either Type 1 or Type 2) will be provided at AWS's expense as required for Interconnection and routing of such ancillary services.
- 1.7. The Parties agree to utilize two-way trunking on shared facilities where available and technically feasible. Orders between Sprint and AWS to establish, add, change or disconnect trunks shall be processed by utilizing the existing electronic Access Service Request ("ASR"), or such other industry standard that replaces the ASR. Where one-way trunking is used, each Party will be solely responsible for the cost of that facility up to the POI.

- 1.8. Following execution of an appropriate agreement or ordering from existing tariffs, Sprint agrees to provide AWS with collocation space in its facilities consistent with the Act and FCC rules.
- 1.9. Following execution of an appropriate agreement or ordering from existing tariffs, Sprint agrees to afford AWS access to Sprint's poles, ducts, conduits and rights of way Sprint owns or controls, as consistent with the Act and FCC rules.
- 1.10. Following execution of an appropriate agreement or ordering from existing tariffs, Sprint agrees to afford AWS access to Sprint's unbundled network elements as consistent with the Act and FCC rules.
- 1.11. Establishing a Rate Center
  - 1.11.1. When Sprint delivers traffic to or receives traffic from AWS on a Type 2A Interconnection basis, AWS may establish a Rate Center for each NPA/NXX that is located within the serving area of the Tandem Switch to which AWS is interconnected when the chosen Rate Center meets the following criteria:
    - 1.11.1.1. it is a Sprint exchange;
    - 1.11.1.2. it is served by the same access Tandem Switch; and
    - 1.11.1.3. it is in the same or a different local calling area than the exchange where AWS's Interconnection exists.
  - 1.11.2. For Tandem Interconnection, until such time as the assignment of less than whole NPA/NXX codes to each rate center is technically and economically feasible for a Party, and that Party implements a program for the assignment of less than whole NPA/NXX codes, such Party shall assign whole NPA/NXX codes to each Rate Center.
  - 1.11.3. AWS will also designate a Rating Point and Routing Point for each NPA/NXX code assigned for AWS's use. AWS shall designate one (1) location for each Rate Center area as the Routing Point for the NPA/NXXs assigned for AWS's use associated with that area, and such Routing Point shall be within the same LATA as the Rate Center area but not necessarily within the Rate Center area itself. Rate center areas may be different for each Party, as appropriate. The Routing Point associated with each NPA/NXX assigned for AWS's use need not be the same as the corresponding Rate Center point, nor must it be located within the corresponding Rate Center area, nor must there be a unique and separate Routing Point corresponding to each unique and separate Rate Center. Notwithstanding the above, the Routing Point may be in a different LATA than the Rating Point in circumstances where a Routing Point is located in the same Tandem Switch serving territory as the Rating Point.

1.11.4. Notwithstanding anything to the contrary contained herein, nothing in this Agreement is intended to, and nothing in this Agreement shall be construed to, in any way constrain either Party's choice regarding the size of the local calling area(s) that either Party may establish for traffic originated by its customers, which local calling areas may be larger than, smaller than, or identical to, the other Party's local calling areas.

1.12 The provisions of this Section shall apply to Sprint's interconnection to AWS's network for the purpose of routing all the types of traffic.

## **2. EXCHANGE OF TRAFFIC**

- 2.1. Where the Parties interconnect, for the purpose of exchanging traffic between networks, the provision of this Article 2 will apply.
- 2.2. The Parties agree to establish trunk groups from the Interconnecting facilities such that trunking is available to any switching center designated by either Party, including End Office Switches, Tandem Switches, Remote Switches, MSC's, 911 selective routers, and Directory Assistance/Operator Service switches if available and necessary.
- 2.3. The Parties agree that Sprint will use a five percent (5%) InterMTA jurisdictional traffic factor which shall be applied only on minutes of use terminating from AWS to Sprint, in order to properly bill traffic. The Parties also agree to a percent interstate use factor of forty percent (40%), such that the InterMTA traffic derived from the InterMTA traffic factor shall be treated as forty percent (40%) interstate and sixty percent (60%) intrastate. These factors, which are used for billing, are influenced by the unique MTA geography of the areas served by the Parties. Neither Party waives any of its positions concerning the appropriate factors to be used in other agreements or circumstances and the agreed to factor is solely a compromise of positions for purposes of this Agreement.
- 2.4. The Parties agree to offer and provide to each other B8ZS Extended Superframe Format ("ESF") facilities, where available, capable of voice and data traffic transmission. If available, the Parties will utilize SuperFrame ("SF/AMI") transmission.
- 2.5. Where available, Sprint will provide and implement all defined and industry supported Signaling System 7 ("SS7") mandatory parameters as well as procedures in accordance with ANSI standards to support SS7 signaling for call setup and delivery for the Interconnection trunks. To the extent Sprint provides ANSI optional parameters for its own use, Sprint shall provide the same to AWS.
- 2.6. In the event SS7 facilities are not available from Sprint, AWS may, at its option, obtain multifrequency signaling.
- 2.7. Where available, Sprint agrees to provide carrier identification parameter ("CIP") within AWS's SS7 call set-up signaling protocol at no charge.

