PRICE LIST FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Price List. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14.

C. Paragraph Numbering Sequence - There are various levels of alphanumeric coding. Each level of coding is subservient to its next higher level. The following is an example of the numbering sequence used in this Price List.

- 2.1.
- 2.1.1.
- 2.1.1.1.1.
- 2.1.1.1.1.(A).

D. Check Sheets - When a Price List filing is made with the Commission, an updated check sheet accompanies the Price List filing. The check sheet lists the sheets contained in the Price List, with a cross reference to the current revision number. When new pages are added, the check sheet is updated to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). Company will use no other symbols on the check sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The Price List user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 2 - RULES AND REGULATIONS

2.1. Application of Price List

This Price List applies to local exchange voice and data telecommunications services furnished by BroadBand Office Communications, Inc. (Company) between various locations within the State of Florida in accordance with the conditions set forth herein. Service under this Price List is only available to Customers located in buildings where Company owns or leases facilities.

2.2. Undertaking of Company

The Company undertakes to provide telecommunications services to business Customers within the State of Florida on the terms and conditions and the rates and charges specified herein.

The Company arranges for installation, operation and maintenance of the communications services provided in this Price List for Customers in accordance with the terms and conditions set forth under this Price List. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Customer, to allow connection of a Customer's location to the Company's network.

2.3. Application for Services

2.3.1. Applicants wishing to obtain service may initiate service verbally with the Company or pursuant to a completed and signed written service order. On Company's receipt of the signed order form, under normal circumstances, Company will accept or reject the order within ten business days.

2.3.2. Should the applicant make a service request verbally, and should the Company accept the applicant's order, the Company will provide the applicant, within ten days of the service order, a confirmation letter setting forth the services ordered and itemizing all charges which will appear on the Customer's bill.

Effective:

ISSUED BY: Woody Traylor
Vice President of Regulatory Affairs
BroadBand Office Communications, Inc.
2900 Telestar Court
Falls Church, VA 22042-1206

2.3.3. In addition, the Company will provide all new Customers in writing a statement of all material terms and conditions affecting what the Customer will pay for services provided by Company. The Company will provide the Customer with service, under normal circumstances, within fourteen business days of initial request.

2.4. Individual Case Basis (ICB) Arrangements:

Company may form contracts in special circumstances for Individual Case Basis ("ICB") service offerings. See also Rate Schedule and Section 2.11. ICB service offerings are arrangements with a specific Customer where Customer-specific requirements and the service-specific parameters may vary from the Price List. For ICB service offerings, Company will offer ICB rates, terms and conditions to the Customer in writing. The Company will make any specific contract available to similarly situated Customers in substantially similar circumstances that place an order within 30 days of the effective date of the original contract.

2.5. Establishment and Reestablishment of Credit

Company reserves the right to examine the credit record and check the references of all applicants and Customers.

2.6. Advanced Payments, Deposits and Guarantors

2.6.1. Advanced Payments: At the time an application for service is made, the Company may require an applicant to pay an amount equal to one month's service charges and/or any applicable nonrecurring charges and/or equipment charges. The Company credits the amount of the first month's service to the Customer's account on the first bill rendered.

2.6.2. Deposits:

- 2.6.2.1. Requirement: Company may, at its sole discretion and to safeguard its interests, require an applicant or an existing Customer to post a deposit as a guarantee for the payment of charges as a condition to receiving service or additional service(s). Company reserves the right to review an applicant's or a Customer's credit history at any time to determine if the Company will require a deposit.
- 2.6.2.2. Nondiscrimination: The Company will not require deposits based on race, sex, creed, national origin, marital status, age, number or dependents, condition of physical handicap, source of income, or geographical area of business.
- 2.6.2.3. Amount: The Company may base the amount of the deposit on an estimate of one month's service as determined by the Customer, or the Company's network average usage considering the type and nature of the Customers' service. Such deposit will not exceed an amount for two month's service. Deposits held for longer than six months will accrue interest annually in accordance with Commission rules. Upon receiving a deposit and if requested, the Company shall furnish to the Customer, a receipt showing: the date thereof; the name of the Customer and the current billing address; the service to be furnished or presently furnished; and the amount of the deposit and the rate of interest to be paid thereon. The fact that a deposit has been made neither relieves the Customer from complying with Company's regulations on the prompt payment of bills on presentation nor constitutes a waiver or modification of the regulations of Company providing for the discontinuance of service for non-payment of any sums due Company for services rendered.

- 2.6.2.4. Refund Upon Discontinuance: Upon discontinuance or termination of the service, Company will credit the deposit to the charges stated on the final bill. The Company will return the balance, if any, to the Customer within 30 days after discontinuance or termination of service, and will include any interest on the deposit according to the terms and at the rate as set forth herein.
- 2.6.2.5. Refund After Satisfactory Payment: Within 30 days after prompt and timely payment of all charges for twelve monthly consecutive billing periods, within 30 days, Company will automatically refund the deposit to the Customer. The refund will include any accumulated interest according to the terms set forth herein. Payment of a charge is prompt and timely if received prior to the date that the charge becomes delinquent provided that the payment is not returned for insufficient funds or closed account.
- 2.6.2.6. Deposit Receipt: Each deposit receipt will contain the following provisions: "BBOC shall refund this deposit, less the amount of any unpaid bills for service furnished by BBOC, together with any interest due, within 30 calendar days after the discontinuance of service, or after 12 months of service, whichever comes first. However, deposits may not receive interest if the Customer has received a minimum of two notices of discontinuance of service for nonpayment of bills in a 12-month period."

