Subject: Docket No. 001007-TI; Enron Broadband Services, Inc.

Linda, after conversation with Enron it has been determined that they do not need a IXC certificate but an ALEC and AAV. Please change the above docket to reflect an ALEC application using the same docket number. They are bringing an AAV application and check for \$250 by runner this afternoon as well as an ALEC application to replace the IXC one.