- 2.8. Sprint shall support intercompany 64 KBPS clear channel where it provides such capability to its end users.
- 2.9. The Parties will cooperate in the exchange of TCAP messages to facilitate full interoperability of SS7-based features between their networks, including all CLASS features and functions, to the extent each Party offers such features and functions to its own end users.
- 2.10. Each Party is responsible for the transport of originating calls from its network to the relevant, mutually agreed upon Point of Interconnection, and each Party will ensure that its facilities are compatible with the mutually agreed upon transmission and facility specifications.

### **3. TYPES OF TRAFFIC AND SERVICES**

- 3.1. This Agreement is intended to cover only the rates and terms concerning the exchange of Local Traffic, which includes Transit Traffic, Indirect Traffic and Ancillary Traffic, but only to the extent they are also Local Traffic. Although Non-Local Traffic may pass over the same facilities used for Local Traffic, the rates and terms for the exchange of Non-Local Traffic are handled elsewhere, as referenced in Sections 1.1 and 1.2 of Part B and Section 4.1 of Part C.
- 3.2. To the extent network and contractual arrangements exist with all necessary parties throughout the term of this Agreement, Sprint will provide intermediary Tandem Switching and transport services for AWS's connection of its end user to a local end user of: (1) CLECs, (2) another incumbent local exchange carrier other than Sprint, (3) IXC's, and (4) other CMRS carriers.
- 3.3. The Parties disagree concerning the proper basis for intercarrier compensation relating to Internet Service Provider traffic (the "ISP Issue"). The Parties agree that such traffic between them, if any, is presently de minimus. At such time as this traffic is no longer de minimus and either Party can economically track and measure such traffic, either Party may require that the ISP Issue be negotiated in good faith for a period of not less than thirty (30) days from the date such negotiations are requested, and thereafter either Party may initiate Dispute Resolution pursuant to Part B, Section 19 to seek resolution of the ISP Issue. Upon the conclusion of FCC proceeding CC Docket No. 99-68, the compensation rate established in that proceeding applicable to Internet Service Provider Traffic (or, if no such rate is established in that proceeding, a compensation rate otherwise established pursuant to the requirement of such proceeding) shall be applied prospectively.
- 3.4. AWS shall have the option to provide fixed wireless services under this Agreement, so long as such services are classified by the FCC as CMRS. The Parties will comply with the terms of the attached Appendices in connection with such services.

#### 4. COMPENSATION

- 4.1 Nothing in this section shall prevent either Party from charging its end users applicable tariff or other rates for the services provided to end users.
- 4.2. Non-Local Traffic.
  - 4.2.1. Compensation for the termination of Non-Local Traffic and the origination of 8YY traffic between the interconnecting Parties shall be based on the applicable access or other charges in accordance with FCC and Commission Rules and Regulations.
  - 4.2.2. Toll or Special Access code (e.g., 950, 900) traffic originating from line-side connections between Sprint and AWS will be routed to the assigned PIC for the line connection, or to the appropriate Interexchange Carrier when 10XXX dialing is used. AWS is liable to the assigned Interexchange Carrier for any charges occurring from such traffic.
  - 4.2.3 InterMTA toll traffic, switched access, and special access traffic, if separately chargeable, shall be charged the appropriate rate out of AWS's terminating tariff or via other appropriate meet-point access arrangements. Where exact transport mileage is not available, an average, arrived at by mutual agreement of the parties, will be used.
- 4.3. Local Traffic. The rates set forth on Attachment I shall be used for Local Traffic. In the event, the FCC or the Commission do establish rates, terms and conditions for transport and termination of local Telecommunications traffic, or for specific components included therein, that differ from the rates, terms and conditions established pursuant to this Agreement, the rates, terms and conditions established by the FCC or the Commission shall be implemented in this Agreement as of the date the rates, terms and conditions are made effective by the FCC or the Commission.
  - 4.3.1. Reciprocal Compensation for Local Traffic
    - 4.3.1.1. Each rate element utilized in completing a call shall be charged for completion of that call based on conversation minutes of use (call party answer to call party disconnect) accumulated for the month and rounded up to the next full minute at the end of the month. For example, a call terminating from AWS over Sprint facilities to a Sprint End Office Switch through a Sprint Tandem Switch would include charges from Sprint to AWS for Dedicated Transport to the Tandem Switch, Tandem Switching, Common Transport to the End Office Switch and End Office switching.
    - 4.3.1.2. Rate Elements.

- 4.3.1.2.1. End Office Switching (Termination). The End Office Switching rate will be applied to every conversation minute of use terminating to a Sprint End Office Switch.
- 4.3.1.2.2. Transport
  - 4.3.1.2.2.1 Intraexchange Dedicated Transport rates apply to dedicated transport facilities that AWS leases from Sprint. Available at DS1/DS3 interface.
  - 4.3.1.2.2.2. Common Transport rates apply to AWS traffic transported between Sprint's End Offices and Sprint's Tandem Switches and between Sprint's End Offices and Remote Switches subtending those End Office Switches.
  - 4.3.1.2.2.3. Interexchange Dedicated Transport rates apply when transport is required and transmission facilities are provided between the Sprint office site and any Sprint intermediary site to establish interconnection between AWS and Sprint. Available at DS1/DS3 interface and is in addition to any applicable Intra-exchange Dedicated Transport charges for the particular facility.
- 4.3.1.2.3. Tandem Switching. The Tandem Switching rate element is charged on every conversation minute of use that is switched by Sprint's Tandem Switch.
- 4.3.1.2.4 Nonrecurring Charges. All new Interconnections or additions to existing Interconnections between AWS's connecting facilities or MSCs and Sprint's Central Offices are subject to a nonrecurring charge as defined in Attachment I or Individual Case Basis (ICB) pricing for each specific type of transport listed.