2.7. Method of Service of Notices

2.7.1. Notice by Company: Unless otherwise provided, any notice by Company to the Customer or to the Customer's authorized representative may be given either verbally (as provided below) to the Customer or to the Customer's authorized representative, or by written notice mailed to the Customer's or the Customer's authorized representative's last known address. Company may provide verbal notice to a Customer or to a Customer's authorized representative only in emergencies, where a delay may result in impaired service or a hazard to a Customer.

2.7.2. Notice by Customer: Unless otherwise provided, any notice by the Customer or its authorized representative may be given verbally to Company at Company's business office, by telephone to Company's business office, or by written notice mailed to Company's business office. Cancellation of service by the Customer may be given verbally, by telephone or by written notice to Company.

2.8. Rendering and Payment of Bills

2.8.1. Charges for installations, service connections, moves, rearrangements, and prepaid services, where applicable, are payable upon demand to the Company or its authorized agent. Billing thereafter will include recurring charges and actual usage as defined in the Price List.

2.8.2. The Customer is responsible for payment of all charges for services and equipment furnished to the Customer for transmission of calls via the Company.

2.8.3. Customer bills are issued monthly. The Customer will receive its bill on or about the same day of each month. Months are presumed to have 30 days. The billing date is dependent on the billing cycle assigned to the Customer. The Company bills monthly recurring charges in advance and usage charges in arrears. Each bill will state the last date for timely payment. Company will prorate monthly recurring charges based on a 30 day month.

- 2.8.4. Bills are due and payable as specified on the bill. Bills may be paid by mail or in person at the business office of Company or an agency authorized to receive such payment. All charges for service are payable only in United States currency. Payment may be made by cash, check, money order, or cashier's check.
- 2.8.5. Customer payments are considered prompt and timely when received by Company or its agent by the due date on the bill. The due date is 21 days after the Company renders the bill and designates by the due date stated on the Customer's bill. The Customer shall have at least 21 days from the rendition of a bill to timely pay the charges stated. Company will credit payments within 24 hours of receipt. Subject to 2.8.4., the Company considers Customer payments delinquent, if received after the due date.
- 2.8.6. If the Customer's service has been discontinued within the 12 months prior to any billing date, or if the Customer incurs usage charges during a billing period which are equal to at least 200% of the amount of the Customer deposit or guarantee, the Company may, by a telephone call to the Customer followed by written notification sent by first class mail, demand full payment within five (5) days of such notification. If the full payment is not made within five days from the date of written notification, or a mutually established late payment arrangement date agreed to by both Company and Customer, the Company will deem the payment delinquent.
- 2.8.7. Bills that remain unpaid beyond the due date on the bill per 2.8.2. or 2.8.3., or beyond the payment due date per 2.8.4., will incur a late payment charge of 1.5%, or the maximum permitted by law, whichever is higher, of the outstanding unpaid balance for each month or part of a month that the bill remains unpaid after the specified due date.
- 2.8.8. When payment for service is made by check, draft, or similar negotiable instrument, the Company may assess a charge of \$25.00 for each such item returned unpaid by a bank to a Company for any reason. This charge is in addition to the late payment charge which may also be applicable.

2.8.9. Company is not responsible for charges incurred by the Customer in gaining access to the Company's network through the facilities of another carrier.

2.9. Disputed Bills

2.9.1. Customer may bring any dispute of a charge to Company's attention by verbal or written notification. If Customer notifies Company of a disputed charge verbally, Customer must confirm that dispute in writing within five (5) days.

2.9.2. In case of a billing dispute between the Customer and the Company which the Customer and the Company cannot settle to their mutual satisfaction, Customer must pay the undisputed portion and all subsequent undisputed bills on a timely basis or the Company may disconnect the Customer's service.

2.9.3. The Customer may request an in-depth investigation into the disputed amount and a review by a Company manager.

2.10. Discontinuance and Restoration of Service

2.10.1. Discontinuance by Customer

2.10.1.1. A Customer may discontinue service(s) upon verbal or written notice to Company on or before the date of disconnection. The Customer remains responsible for payment of all bills for services furnished.

2.10.1.2. If a Customer cancels his order for service before the service begins, the Company may levy a \$25.00 charge upon the Customer for the nonrecoverable portions of expenditures or liabilities incurred by Company expressly on behalf of the Customer.

2.10.1.3. No minimum or termination charge will apply if service is terminated because of condemnation, destruction, or damage to the service location of the Customer by fire or other causes beyond the control of the Customer.

2.10.1.4. Upon termination, the Company may hold pre-subscribed Customer responsible for charges thereafter if the Customer has not selected an alternative local exchange carrier and service has not been transferred to the alternative carrier and such a Customer is continuing to receive service from Company.

