Dear Sir,

The UNITED WATER FLORIDA< INC has applied to you for a water/sewer line to go through our communities, and wanting the property owner's to pay the bill so United Water Florida, Inc can install a basin for boats, or housing project.

Now that company wants the property to foot the boll, that is not right.

When the company first started they told the home owners that on one could tie in to the lines now that the government has shut them down for not having permits and testing the lines like is suppose to be done.

I would ask you **not** to grant the permits for them to install the pipe and be able to charge the land owners a fee to do this.

I'm a land owner of about 26 acres on chester road and Water Oak Road.

I thank you for your time.

Charles Johnson