#### 4.4.2. Traffic Terminating to Sprint

- 4.4.2.1. Sprint will bill AWS the same rates for each conversation minute of use based on completed calls, as AWS charges Sprint for Local Traffic terminating on its network.

- 4.4.2.1.1 Tandem Interconnection Charge. Type 2A Interconnection. Sprint will bill Tandem Switching, End Office Switching, and Common Transport rate elements as reflected in Attachment I for all traffic terminating to Sprint via a Tandem Interconnection with AWS.
- 4.4.2.1.2 End Office Interconnection Charge. Type 2B Interconnection. Sprint will bill AWS the End Office Switching rate element. Common Transport will also be applied when traffic terminates to a Sprint Remote Switch. These rate elements are reflected in Attachment I for all traffic terminating to Sprint via a Type 2B/End Office Interconnection with AWS.
- 4.4.2.1.3 End Office Interconnection Charge. Type 1 Interconnection. Sprint will bill AWS the End Office Switching rate element. Common Transport and End Office Switching will also be applied when traffic routes beyond the End Office. These rate elements are reflected in Attachment I for all traffic terminating to Sprint via a Type1/End Office Interconnection with AWS.

#### 4.5.2. Traffic Terminating to AWS

- 4.5.2.1. AWS will bill Sprint the same rates for each conversation minute of use based on completed calls, as Sprint charges AWS for Local Traffic terminating on its network.
  - 4.5.2.1.1. Tandem Interconnection Charge. Type 2A Interconnection. AWS will bill Sprint one rate consisting of the Tandem Switching, End Office Switching, and Common Transport rate elements as reflected in Attachment I for all traffic terminating to AWS via a Tandem Interconnection with Sprint.
  - 4.5.2.1.2. End Office Interconnection Charge. Type 2B Interconnection. AWS will bill Sprint one rate consisting of the End Office Switching rate element and Common Transport to Remotes Per Minute of Use. These rate elements are reflected in Attachment I for all traffic terminating to AWS via a Type2B/End Office Interconnection with Sprint.

- 4.5.2.1.3 End Office Interconnection Charge. Type 1 Interconnection. AWS will bill Sprint one rate consisting of two End Office Switching rate elements and Common Transport. These rate elements are reflected in Attachment I for all traffic terminating to AWS via a Type 1/End Office Interconnection with Sprint.
- 4.6. Where offered to other carriers, Interconnection to an AWS location within an MTA will provide Sprint with access to AWS's facilities within that MTA and to other companies which are likewise connected to AWS within that MTA.
- 4.7. Switch Share Partners
- 4.7.1 Where AWS provides switching services to other two-way CMRS providers in Switch Share Markets, the traffic shall be treated as if it were provided to and from AWS end users. Compensation rates under this Agreement shall apply to such traffic in the same manner as it applies to AWS's traffic.
- 4.7.2. AWS has identified below the legal entity name, operating name and the operating area (e.g. RSA, MSA, MTA, BTA, etc.) of the CMRS provider for whom AWS provides switching functions. AWS will indemnify Sprint against all claims by any such CMRS provider related to any traffic originating or terminating on such CMRS provider's network.
- 4.8. Until such time as Sprint has converted its billing to CASS and is able to measure traffic terminated from AWS by individual rate element, Sprint will bill AWS a state-specific composite rate for all usage. The composite rate will be developed using the individual rate elements for Interconnection Type 1, 2A and 2B specified in Section 4.3.1 preceding. An analysis of outbound usage will be prepared by AWS and will be used to determine the percentage of minutes terminating over a given Interconnection trunk type to Sprint. The composite rate is developed by applying a weighting factor, if any, to the sum of the rate elements for each Interconnection type, resulting in a "weighted rate". The weighted rate for each Interconnection type is then multiplied by the outbound 'percent in place' factor, resulting in an 'allocated rate'. A summation of the allocated rates is the resulting statewide composite rate.
- 4.9. Either Party may initiate a review, upon reasonable request of the other Party, of network and traffic weightings used in calculating the blended statewide composite rate, such review to occur no more frequently than every six (6) months or when significant network changes occur in either Party's network.

4.10. Unless otherwise stated in this Agreement, Ancillary Traffic will be exchanged and billed in accordance with whether the traffic is Local, EAS, IntraLATA Toll or switched access, if applicable.

4.11. Interconnection Facilities

4.11.1. The Parties agree to utilize two-way trunking and agree to share proportionately in the costs of those facilities. Where one-way trunking is used, each Party will be solely responsible for the cost of that facility up to the POI.

4.11.2 Interconnection facility charges shall be as set forth in Attachment I of this Agreement. Interconnection facilities charges will include Intraexchange Transport and Facilities Cross-Connect charges and may include Interexchange Transport and Electrical Cross-Connect charges. Where SS7 connectivity is available, SS7 signaling and STP Port charges will apply. Where 911 Interconnection is available and requested, a 911 port charge and appropriate non-recurring charges will apply.