2.10.2. Discontinuance by Company

2.10.2.1. Company will discontinue or refuse services as follows:

(a) Company may discontinue services under the following circumstances:

- (i) Nonpayment more than 30 days beyond the date of the invoice for service of any sum due to Company for such service. In the event Company terminates service for nonpayment, the Customer may be liable for all reasonable costs of collection including reasonable court costs, expenses, and fees as determined by the Commission or by the court.
- (ii) A violation of, or failure to comply with, any state, federal or local regulation governing the furnishing of service.

- (iii) An order from a court or from another government authority having jurisdiction which prohibits Company from furnishing service.
 - (iv) Customer's failure to post a required deposit or guarantee.
 - (v) In the event that the Customer supplied false or inaccurate information of a material nature in order to obtain service.
- (b) The Company may refuse or disconnect service in the event of illegal use or of intent to defraud the Company. Company may disconnect service for this reason after sending written notice via certified mail to the Customer's last known address.

2.10.3. Notice for Disconnection under Section 2.10.2.1

- 2.10.3.1. Company will send to Customer, not less than 15 days prior to disconnection, a written notice of the pending disconnection, followed by a second written notice 5 days prior to discontinuance of service. Company shall have given notice upon depositing such notice in the mail to the Customer's last known address, first class postage prepaid.
- 2.10.3.2. Company may discontinue service during business hours on or after the date specified in the notice of discontinuance. The Company will not disconnect service on a day when the offices of Company are not available to facilitate reconnection of service or on a day immediately preceding such a day.

2.10.4. Restoration of Service

Customer may have service restored by paying in full by cash, personal check, money order, or cashiers check. Company may refuse to accept a personal check if a Customer's check for payment of service has been dishonored, excepting bank error, within the previous twelve months. There is a \$35.00 charge for restoration of service after disconnection; however, if the Company removed the equipment necessary for Customer's service(s), a complete activation fee may apply.

2.11. Term Agreements

The Company offers Term Agreements wherein the Customer agrees to retain specified volumes of Company services for a mutually agreed upon length of time. A Termination Liability charge applies to early termination of a Term Agreement.

2.12. Information to be Provided to the Public

2.12.1. Company will make available a copy of this Price List schedule for public inspection in Company's business office during regular business hours.

2.12.2. Company will provide a copy of this Price List upon request to Company's business office for a nominal cost to cover postage and copying fees.

2.12.3. Company will provide rate information and information regarding the terms and conditions of service contained in this Price List schedule, upon request to a current or potential Customer. Company will provide notice of major rate increases in writing to Customers in accordance with Commission rules. Company will also advise the Customer of changes to the terms and conditions of service no later than the Company's subsequent billing cycle.

2.12.4. Company will notify Customers in writing of any change in ownership or identity of the Company on the Customer's bill in the month subsequent to the change.

2.13. Continuity of Service

If Company foresees an interruption of service for a period exceeding 24 hours, Company will notify Customers in writing at least one week in advance of such interruption, or, where this is not feasible in such other manner and at such time as is reasonably practicable.

2.14. Limitations of Liability

2.14.1. Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this Price List. The Company may decline applications for service to or from a location where the necessary facilities or equipment are not available. The Company may discontinue furnishing service in accordance with the terms of this Price List.

2.14.2. The Company reserves the right to discontinue service when necessitated by conditions beyond its control, or when the Customer is using the service in violation of the provisions of this Price List or in violation of the law.

2.14.3. The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection.

2.14.4. The Company reserves the right to discontinue service, limit service, or to impose requirements on Customers as required to meet changing regulatory or statutory rules and standards, or when such rules and standards have an effect on the business or economic feasibility of providing service, as determined by the Company in its reasonable judgement.

- 2.14.5. The Company reserves the right to deny Service to any person or entity: (A) who, in the Company's judgment, presents an undue risk of nonpayment, refuses to comply with the deposit requirements set forth in this Price List; or does not pass a credit check; or (B) if the Company believes that the person's or entity's use of the Service would violate the provisions of this Price List or any applicable law or regulation, or if any applicable law or regulation restricts or prohibits provision of the Service to that person or entity; or (C) if the Company determines in its sole discretion that facilities are not available to provide the Service; or (D) if the Company determines in its sole discretion that any order for Service, letter of authorization and/or third party verification is not in conformance with any applicable law or regulation; or (E) the Service requested has been discontinued; or (F) if an order for the Service may be denied under the terms of any carrier, switched or independent sales representative agreement.
- 2.14.6. The Company reserves the right to refuse to provide service to or from any location where it has not ordered access facilities, installed network interconnections, or the necessary facilities and/or equipment are not available, acceptable, or justifiable. The Company also reserves the right to make changes to equipment, service components, and/or network configurations as may be required.
- 2.14.7. The provision of service will not create a partnership or joint venture between the Company and the Customer nor result in joint service offerings to their respective authorized users.
- 2.14.8. Because the Customer has exclusive control of its communications over the services furnished by the Company, and because interruptions and errors incident to these services are unavoidable, the services, functions, and products the Company furnishes are subject to the terms, conditions, and limitations specified in this Price List and to such particular terms, conditions, and limitations as set forth in the special regulations applicable to the particular services, functions, and products furnished under this Price List. These limitations shall not limit any right the Company may have to be indemnified, defended, or held harmless against any amounts payable to a third person, including any losses, costs, fines, penalties, criminal or civil judgments or settlements, expenses (including attorney's fees), and consequential damages of such third persons.

