Hi Linda,

This docket should be treated as just an IXC application.

The application to acquire assets, etc... should really have been treated as just a notification to the Commission and not as part of the docket title and/or recommendation. I contacted the Consultant and asked if the company was requesting a waiver of the slamming rule and he said no. They were just making the FLPSC aware of the acquisition. This is not a transfer of the other companies certificates. The other companies plan to cancel the certificates at a later date. Companies can acquire assets as much as they want and the FLPSC isn't involved unless there is a waiver or transfer/assignment of a certificate.

Can you change the Casr title back to: Application for certificate to provide interexchange telecommunications service by PT-1 Counsel Inc.

Thank you,

Toni