4.11.3 Facilities with Two-Way Trunking

4.11.3.1 To determine the amount of compensation due to AWS for the transport of traffic originating on Sprint's network and terminating on AWS's network, the Parties will develop statewide mobile to land and land to mobile traffic factors based on billed conversation minutes of use. At a minimum, the Parties will use a three (3) month average of billed usage to develop the traffic factors. These factors may be updated every six (6) months at either Party's request or when significant network changes occur in either Party's network.

4.11.3.2 Sprint will bill AWS for the entire cost of the facility at the rates listed in Attachment I. AWS will then apply the land to mobile traffic factor against the total two-way facility charges billed by Sprint to AWS. AWS will then invoice Sprint on a monthly basis, this proportionate cost for the facilities utilized by Sprint.

4.11.4 Each Party reserves the right to discontinue the use of all or a portion of the other Party's transport network for delivering Local Traffic in favor of an alternative transport solution.

4.11.5 If either Party provides one hundred percent (100%) of the Interconnection facility via lease of meet point circuits between the other Party and a third party; or lease of third party facilities of construction of its own facilities; either Party may charge for the proportionate amount based on relative usage using the lesser of (1) Sprint's Dedicated Transport rate; (2) AWS's costs if filed and approved by a commission of appropriate jurisdiction; or (3) the actual lease cost of the Interconnection facility.

## **5. BILLING AND PAYMENT**

- 5.1. In consideration of the services provided under this Agreement, the Parties shall bill each other and pay the charges set forth in Attachment I subject to the provisions of Part B, Sections 2.2, 2.3 and Part C, Section 4 hereof.
- 5.2. Subject to the terms of this Agreement, the Parties shall pay bills/invoices within thirty (30) days from the bill/invoice date if not late charges as described in Section 5.4 shall apply. If the delivery date of the bill/invoice is more than five (5) business days from the bill/invoice date, the receiving Party shall make payment within thirty (30) days from receipt of the bill/invoice or within forty five (45) says from the bill/invoice date. If the payment due date is a Saturday, Sunday or a designated bank holiday, payment shall be made the next Business Day.
- 5.3. Billed amounts which are being investigated, queried, or for which claims have been or may be filed ("Disputed Amounts"), are not due for payment until such investigations, claims, or queries have been resolved in accordance with the provisions governing Dispute Resolution, Part B, Section 19 of this Agreement. Either Party has sixty (60) days from the bill date to dispute the charges with the billing Party.
- 5.4. The Parties will assess late payment charges to each other in accordance with the applicable tariff or, if there is no tariff, the billing Party will assess a late payment charge equal to the lesser of one and a half percent (1.5%) or the maximum rate allowed by law per month of the balance due, until the amount due, including late payment charges, is paid in full.
- 5.5. Backbilling for all services provided pursuant to this Agreement may be billed for up to twelve (12) months after the date service was furnished. Either Party will credit the other for any over-billing that occurs up to twelve (12) months prior to the date in which the services pursuant to this Agreement were billed or backbilled.
- 5.6. In the event that either Party's data is lost, damaged or destroyed and cannot be recovered, and this results in its inability to determine actual usage, the Parties shall agree upon an estimate of the amount of revenue lost based on the Parties average monthly usage in the preceding three (3) months and shall use the agreed data for settlement of compensation among themselves.

- 5.7. Sprint will not accept any new or amended order for Telecommunications Services, Interconnection or other related services under the terms of this Agreement from AWS while any past due, undisputed charges remain unpaid for any service, whether covered by this Agreement or not, and reserves the right to terminate existing services as provided for in this agreement.
- 5.8. Neither the right to audit nor the right to receive an adjustment shall be affected by any statement to the contrary appearing on checks or otherwise, unless a statement expressly waiving such right appears in writing, is signed by an authorized representative of the Party having such right and is delivered to the other Party in a manner sanctioned by this Agreement.
- 5.9. If AWS requires records from Sprint for meet-point billing, Sprint will exchange them in the industry standard format.
- 5.10. Exchange of Records
  - 5.10.1 AWS and Sprint agree to exchange records, as necessary, based upon standards mutually agreed to by the Parties. AWS and Sprint further agree they will work toward implementing a record exchange process in accordance with industry standards.
  - 5.10.2 AWS and Sprint agree that, until industry standards are developed, they will communicate all billing and record format information through non-industry standard processes. AWS and Sprint further agree to pursue the development of systems to manage these processes in the future. Upon development of industry standards, both AWS and Sprint agree to work towards implementation of these standards.
- 5.11. Traffic originated by or terminated to a Switch Share Partner shall be treated the same as AWS Local Traffic.
- 5.12. Paging Traffic. The Parties agree that paging traffic, also commonly referred to as "Narrowband CMRS" traffic, will not be delivered or compensated for under the terms of this Agreement.