- 2.14.9. All service provided under this Price List is directly or indirectly controlled by the Company and neither the Customer nor its Authorized Users may transfer or assign the use of service without the express prior written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of service. All terms and conditions contained in this Price List shall apply to all such permitted transferees or assignees.
- 2.14.10. The liability of the Company for damages arising directly or indirectly out of the furnishing of these services, functions, or products, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services, functions, or products or arising out of the Company's failure to furnish the service, function, or product, whether caused by acts of Commission or omission, shall be limited to the extension of allowances for interruption. The Customer or Authorized User has the sole remedy of the extension of such allowances for interruption and the sole liability of the Company. The Customer shall not hold the Company liable for any indirect, special, consequential, exemplary or punitive damages a Customer may suffer, including lost business, revenues, profits, or other economic loss, whether or not caused by the intentional acts or omissions or negligence of the Company's employees or agents, whether or not foreseeable, and regardless of notification by any party of the possibility of such damages.
- 2.14.11. The Customer shall not hold the Company liable for any failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any commission, agency department, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or any civil or military authority, national emergencies, insurrections, riots, wars, unavailability of rights-of-way or materials, or strikes, lock-outs, work stoppages, or other labor difficulties.

If there is no specific remedy set forth in this Price List that addresses the mistake, omission, interruption, delay, error, or defect in transmission of BBOC service occurring in the course of furnishing BBOC service to the Customer and not caused by the Customer or any third party, the Customer's only remedy shall be the lesser of: (i) a credit for the proportionate charges the Customer would incur for the period of service during which such mistake, omission, interruption, delay, error, malfunction, or defect in transmission occurred; or (ii) one thousand dollars (\$1,000.00).

2.15. Credit Allowances for Interruptions

Interruption shall not include, and the Company will give no allowance for, service difficulties, such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall Interruption include the failure of any service or facilities provided by a common carrier or other entity other than the Company. Any Interruption allowance provided within this Price List by Company shall not apply where service is interrupted by the negligence or willful act of the Customer, or where the Company, pursuant to the terms of this Price List, terminates service because of non-payment of bills, unlawful or improper use of the Company's facilities or service, or any other reason covered by this Price List or by applicable law.

For the purpose of determining the amount of any allowance, each month is considered to have 30 days and only those stations on the interrupted portions of a service shall be considered in determining the number of stations affected.

2.16. Use of Service for Unlawful Purposes

The Company furnishes the Price Listed services subject to the condition that the Customer will not use the services for any unlawful purposes. Company shall not furnish service if any law enforcement agency, acting within its jurisdiction, advises that the Customer is using such services in violation of the law. If Company receives additional evidence giving reasonable cause to believe that the Customer is using such services in violation of the law, Company may discontinue or deny the services or refer the matter to the appropriate law enforcement agency.

Any individual who uses or receives Company service, other than under the provisions of an accepted application for service and a current Customer relationship, may be liable for the cost of the services received and may be liable in addition for reasonable court costs and attorneys fees as determined by the Commission or by the court.

2.18. Abuse and Fraudulent Use of Service

2.18.1. Service shall not be used for any purpose in violation of law.

2.18.2. Service shall not be used in such a manner as to interfere unreasonably with the use of the service by one or more other Customers, or interfere with the Company's reasonable ability to provide the service to others.

2.19. "900" and "976" Blocking

Company reserves the right to block the Customer's access to "900" and "976" pay-per-call telephone information services, unless expressly requested not to by the Customer in writing. Company will not impose a charge for blocking.

2.20. Minimum Period

The minimum period for which services are provided and for which rates and charges are applicable is one (1) month unless otherwise specified in this Price List or by mutually agreed upon contract. SECTION 3 - DESCRIPTION OF SERVICES

3.1. LOCAL EXCHANGE SERVICES

The regulations and rates contained herein are applicable to local exchange telephone services furnished within the State of Florida.

3.1.1. Local Service Area

Local exchange services are provided, subject to availability of facilities and equipment, in areas currently served by BellSouth.

3.1.2. Local Exchange Service

Local Exchange Service is an exchange service that permits calling to stations in the customer's local service area.

3.1.3. Message Rate Service

Message rate service is a classification of Local Exchange Service in connection with which local exchange message use is measured in terms of message units for the purpose of charging for the service.

	<u>Monthly</u>	<u>Non-Recurring</u>
Message Line, per line	\$39.10	\$58.25

3.1.4. Local Message Service

A local message is a communication between a calling station and any other calling station within the local service area of the calling station. For charging purposes a local message may be equated to one or more message units depending on the length of conversation.

