ATTN: Division of Records

To Whom It May Concern:

At the time we applied for and received our license we had not purchased any phones or any equipment to start up actively in the pay telephone business.

During the time we became licensed by the commission and present time we decided against investing in the pay telephone business.

Therefore, would you please cancel our license. P.T. Communications never was or will be an active company.

Sincerely,

  
George Tobin, Sr.