## **6. INDIRECT AND TRANSIT SERVICES**

### **6.1 Indirect Traffic**

- 6.1.1 Each terminating Party is responsible for billing the originating company for traffic terminated on its respective networks. For Indirect Traffic, the originating Party will provide the originating billing information to the terminating Party if technically feasible. If the originating Party cannot provide the originating billing information to the terminating Party, then the terminating Party must obtain the originating billing information from the third party Telecommunications Carrier providing the Transit Services. The Parties agree to cooperate in industry discussions regarding the costs

incurred by the terminating Party in obtaining records from the transiting company, if any. It is each Party's responsibility to enter into appropriate contractual arrangements with the third party Telecommunications Carrier providing the Transit Services in order to obtain the originating billing information from that carrier.

6.1.2 Indirect Traffic Terminating to Either Party. Rate elements that will be charged to either Party are (1) End Office Switching and (2) Common Transport charges set forth in Attachment I.

6.2. Transit Services

6.2.1 Transit Traffic. AWS shall pay a transit rate, comprised of the Common Transport and Tandem Switching rate elements, as set forth in Attachment I when AWS uses a Sprint Tandem Switch to terminate Local Traffic to a third party LEC or another carrier. Sprint shall pay AWS a transit rate equal to the Sprint rate referenced above when Sprint uses a AWS switch to terminate Local Traffic to a third party LEC or another carrier. Common Transport charges do not apply to transited traffic if the transiting Party is collocated with the third party LEC or another carrier to which the traffic is transited.

6.2.2 Each Party acknowledges that the transiting Party does not have any responsibility to pay any third party Telecommunications Carrier charges for termination of any identifiable Transit Traffic from the originating Party. Both Parties reserve the right not to pay such charges on behalf of the originating Party.

## **PART D – NETWORK MAINTENANCE AND MANAGEMENT**

### **1. GENERAL REQUIREMENTS**

- 1.1. The Parties will work cooperatively to install and maintain a reliable network. The Parties will exchange appropriate information (e.g., maintenance contact numbers, network information, information required to comply with law enforcement and other security agencies of the government, etc.) to achieve this desired reliability. To the extent Sprint is required by the FCC or a Commission to report and apply performance measures; it shall provide those to AWS.
- 1.2. Each Party shall provide a twenty-four (24) hour contact number for network traffic management issues to the other's surveillance management center. A fax number must also be provided to facilitate event notifications for planned mass calling events. The Parties shall agree upon appropriate network traffic management control capabilities. The AWS Network Operations Center ("NOC") is (800) 832-6662. The Sprint Network Operations Center is (888) 230-4404.
- 1.3. Sprint will process AWS maintenance requests at Parity.
- 1.4. Notice of Network Event. Each Party has the duty to alert the other Party to any network events that can result or have resulted in service interruption (and schedule acceptable network down time), blocked calls, or negative changes in network performance. Sprint will provide network event notification at Parity.
- 1.5. Notice of Network Change. In accordance with Part B, Section 1.4 of this Agreement, the Parties agree to provide each other reasonable notice of network changes. This includes the information necessary for the transmission and routing of services using each other's facilities or networks, as well as other changes that would affect the interoperability of those facilities and networks. At a minimum, Sprint shall comply with all applicable FCC and Commission notification requirements. Correct LERG data is considered part of this requirement.
- 1.6. Sprint will ensure that all applicable alarm systems that support AWS customers are operational and the support databases are accurate. Sprint will respond to AWS customer alarms at Parity with response to alarms for its own customers.
- 1.7. Parties shall provide prior notification of any scheduled maintenance activity performed by the Parties that may be service affecting to the other Party.

### **2. RESTORATION OF SERVICE IN THE EVENT OF OUTAGES**

- 2.1. Sprint shall perform restoration of network elements and services in the event of outages due to equipment failures, human error, fire, natural disaster, acts of God, or similar occurrences at Parity, in accordance with the following priorities. First, restoration priority shall be afforded to those network elements and services

affecting its own end users or identified AWS end users relative to national security or emergency preparedness capabilities and those affecting public safety, health, and welfare, as those elements and services are identified by the appropriate government agencies. Second, restoration priority shall be afforded between Sprint and AWS in general and shall include cell site spans and trunking facilities leased from Sprint. Third, should Sprint be providing or performing Tandem Switching functionality for AWS, third-level priority restoration should be afforded to any trunk including trunks provided at the DS0 level. All service shall be restored as expeditiously as practicable and in a non-discriminatory manner.

2.2. AWS and Sprint will agree on a process for circuit restoration.

### **3. SERVICE PROJECTIONS**

3.1. Sprint and AWS will provide a non-binding (2) two-year intercompany trunk forecast. These forecasts shall be updated semi-annually or at other standard intervals as mutually agreed to by both Parties. The forecast shall include the following information for each trunk group:

3.1.1. Common Language Location Identifier (CLLI-MSG) codes for Tandem and End Office locations;

3.1.2. Two-Six Codes for each trunk group;

3.1.3. Quantity of trunks in service;

3.1.4. Major network projects that affect the other Party. Major network projects include, but are not limited to, trunking or network rearrangements, shifts in anticipated traffic patterns, or other activities by either Party that are reflected by a significant increase or decrease in trunking demand for the two (2) year forecast window.

### **4. QUALITY OF SERVICE**

4.1. Interconnection quality of service shall be at Parity with that provided by Sprint for its own services.

4.2. A blocking standard of P.01 during the average busy hour shall be maintained for all local Interconnection facilities.

4.3. AWS and Sprint shall negotiate a process to expedite network augmentations and other orders when initiated by the other Party.