Each message unit over 75 message monthly allowance	\$0.12

	<u>Monthly</u>	<u>Non-Recurring</u>
DS1 (DOD)	\$700.00	\$1245.00
DS1 (DID)	\$1,000.00	\$1245.00

3.1.7. Direct Inward Dial (DID) Service

DID service is an optional feature which can be purchased in conjunction with company provided Analog trunks or DS1s. DID service transmits the dialed digits for all incoming calls allowing the customer's Private Branch Exchange (PBX) to route incoming calls directly to individual stations that correspond to an individual number. Charges for DID capability and DID number blocks apply in addition to charges specified for Analog trunks or DS1s.

	<u>Monthly</u>	<u>Non-Recurring</u>

3.1.8. ISDN PRI Service

Integrated Services Digital Network (ISDN) describes the end-to-end digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice, data and image services. These functions are provided via channelized transport facilities over a limited number of standard user-network interfaces. The PRI customer premises equipment (CPE) located at the customer premises must be compatible with the network interface.

The PRI arrangement consists of 23 "B" channels and one "D" channel or 24 "B" channels, which are defined as follows:

3.1.8.1. B Channel

The B channel is a 64 kilobit per second (kbps) channel used for information transfer between users. The B channel may be used in conjunction with circuit-switched service.

3.1.8.2. D Channel

The D channel is a 64 kilobit per second (kbps) channel that carries signaling and control for the B channels.

3.1.8.3. PRI Trunk Group

A PRI Trunk Group is a group of channels which are designated as one of the following:

Incoming Exchange Trunk Group
Outgoing Exchange Trunk Group
Two-Way Exchange Trunk Group
Call-by-Call Service Trunk Group

Only one Call-by-Call trunk group may be provisioned per a PRI arrangement. Where available, up to two trunk groups of each of the other trunk group types above may be provisioned on a PRI arrangement. The total number of trunk groups per PRI arrangement is limited to four.

Where available, one D channel can control numerous PRI interface arrangements, depending on facility capabilities. In such cases, a single D channel in one PRI Interface Arrangement handles all the signaling and control requirements of multiple PRI interface arrangements in a specific grouping allowing supplemental PRI interface arrangements to consist of 24 B channels.

A 23B + Back-up D Interface Arrangement is required when two or more 24B PRI interface arrangements are ordered. B channels can be designated for specific services, such as Incoming Exchange Trunks, Outgoing Exchange Trunks and Two-Way Exchange Trunks, or optionally configure channels to access Incoming and Outgoing Exchange Trunks on a per call basis. Two-Way Exchange Trunks may not be accessed on a Call-by-Call basis.

3.1.11. Service Features

3.1.11.1. Line Features

Account Codes – Account codes may be Voluntary or Authorized. This feature allows the customer to track telephone usage to a project, department or division. The codes will be variable length, with a total maximum length of 14 digits.

Call Block – This feature allows the customer to avoid unwanted calls by rejecting calls from a list of 6 numbers specified by the customer.

Call Forward Busy - This feature allows an incoming to be routed to another number if the terminating number is busy. The call may be forwarded to any 10-digit number.

Call Forward Don't Answer – Delayed Answer Forwarding. This feature allows an incoming call to be forwarded to another number after a designated number of rings. The call may be forwarded to any 10-digit number.

Call Forward Variable - This feature allows the customer to forward incoming calls to any 10 digit number, defined by time of day, day or week or date. If a long-distance or an international number is elected, appropriate charges will apply.

Call Hold – This feature allows callers to be put on hold.

Call Park – This feature allows the customer to put a customer on hold and pickup another call.

Call Repeat - This feature allows the originating caller to reach the terminating station once it becomes idle. Both the originating and termination are rung.

Call Return – This feature allows the customer to dial the last caller even if the customer did not answer the telephone.

Call Trace – This feature allows the customer to trace the last call received and hold the results for later use by an authorized law enforcement agency. *Note:* There are two types of call tracing.

Call Transfer – This feature allows the customer to transfer a call from their phone handset to another person's phone handset.

Call Waiting – This feature allows a customer engaged in a call to be reached by another caller. A short tone informs the customer that another call is waiting to be accepted. The tone is only heard by the called party. The caller hears the regular audible ring. The customer will be able to place the first party on hold and answer the second call by momentarily depressing the switch hook (flashing). By subsequent flashes, the customer can alternate between the two calls. This feature may be disabled when the user dials *70 for making modem calls.

Caller Name Delivery – This feature allows the customer to see the name of the calling party as listed in the phone book.

Caller Number Delivery – This feature allows the customer to see the originating number of an incoming call.

Direct inward and outward dialing – This is a standard feature of the system. This feature allows the user to make any 3, 7 or 10 digit call and international call, or receive calls from other system users.

Do-Not-Disturb (DND) - This feature sets the station as unavailable and all calls are automatically transferred to voice mail.

Hunting – This feature will allow a call coming in on one number to “roll-over” to progressively to another number.

Message Waiting Indicator – This feature alerts the user that a message is waiting through an LED or audible indicator.

Music on Hold – This feature allows the customer to select from a variety of music or announcement formats that a caller will hear when on hold.

Outbound Line Restriction – This feature allows the customer to restrict the user calling privileges based NPA, NPA-NXX or international based either on the station number or user ID code.

Permanent call tracing permits tracing of all calls. On-demand call tracing permits tracing, upon request, of a specific call, provided that the called party dials a designated code immediately after the call to be traced is disconnected, *i.e.*, before another call is received or placed.

