Dear Director,

001234-WS

I live in Nassau County Fla. between  
 Fernandina Beach and Julee, I do not  
 want rezoning in my area to allow for  
 the application of United Water Florida,  
 Inc. to extend their service area in Nassau  
 County as per in the paper last week. Aug.  
 30 2000. They are taking in to much area!  
 Its neither needed or wanted. The expense  
 would be a hardship; since it is unnecessary  
 why allow it? What about the people that  
 just spent 4,000 for their systems just put  
 in. This developer building out here  
 should just tend to his own business &  
 stay out of mine.