4.4. Within six (6) months, AWS and Sprint will develop statistical measurements for Sprint's service quality based on reporting and performance measures established by state commissions for Sprint.

**PART E – ACCESS TO TELEPHONE NUMBERS**

**1. GENERAL REQUIREMENTS**

1.1. It is the responsibility of each Party to program and update its own switches to recognize and route traffic to the other Party's assigned NXX codes. Neither Party shall impose fees or charges on the other Party for required programming and switch updating activities.

**IN WITNESS WHEREOF**, each of the Parties has caused this Agreement to be executed by its duly authorized representatives.

## Appendix E911- Fixed Wireless Service

This Appendix E911 sets forth the terms and conditions under which Sprint will provide AWS connection to E911 Universal Emergency Number Service, on a wireline basis for switches designated in the LNP Addendum, for those AWS end users choosing to obtain fixed wireless service. This Appendix does not in any way affect or amend the 911 service that is currently provided to AWS's general wireless customers. The E911 Universal Emergency Number Service described in this Appendix is in addition to the existing general 911 service.

### I. DEFINITIONS

A. As used herein and for the purposes of this Appendix the following terms will have the meanings set forth below:

1. "E911 Universal Emergency Number Service" (also referred to as Expanded 911 Service or Enhanced 911 Service) is a telephone exchange communication service whereby a PSAP designated by the E911 Universal Emergency Number Service Customer may receive and answer telephone calls placed by dialing number 911. E911 includes the service provided by the lines and equipment associated with the service arrangement for the answering, transferring, and dispatching of public emergency telephone calls dialed to 911.
2. "E911 Universal Emergency Number Service Customer" is a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local government units to whom authority has been lawfully delegated to respond to public emergency telephone calls, at the minimum, for emergency police and fire service through the use of one telephone number, 911.
3. "Public Safety Answering Point" ("PSAP") is an answering location for 911 calls originating in a given area. The E911 Universal Emergency Number Service Customer may designate a PSAP as primary or secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first; secondary PSAPs receive calls on a transfer basis only. PSAPs are public safety agencies such as police, fire, emergency medical, etc., or a common bureau serving a group of such entities.
4. "Centralized Automatic Message Accounting" ("CAMA") Trunk is a trunk capable of transmitting Automatic Number Identification (ANI) associated with E911 calls from a switch to the E911 Network.

5. "Automatic Number Identification" ("ANI") is a feature that automatically forwards the telephone number of the calling party to the E911 Control Office (E911 Tandem Switch or Selective Router) from which it is switched to the PSAP and is displayed at an attendant position console.
6. "Automatic Location Identification" ("ALI") is a feature that forwards the name, street address, class of service, and other pre-determined information associated with the calling party's telephone number (identified by ANI) to the PSAP for display.
7. "Selective Routing" ("SR") is a Telecommunications feature that provides the capability to selectively route a 911 call to the designated primary PSAP based upon the identified number of the calling party.
8. "Database Management System" ("DBMS") is a system of manual procedures and computer programs used to create, store and update the data required for the SR and ALI service features of E911 Universal Emergency Number Service.
9. "ALI Database" is a database which stores information associated with end user customers' telephone numbers.

## II. RESPONSIBILITIES

- A. Since AWS is employing its wireless system on a fixed location basis in connection with the service, it differs slightly from the arrangement employed by wireline CLECs who normally use this system. Wireless systems traditionally provide information to a PSAP that identifies only the cell site carrying the call, rather than the caller's fixed location. Accordingly, AWS will ensure that each of its fixed wireless service telephone numbers has a fixed location listed in the ALI Database and that AWS' network is properly set up to pass ANI that will provide the PSAP the information it needs to associate that information in the ALI Database with the telephone number or ANI passed to it.
- B. Sprint shall provide and maintain equipment at the E911 Control Office and the DBMS as is necessary to perform E911 Universal Emergency Number Service in connection with AWS' fixed wireless service set forth herein. Sprint shall also be responsible for the following:
  1. When requested by AWS, transporting the E911 calls from the interconnection point with AWS facilities connecting AWS' switches listed in Exhibit I (attached hereto and made a part hereof) to the Control Offices of the E911 System.

2. Switching the E911 calls through the E911 Control Office(s) to the designated primary PSAP or to designated alternate locations, according to routing criteria specified by the E911 Universal Emergency Number Service Customer.
  3. Storing the names, addresses, and associated telephone numbers from AWS' end users involved in the fixed wireless service in the electronic data processing database for the E911 DBMS. AWS is responsible for downloading and updating this information.
  4. Transmission of ANI and ALI information associated with AWS' fixed wireless end users accessing E911 Universal Emergency Number Service to the PSAP for display at an attendant position console.
- C. Sprint shall provide and maintain sufficient dedicated E911 circuits, in accordance with the provisions of the Sprint E911 tariff and specifications of the E911 Universal Emergency Number Service Customer.
- D. Sprint shall provide AWS with a description of the geographic area and PSAPs served by the E911 Control Office(s) according to industry standards for E911 information sharing.
- E. Sprint shall provide AWS with a file containing the Master Street Address Guide (MSAG) for the exchanges or communities identified by AWS. Sprint shall provide AWS additional files with the entire MSAG, including subsequent additions or updates to the MSAG on a quarterly basis.
- F. AWS shall connect its switches to the Sprint E911 Control Office with dedicated CAMA trunks. Where the Sprint E911 Control Office is capable, dedicated SS7 ISUP trunking can also be used for connectivity for 911.
- G. At a reasonable time prior to establishment of E911 Universal Emergency Number Service, AWS will download and maintain thereafter all information required to establish records necessary for furnishing connection to E911 Universal Emergency Number Service in connection with AWS' fixed wireless service. AWS will adopt and comply with operating methods applicable to downloading and maintaining AWS' end user records in Sprint's DBMS.
- H. AWS acknowledges that its end users in a single local calling scope may be served by PSAPs that are homed on different E911 Control Offices. AWS will be responsible for providing facilities to route calls from its end users to the proper E911 Control Office(s).