Touch Tone – Dual Tone Multi-frequency. When a number button is pushed on a phone it makes a tone, which is used for signaling.

Speed Dial – This feature will allow a customer to use abbreviated codes to dial frequently called numbers. Repertories of six and twenty-five will be offered.

Three Way Calling -- This feature will allow a customer involved in an existing 2-way connection to place the other party on hold and dial a third party for a 3-way connection. When the third party answers, a 2-way conversation can be held before the earlier connection is re-established for the 3-way conference.

3.1.11.2. Basic Trunk Feature Requirements

Direct Inward Dialing – This feature is a one-way trunk for incoming calls only.

3.1.12. Centrex Service

Centrex Service is furnished from compatible electronic type switching equipment located on Telephone Company premises and includes the facilities necessary for intercom communication between Centrex lines within the customer's system, Local Exchange Service, direct in-dialing to Centrex lines, identification and billing of outgoing long distance messages by line number where such billing is done by the Telephone Company, Touch-Tone Calling Service, and intercept to the main listed number.

3.1.12.1. Features. The Centrex Custom Service dial switching equipment shall be arranged to provide the following system and line feature capabilities:

Automatic Callback – When a person calls another extension and finds it busy, the caller either presses a callback button or dials some digits. When the person whose phone was busy hangs up, the phone system rings both parties and the system connects the two together.

Call Block – This feature allows the customer to avoid unwanted calls by rejecting calls from a list of 6 numbers specified by the customer.

Call Forward Busy - This feature allows an incoming to be routed to another number if the terminating number is busy. The call may be forwarded to any 10-digit number.

Call Forward Don't Answer – Delayed Answer Forwarding. This feature allows an incoming call to be forwarded to another number after a designated number of rings. The call may be forwarded to any 10-digit number.

Call Forward Variable - This feature allows the customer to forward incoming calls to any 10 digit number, defined by time of day, day or week or date. If a long-distance or an international number is elected, appropriate charges will apply.

Call Hold – This feature allows callers to be put on hold.

Call Park – This feature allows the customer to put a customer on hold and pickup another call.

Call Pickup – This feature allows the customer to answer another person's ringing phone by punching in one or two numbers on their phone.

Call Pickup with Barge In – This feature allows the customer to interrupt a another call while it is in process.

Call Repeat - This feature allows the originating caller to reach the terminating station once it becomes idle. Both the originating and termination are rung.

Call Restriction – This feature prevents the caller from making certain types of calls, usually either a toll or a long distance call.

Call Return – This feature allows the customer to dial the last caller even if the customer did not answer the telephone.

Call Select Forward – This feature allows the customer to have calls from selected numbers ring at another number.

Call Transfer – This feature allows the customer to transfer a call from their phone handset to another person's phone handset.

Call Waiting – This feature allows a customer engaged in a call to be reached by another caller. A short tone informs the customer that another call is waiting to be accepted. The tone is only heard by the called party. The caller hears the regular audible ring. The customer will be able to place the first party on hold and answer the second call by momentarily depressing the switch hook (flashing). By subsequent flashes, the customer can alternate between the two calls. This feature may be disabled when the user dials *70 for making modem calls.

Caller ID Rejection – This feature prevents the customer from receiving calls from specific numbers.

Caller Name Delivery – This feature allows the customer to see the name of the calling party as listed in the phone book.

Caller Number Delivery – This feature allows the customer to see the originating number of an incoming call.

Distinctive Ring – This feature allows the customer to distinguish types of incoming calls such as an outside call or an inside (intercom) call by the tone of the ringing.

Executive Busy Override – This feature allows certain users to intrude on conversations on other extensions.

Hunting – This feature will allow a call coming in on one number to “roll-over” to progressively to another number.

Intercom Dialing – This feature allows the customer to dial another person’s extension.

Last Number Redial – This feature allows the customer to automatically redial the last numbered dialed.

Priority Call – This feature gives high priority callers a ring of their own. This allows the customer to program up to 6 callers’ numbers. If the customer has Call Waiting, they will hear a priority “beep” when they are on the phone.

Speed Dial – This feature will allow a customer to use abbreviated codes to dial frequently called numbers. A block of twenty-five numbers will be offered.

Three Way Calling -- This feature will allow a customer involved in an existing 2-way connection to place the other party on hold and dial a third party for a 3-way connection. When the third party answers, a 2-way conversation can be held before the earlier connection is re-established for the 3-way conference.

Touch Tone – Dual Tone Multi-frequency. When a number button is pushed on a phone it makes a tone, which is used for signaling.

Falls Church, VA 22042-1206

3.2.1.1. Directory Listings are provided in connection with each customer service as specified herein.

3.2.1.2. The alphabetical section of the telephone directory consists of a list of names of customers in alphabetical order and is designed solely for the purpose of informing calling parties of the telephone numbers of customers and those entitled to use the customer's service as an aid to the use of telephone service, and special position or arrangement of names is not contemplated.

3.2.1.3. Listings must conform to the Telephone Company's specifications with respect to its directories.

3.2.1.3.1. The Telephone Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of the customer is not impaired thereby. Where more than one line is required to properly list the customer, no additional charge is made.

3.2.1.3.2. The Telephone Company may refuse a listing which is known not to constitute a legally authorized or adopted name, or any listing which, in the opinion of the Telephone Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Telephone Company, upon notification to the customer, will withdraw any listing that is found to be in violation of its rules with respect thereto.

3.2.3. Inside Wiring Maintenance

Premises wiring is wiring which connects separately housed equipment entities or system components to one another, or wiring which connects an equipment entity or system component with the telephone network interface, located at the customer's premises and not within an equipment housing.

Issued: June 9, 2000

Effective:

ISSUED BY: Woody Traylor

3.2.3 (cont.)

Fully-protected premises wiring is premises wiring which is:

No greater than 25 feet in length (measured linearly between the points where it leaves equipment or connector housings) and registered as a component of and/supplied to the user with the registered terminal equipment or protective circuitry with which it is to be used.

A cord which complies with (a) preceding and which is extended once by a registered extension cord. Extension cords may be used as a substitute for wiring which for safety reasons should be affixed to or embedded in a building's structure.

Wiring located in an equipment room with restricted access, provided that this wiring remains exposed for inspection and is not concealed or embedded in the building's structure, and that it conforms to Part 68 of the Federal Communications Commissions Rules and Regulations.

Protected premises wiring requiring acceptance testing for imbalance is premises wiring which is electrically behind registered equipment, system components or circuitry which assure that electrical contact between the wiring and commercial power wiring will not result in hazardous voltages at the network interface.

Unprotected premises wiring is all other premises wiring.

Customers who intend to connect premises wiring other than fully-protected premises wiring to the telephone network shall give advance notice to the Telephone Company in accordance with the procedures specified in Part 68 of the Federal Communications Commission's Rules and Regulations or as otherwise authorized by the Federal Communications Commission.

3.2.3 (cont.)

The Telephone Company may invoke extraordinary procedures specified in Part 68 of the Federal Communications Commission's Rules and Regulations where one or more of the following conditions are present:

Information provided in the supervisor's affidavit gives reason to believe that a violation of Part 68 of the Federal Communications Commission's Rules and Regulations is likely.

A failure has occurred during acceptance testing for imbalance.

Harm has occurred, and there is reason to believe that this harm was a result of wiring operations performed under Part 68 of the Federal Communications Commission's Rules and Regulations.

3.2.3.1. Restrictions

Basic wire maintenance does not cover:

- PBX systems
- Channel services
- Coin operated telephone services
- ISDN (PRI)

Pre-existing conditions misuse; abuse; riot; acts of war; fire and acts of nature; Non-standard wire and jacks that do not comply with Part 68 of FCC rules and/or Broadband Office's technical standards; Malfunctions resulting from the use of voice grade lines to transmit or receive data or signals beyond the operating parameters of the line; Restoration of premises if asked to repair concealed wire; Customer provided equipment (CPE); Inside telephone wiring; jacks or other items used in connection with the telephone exchange of a provider other than BroadbandOffice.

Basic wire maintenance does not provide for any direct repair work on other than the customer's premises wire and jacks. Inside wire maintenance may not be the customers' responsibility if their business is operating in a leased premises. Customers should contact their landlord or property manager to determine responsibility.

3.2.3.2.	<u>Rates</u>	<u>Monthly</u>
	Inside Wiring Maintenance Charges: Per Business Line	\$5.00

3.3. DATA COMMUNICATIONS SERVICES

The regulation and rates contained herein are applicable to data telecommunications services furnished within the State of Florida.

3.3.1. Dedicated Leased Line Service

Company's Dedicated Leased Line service is a high-speed digital communications service using a physical fiber optic connection between two locations within the State of Florida. Dedicated Leased Lines are non-switchable connections that can provide a constant and committed availability of capacity (for a single Customer) on a transmission path only between fixed, customer-specified locations. Dedicated Leased Line transmission speeds range from the DS-0 level up to and including OC-n speeds. Dedicated Leased Line circuits at DS-0, Fractional DS-1, DS-1 and DS-3 levels may be available between any two POP locations within the State of Florida. Broadband Circuits over DS-3 capacity are only available as On-Net Circuits between POPs. Provision of Dedicated Leased Line circuits are subject to facilities and capacity availability.

Issued: June 9, 2000

Effective:

ISSUED BY: Woody Traylor
Vice President of Regulatory Affairs
BroadBand Office Communications, Inc.
2900 Telestar Court
Falls Church, VA 22042-1206

Dedicated Leased Line circuits with speeds at or below DS-1 are priced at a fixed and variable monthly recurring charge based on line speed, Central Office Connection and the V&H miles between the nearest available POP to the Customer or End-User locations (as determined by the NPA/NXX of the locations). Broadband Dedicated Leased Lines are priced at a fixed and variable monthly recurring charge based on line speed, Central Office Connection and the V&H miles between the nearest available POP to each fixed Customer or End-User location. For Dedicated Leased Line circuits at speeds at or below DS-1, the provision of Local Access Circuits may be coordinated directly by Customer or may be coordinated by the Company on Customer's behalf. For Broadband Dedicated Private Line circuits, the Company shall be solely responsible for all local access coordination functions and all costs for the interconnection of each Customer premise with the Company network at the nearest available POP.