- I. Thirty (30) days prior to the passing of live traffic, AWS and Sprint shall complete CMRS applicable portions of the Joint Operations Plan to be provided by Sprint.

### III. METHODS AND PRACTICES

With respect to all matters covered by this Appendix, each Party will adopt and comply with standard industry operating methods and practices and will observe the terms and conditions of Sprint's tariffs, and the rules and regulations of the FCC and the appropriate Public Utility Commission that apply to the provision of E911 Universal Emergency Number Service in the context of AWS's fixed wireless service. Sprint will adhere to the March 1997 NENA recommended Standards for Local Service Providers. Sprint will only exceed the NENA recommended Minimum Trunking Requirements under extenuating circumstances and with the approval of the Public Safety Entity.

### IV. CONTINGENCY

- A. The Parties agree that the E911 Universal Emergency Number Service is provided for the use of the E911 Universal Emergency Number Service Customer, and recognize the authority of the E911 Universal Emergency Number Service Customer to establish service specifications and grant final approval (or denial) of service configurations offered by Sprint and AWS. The specifications are to be documented in Exhibit I, CLEC Serving Area Description and E911 Interconnection Details. The terms and conditions of this Appendix represent a negotiated plan for providing E911 Universal Emergency Number Service, for which AWS must obtain documentation of the E911 Universal Emergency Number Service Customer's approval. AWS will provide such documentation to Sprint prior to use of AWS' E911 connection for actual emergency calls.
- B. The Parties designate the following representatives who shall have the authority to execute additional changes to this Appendix when necessary to accommodate expansion of AWS' geographic area into the jurisdiction of additional PSAPs or to increase the number of CAMA trunks:

AWS representative:

AT&T Wireless Services, Inc.  
Attn: Director- External Affairs  
7277 164<sup>th</sup> Ave NE  
Redmond, WA 98052  
Fax: (425) 580-8609

Sprint representative:

Sprint Corp.  
Attn: Director-Local Carrier Markets  
Mailstop: KSOPHM0310  
Overland Park, KS 66251  
FAX: (913) 315-0628

- C. Either Party may unilaterally change its designated representative and/or address, telephone contact number, or facsimile number for the receipt of notices by giving seven (7) days prior written notice to the other Party in compliance with this Section. Any notice or other communication for purposes of this section will be deemed given when received.
- D. The terms and conditions of this Appendix are subject to renegotiations in the event that the E911 Universal Emergency Number Service Customer orders changes to the E911 Universal Emergency Number Service that necessitate revision of this Appendix.

**V. BASIS OF COMPENSATION**

- A. Compensation to Sprint for provision of connection to E911 Universal Emergency Number Service provided hereunder will be based upon the charges set forth in Attachment 1- Price List or Sprint's state specific General Subscriber Services Tariffs.
- B. Charges will begin on the date connection to E911 Universal Emergency Number Service commences.

**VI. MONTHLY BILLING**

Sprint will render to AWS monthly statements in advance, showing the amounts determined as provided in Section V, Basis of Compensation, above, and AWS will make payment in full within thirty (30) days from the date of the bill.

**VII. MUTUALITY**

AWS agrees that to the extent it offers the type of services covered by this Appendix to any company, that should Sprint request such services, AWS will provide such services to Sprint under terms and conditions comparable to the terms and conditions contained in this Appendix.

## Appendix- Local Number Portability

### PORTING OF NUMBERS

- A. The Parties agree to port numbers between their respective networks under the conditions outlined below and applicable to AWS's number portability capable switch(es) identified in Exhibit A.
- B. The following terms as used in this Appendix are defined as indicated
  - (1) Service Location<sup>1</sup>- Fixed physical geographical location where service is delivered. In a wireline or wireline equivalent context, this would be where the loop plant is terminated in the Network Interface Device (NID).
  - (2) Rate Center - A Rate Center is a uniquely defined geographical location within an exchange area (or a location outside the exchange area) for which mileage measurements are determined for the application of intrastate and interstate toll tariffs.<sup>2</sup> Sprint Rate Center boundaries, as listed in the Local Exchange Routing Guide, shall be used.
- C. AWS will assign the telephone numbers to its fixed location wireless service customers such that the customer's Service Location is within the same Rate Center assigned to the NPA-NXX of the telephone number.
- D. AWS's customers subscribing to AWS's fixed location wireless service will not be allowed to change or move their Service Location to a different Rate Center and retain their telephone number.
- E. Customers may port between Sprint and AWS's number portability switch(es) as long as the customers are not changing their Service Location to a point outside the Rate Center in which the NPA-NXX of their telephone number is assigned.
- F. Difference in Porting Provisioning Intervals. The Parties agree that the interval for porting numbers under this Agreement will be a maximum of three (3) days from receipt of the Firm Order Completion (FOC) from the carrier that is to port the number. There are three (3) exceptions to this time frame based on industry standards and discussions; (1) if the new service provider requests a date that is later than three (3) days, it will be accepted, (2) if the order contains the first port within a particular NPA/NXX, the due date must be at least five (5) days from the receipt of the FOC, or (3) if it is a complex order [over twenty five (25) lines] the order will be considered a project and both parties must agree upon the due date.
- G. No Roaming. Roaming is defined as terminal mobility outside the metropolitan statistical area (MSA). The service for which AWS seeks number portability is a