Company shall invoice the Customer on a monthly basis at the Customer's designated site in the United States, in accordance with the following schedule: (i) one (1) month in advance for all recurring MRC charges due under this Agreement, in addition to the retroactive billing for the first billing invoice of a service; and (ii) in the month preceding the applicable usage (i.e. month of contract execution) for all NRC charges. Failure of the Company to timely invoice the Customer for any amounts due hereunder shall not be deemed a waiver by Company of its rights to payment for such charges.

3.3.1.2. Rates and Charges

Rates set forth herein for Company services requiring dedicated access do not include access and access-related charges (including, without limitation, installation charges, inside wiring charges assessed by the local exchange carrier ("LEC"), construction charges assessed by the LEC and distance and termination charges assessed by the LEC). Therefore access and access related charges are additional charges.

OC-n pricing will be on an ICB (Individual Case Basis). Pricing will be based on a 100 mile minimum circuit, and therefore circuits with V&H mileage between the two customer sites of less than 100 miles, will be priced at 100 miles.

3.3.1.3. Broadband Facility Minimum Service Term

Customer acknowledges that the Rates and Charges described in this Price List Section are based on the commitment of the Customer to utilize the Broadband Circuits or Facility for a specified minimum period of time. Therefore, notwithstanding anything in this Price List to the contrary and in addition to other charges set forth in the Price List, the Customer will be billed and required to pay to Company all rates, fees and charges which accrue for each Broadband Circuit and for all associated local access during the entire Circuit Minimum Service Term (as defined below) applicable to each such Broadband Circuit plus all NRC charges applicable to such circuit that were previously waived, regardless of whether or not Customer utilizes all or any part of such Broadband Circuit during all or any part of the Circuit Minimum Service Term applicable to such Circuit.

The "Circuit Minimum Service Term" for each Circuit, is defined as follows:

For DS-0, Fractional DS-0 and DS-1 Leased Line Circuits:

No "Circuit Minimum Service Term" shall apply.

For DS-3 and OC-n Broadband service the "Circuit Minimum Service Term" shall be as follows:

The Circuit Minimum Service Term shall be a minimum period of one (1) year, beginning from the date of service order fulfillment.

3.3.1.4. Termination of Service

Upon termination of the Customer's agreement or upon termination of a broadband circuit, which has not met the "Circuit Minimum Service "Term", all monthly recurring charges and non-recurring charges shall retroactively be collected.

1. Credit Allowances shall not apply in the event that the Company's Dedicated Leased Line Service is unavailable due to any of the following:
 - (a) Interruptions on Domestic Dedicated Leased Line circuits that are not "Accepted Circuits" where an Accepted Circuit is one that Company and the Customer have tested and mutually agree is working as ordered.

Interruptions caused by the negligence, act, error, or omission of the Customer or others authorized by the Customer to use the Customer's service.

Interruptions due to failure of power at the customer premise or failure or poor performance of customer premise equipment.

Interruptions during any period in which the Company or its agents are not afforded access to the premises where the access lines associated with the Customer's service originate or terminate.

Interruptions during any period when the Customer or user has released service to Company for maintenance or rearrangement purpose, or for the installation of the Customer's service order.

An interruption during any period when the Customer elects not to release the service(s) for testing and/or repair and continues to use it on an impaired basis.

Interruptions resulting from a failure of an underlying local exchange carrier where the local access circuit was not provided by Company.

3.3.2. DSL Service, (cont'd.)

Service Provisioning

All DSL Services are provisioned over existing copper facilities and transported to the Company's backbone network. DSL service provides a connection from the customer's designated location to the DSL connection point.

Access from the Company's DSL connection point will be provided via Dedicated Leased Line Service, where facilities permit. The Dedicated Leased Line Service must be of sufficient bandwidth to support the maximum speed of the DSL service being provided. Dedicated Leased Line Service is available under Section 3.1 of this Price List. A customer may use its existing interstate Dedicated Leased Line Service, or may submit an order to establish new facilities. If a customer utilizes Dedicated Leased Line Service from Section 3.1, the associated regulations, rates and charges for such facilities shall apply in addition to the rates and charges associated with the DSL Service rate element.

The Company will qualify the DSL Service between the CDL and the serving wire center. The purpose of qualification is to determine the availability and suitability of existing copper facilities to provide the service. The Company will not provision this service on facilities which are not suitable for DSL.

3.4. PROMOTIONAL OFFERINGS

The Company may offer existing services on a promotional basis, subject to Commission approval, that provides special rates, terms, or conditions of service. Promotional offerings are limited to a maximum of six months at which time the promotional offering must be either withdrawn or made available on a permanent basis. All promotions, regardless of whether services are given away for free, are subject to Commission approval.

Competitive Response Promotion

From time to time, BBOC may offer a new subscriber of service discounts (up to 100%) off the Customer's total usage charges. Such discounts may have variable terms of applicability and expiration dates. These discounts may apply to monthly recurring port charges, access loop charges, installation charges, and other non-recurring fees.