fixed location wireless service utilizing PCS spectrum. Therefore, there will not be a roaming component of the service.

- H. Use of Local Service Request. The Parties will use Sprint's Local Service Request (LSR) process to request porting.
- I. AWS will notify Sprint, in writing, of each new NPA-NXX, including associated Rate Center, for which it plans to offer its fixed location wireless service. AWS will follow the appropriate Region Network Operations Team NPA-NXX code opening process for each of its NPA-NXX codes associated with its number portability capable switch(es) (Exhibit A).
- J. Both working and reserved telephone numbers will be returned to the DONOR Service Provider when the customer's service is disconnected or discontinued.
- K. Prior to initiating number portability, AWS will ensure that it has completed Sprint's CLEC Checklist and CMRS applicable portions of the Joint Operations Plan to be provided by Sprint.
- L. Each Party will designate a single point of contact (SPOC) to schedule and perform recommended intercompany testing. These tests will be performed during a mutually agreed time frame and must meet the recommended guidelines set forth by the appropriate Region Network Operations Team for porting.
- M. Each Party will abide by the NANC and the appropriate Regional Network Operations Team's LNP processes and policies.

---

<sup>1</sup> Any change in the fixed geographical location will be considered a move or change in Service Location.

<sup>2</sup> The Rate Center definition is taken from Section 1, General Information, of the Local Exchange Routing Guide (LERG). The LERG definition has been modified to include intrastate toll tariffs in addition to interstate tariffs. Section 6 of the LERG lists the rate center names, the rating vertical and horizontal codes, the localities to which the rate centers apply, and other cross-reference information.

## **QUERY SERVICE FOR LNP**

Sprint will provide LNP to AWS pursuant to the LNP-related rights and obligations established by pertinent law, and by the FCC, in accordance with Sprint's interstate LNP tariff, located at FCC Tariff No. 1, Section 20 ("the Tariff"), which is incorporated herein to the extent pertinent to LNP, and as provided herein. Sprint will comply with FCC orders approving its tariff containing charges for performance of LNP queries.

**EXHIBIT A- AWS'S NUMBER PORTABILITY CAPABLE SWITCHES**

<b>AWS's Switch CLI</b>	<b>Rate Center</b>	<b>NPA/NXX</b>

## Appendix- Directory Listings

### DIRECTORY LISTINGS

- A. AWS shall have the option to obtain directory listings for AWS' end user customers in the directory of AWS' choice under the following terms and conditions:
- (1) Sprint will handle AWS' request to list AWS end users by providing a foreign listing at the tariffed rate located in the state specific General Subscriber Services Tariff for each listing. Any other listings services provided will be billed at the tariffed rate.
  - (2) The Sprint tariffed rate will apply to AWS on behalf of its end users.
  - (3) The Parties acknowledge that the rates are tariffed rates, and not necessarily indicative of TELRIC costs. In doing so, AWS specifically does not waive its rights to seek different cost based rates following the termination of this Agreement. The provision of foreign listings at tariffed rates is only an interim accommodation to AWS and its end user customers at this point in time.
  - (4) The term foreign is only to denote that the listing does not belong to a Sprint wireline subscriber whose number would normally be listed in the particular directory where the listing will appear. Sprint requires AWS to provide the community name in which the AWS end user wants the listing to appear.
  - (5) Sprint has two designated service centers to handle AWS's requests and permits AWS to order the listing in lieu of the end user.

Apopka, FL National Directory Center

Directory Responsibility for the following states:

Florida, Indiana, New Jersey, Ohio, and Pennsylvania

Fax number for center- (407) 814-2960

Tarboro, NC National Directory Center

Directory Responsibility for the following states:

Kansas, Minnesota, Missouri, Nebraska, Nevada, North Carolina, Oregon, South Carolina, Tennessee, Texas, Virginia, Washington, and Wyoming

FAX number for center- (252) 824-0990

- (6) In placing orders, AWS will provide to Sprint the following information: the customer's name and address as it should appear in the directory, the name of the directory where the listing should appear, and if the listing is to appear as an "indent" under the customers' Sprint wireline residence or business listing (only

applicable if customer has and intends to retain an existing wireline residence or business listing), the business or residential telephone number. In any case, any listings for fixed wireless customers will be able to have an address associated with the customer. AWS will provide to Sprint a contact person to contact regarding the order. The orders will be faxed to Sprint's designated service centers.
